

WHY FRANCHISE WAS WITHDRAWN

Misunderstanding Led to the Home Telephone & Electric Light Company Failing to Get Its Offer Before the Council Wednesday Night—Conflict of Statements as to What Was Said.

George Halverson stated to a representative of the Standard this morning that the reason the ordinance providing for an electric franchise to the Home Telephone & Electric Light company of Davis county, which company he represented before the council Monday night and again last night was withdrawn, was that Mr. Cotterell, an agent for the company, had explained to him that he had talked with members of the city council, among them being President Browning and Charles Humphris, and also the city attorney, regarding the matter, and that the things said to him by them indicated that the terms of the franchise would be such that it would be impossible for the company to operate under them.

Mr. Halverson said that Mr. Cotterell, in a conversation with these gentlemen, had been told that the franchise would be granted, but that it would be so modified and such restrictions made that it would be next to impossible for the company to comply with the terms. This being the case, it was decided that the ordinance should be withdrawn and no further action taken.

The materials are of the sort that will be worn next fall and winter. You'll be surprised at the values—ask to see them.

SYMPTOMS PUZZLE PLAGUE EXPERTS

PEKIN, Feb. 8.—A letter received here from a British volunteer physician in Harbin says the plague becomes more puzzling in its symptoms every day. A thorough examination is made of all persons placed in quarantine, and the physicians carefully segregate those in whom the heart symptoms are considered mild. Nevertheless, some of these patients are invariably found to have died. Foreign doctors in many places are disheartened over the indifference, incapacity and corruption of the officials, who refuse to learn from the experience of Harbin, and need to be brought face to face with similar conditions before they will surrender the work of combatting the disease to the sanitary officers. Dispatches from Harbin say that while the disease appears to be decreasing there, it has broken out among the troops at several places and threatens to spread. The afflicted soldiers have not been isolated, but continue in barracks. Many deaths occur daily at Tientsin and the medical officers believe it will share the fate of the Manchuria towns. The masses here declare Pekin, although surrounded, will not be extensively afflicted because of the presence of the emperor.

GREAT SUMS TO ADVERTISE WEST

A dispatch has been received by the Salt Lake Tribune from Chicago announcing that the Harriman officials have appropriated \$1,250,000 for advertising the west during the year 1911. The money will be spent in exploiting those parts of the west which are traversed by the Union Pacific, the Southern Pacific, the Oregon Short Line and the Oregon-Washington road. More than \$100,000 of the amount will go to the Oregon Short Line, to be used in advertising Utah and Idaho. Estimates furnished by various railroad officials as to the amount to be expended by their lines this year in the advertising of Utah alone is as follows: Harriman lines, \$75,000; Salt Lake Route, \$25,000; Denver & Rio Grande, \$20,000; Colorado Midland, \$15,000; Western Pacific, \$10,000. A total of \$145,000 to be spent in one year by these roads for the purpose of advertising Utah to homeseekers, investors and tourists. This is in addition to tens of thousands of dollars which will be expended by various other roads advertising this state. The Chicago, Milwaukee & St. Paul, the Rock Island and other roads are also preparing publicity matter which has to do with the advertising of Utah. The purely local roads, such as the Emigration Canyon

TOMATO FACTORY OFFERS ONLY \$8

(Special to Standard.) Plain City, Feb. 8.—Without a dissenting voice a resolution "pledging ourselves to the support of this movement was adopted at a farmers' meeting held here last night. By this movement is meant the effort on the part of farmers in Weber, Davis, Boxelder and Cache counties to boost the price of boats for the year 1911 up to \$5.00 a ton on the cars rather than at the factory. The preamble to the resolution states that in the opinion of "fully 90 to 98 per cent of the beet growers, the farmer is justly entitled to at least \$5.00 per ton f. o. b. cars for sugar beets."

The boiler-makers ask a wage scale of 35 cents per hour and the abolishment of piece work.

"DEAD" MAN ONLY UNCONSCIOUS

Provo, Feb. 8.—In response to a call to come and get a dead man from the railroad tracks near here, Deputy Sheriff S. Bachman this morning fetched into this city an unconscious unidentified man. The man was taken to the county jail, where he was treated by the county physician, and he was revived sufficiently to be able to give his name as John Peterson. He said that he was put off a train while en route from Superior, Kan., to Portland.
