IN HEAD-ON COLLISION

Nine Persons Killed and Twenty Injured in Nebraska

McCook, Neb., May 28.—East and west-bound passenger trains No. 9 and 12, on the Burlington railroad, met head-on in a fog, about nine miles east of here, this morning. Nine bodies already have been brought to the morgue in this city.

The Dead.
ROBERT SHEPHERD, Holdrege, traveling man for Simmons' Hardware company.
CLARENCE HILSABECK, Holdrege, Neb.
ENGINEER JOHN W. HYDER, of Lincoln, Neb.
FIREMAN DAMRON, of Lincoln, Neb.
ENGINEER W. T. LEAHY, of Lincoln.
FIREMAN FLINT of Train No. 9.
FIREMAN T. H. BOWERS.
FIREMAN A. J. OHLSEN.
GEO. FREDER, of McCook, baggage-man.

Baseball Players Injured.
None of the passengers was seriously injured, according to the general agent of the Burlington in Denver.

The list of the injured includes Pitchers Edward Kinsell, of the Denver club, and Bert Keeley of the Omaha club.
Both trains were running at high speed when the collision occurred, but the force of the collision was apparently felt more by the heavy west-bound train, the Colorado limited, which was made up of a baggage and express car, day coach, diner, two tourist sleepers, a Pullman sleeper and an observation car. The day coach was reduced to splinters, and in this coach most of the casualties occurred. One of the tourist sleepers, containing members of the Denver Western league team, was thrown on its side, and a number of passengers, including President McGill, injured, but none seriously. The baggage car was also overturned. Twenty persons were injured.

Both engines were reduced to a mass of twisted steel, in which were the mangled bodies of the engineers and firemen.
As soon as news of the wreck reached McCook, two relief trains, carrying surgeons and nurses, were made up and hurried to the scene of the wreck.

TRACK RECORDS TO BE BROKEN

New York, May 29.—James E. Sullivan of the A. A. U., just back from the Intercollegiate at Cambridge, declares that this year's contests were the best in the history of athletics and really marked a new athletic epoch. Jones of Cornell, he thinks, should be able under ideal climatic and track conditions, to set a new world's record in the mile better even than the world's professional record, 4:12.34, which has stood the test of time, having been made over a generation ago.

In the pole-vault Mr. Sullivan thinks that Babcock of Columbia will some day clear 13 meet and set a record for all time. He did his great work on Saturday. It appears, with a borrowed pole, loaned to him by Harry Hillman.

PRINCE JOACHIM IS SERIOUSLY INJURED

Berlin, May 29.—Prince Joachim, the youngest son of Emperor William, was seriously injured today during sham battle exercises of the Second guard brigade. The prince's foot is thought to have been broken.

The maneuvers were being conducted under the personal command of the emperor, Prince Joachim, who is 21 years old, recently was made an officer of the guard brigade.

ROOSEVELT TO TALK TUESDAY

New York, May 29.—Colonel Roosevelt will deliver the chief Memorial Day oration in New York tomorrow. He will speak at Grant's tomb under the auspices of the U. S. Grant Post of the G. A. R. The oration follows upon the reading of the regular ritual service for the dead.

The care of the tomb and the annual visit to it, on Memorial day are the cherished privileges of this post of the G. A. R., which includes 300 veterans.

ROCKEFELLER, HIS AGE AND HEALTH

New York, May 29.—A new Rockefeller story is being told today by friends who met at the Fifth Avenue Baptist church yesterday. The preacher, Dr. John Clifford of London, came down to the Rockefeller few after the service to shake hands with John D.
Mr. Rockefeller remarked that the white-haired minister looked well and hearty and fit for several years of

useful service. Dr. Clifford inquired how old Mr. Rockefeller was.
"Seventy-two," was the answer.
"Dear me!" said Dr. Clifford, "I'm only 74 myself. Is your health good, Mr. Rockefeller?"
"I am feeling very well, indeed," said Mr. Rockefeller.

After a few moments more of conversation regarding each other's well preserved health, the two parted. Dr. Clifford as he was leaving placed his hand on Mr. Rockefeller's head and said:
"Goodbye and God bless you."
The financier solemnly returned the benediction and with upraised hand bade him back.
"Yes, and God bless you, Dr. Clifford."

BURNED AT THE STAKE

American Put to Death and His Wife Taken Prisoner

San Francisco, May 29.—Refusing to comply with demands for money by a band of bandits at Ajuna, Michoacan, Robert J. Sweeney, an American superintendent of the Central Railroad of Michoacan, was burned at the stake on May 18, according to the story of Jose Hansfelder, one of the refugees who arrived here yesterday on the steamer Newport, from Manzanillo. Hansfelder says that the bandits had made demands for money of every American in the district. Some complied, but Sweeney refused to pay.

Hansfelder declares that he made his way to Sweeney's house, three miles distant from his own home, on May 19, and found the house was burned to the ground and Sweeney's body lashed to a post in the midst of the burning ambers.
Mrs. Sweeney had disappeared, and is believed to have been taken prisoner by the bandits, and held for ransom.
Fearing his own house would be attacked, Hansfelder with his family made his way to Manzanillo and took passage for the United States.
Sweeney is believed by Hansfelder to have been a former resident of San Diego.

FISH PIRATES ON NIAGARA RIVER

Buffalo, N. Y., May 29.—Fish pirates have become so persistent in their operations on the Niagara river that members of fishing clubs propose to organize a vigilance committee to hunt them down. The pirates are using both nets and dynamite in their illegal operations.

The only fish secured at this time of the year by the explosive methods are mullet, which bring about three cents a pound. Every charge of dynamite, however, destroys hundreds of game fish of all kinds. The latter do not come to the surface. The fishing club vigilance men will be sworn in as special deputies and will go after the pirates with rifles and shotguns. The law prescribes a penalty of \$500 fine and imprisonment if convictions can be secured.

MATT WELLS IS TO MEET CROSS

New York, May 29.—Matt Wells, the lightweight champion of England, will have Leach Cross for his first opponent in this country. The two have been matched for ten rounds at the Madison Square Athletic club, Friday night. The weight agreed upon is 135 pounds at 3 o'clock. Wells is already training for the fight at Chester, Pa.

Abbe Atell has decided to box ten rounds with Kinross Brown before the National Sporting club, on June 8. The weight will be 133 pounds ringside.

"WETS" FEAR THE VOTE OF WOMEN

New Haven, Conn., May 29.—Liquor interests throughout the state are much perturbed over the possibility that the legislature may pass the woman's municipal suffrage bill, which allows women to vote on the license question. The bill has already passed the senate and only awaits favorable action by the lower branch to take it to Governor Baldwin for his signature and he, in his message, favored woman suffrage.

In many of the smaller towns, the license vote is always close and with the women voting no-license, the interests fear that a majority of the towns now wet would vote dry.

Action on the bill may be taken this week.

MOTORCYCLIST KILLED IN A COLLISION

Rochester, N. Y., May 29.—While driving his motorcycle on the wrong side of the road near Avenue Baptist church yesterday, a man here last night, George H. Ellis, worth collided head-on with an automobile and was killed. Mr. Ellisworth was head of a painting company and president of the Rochester Motorcycle club.

LEPROSY IS NOW CURED

Two Patients Have Been Restored to Health in a Hospital

New York, May 29.—That leprosy can be cured is apparently demonstrated by the discharge of two patients at the Blackwell's Island hospital here after several years' treatment in isolation. The first patient, an American, was allowed his freedom eight months ago, but no announcement was made until this week as it was feared that, if any publicity were attached to the case, life would be made unbearable for the patient.
The second patient, a woman, was also discharged some time ago and reported to her old home in the West Indies, where she has since married and is living happily.
There are still six lepers under the care of the city physicians at Blackwell's Island.

The New York institution for many years past has welcomed the lepers who are driven out of other cities. While the public still labors under the old delusion that leprosy is highly dangerous, the Blackwell's Island doctors declare that the leprosy cases are far less dangerous than tuberculosis cases, of which there are over 900 on the island.

WORLD'S MARKETS

UNITED STATES STEEL MAKES HEAVY MARKET

New York, May 29.—United States Steel was slightly lower today, with the stock market today, with 19,900 shares being sold in the first five minutes at a decline of 3-8. Most of the other active stocks were firm. Canadian Pacific was the strongest advancing 1-8.

The general run of fluctuation did not amount of much and the market was not influenced by the buoyancy of Canadian Pacific, and several industrial. Canadian Pacific touched 237 1/2; its best record.
Heaviness of United States Steel, which sold nearly a point lower, held the stock market in check this morning and the tone became dull and retreating. Holders of United States Steel were led to sell by fears of further unsettlement of the steel and iron trade, and by uncertainty as to whether more price reductions would follow today at the meeting of manufacturers. Trading was also restricted by the belief that the supreme court would announce its decision in the American Tobacco case today and there was also the usual curtailment of operations preceding a holiday. Reading sold off with United States Steel, but there was no sign of weakness elsewhere, prices holding close to Saturday's final figures. Renewal of the upward movement in Canadian Pacific was attributed to the excellent crop prospects over the border.

Bonds were irregular.

HALLEY'S COMET BEING FOLLOWED BY TELESCOPE

San Jose, Cal., May 29.—Director W. H. Campbell of Lick observatory last night issued the following report on Halley's comet:
"Halley's comet, which was near-

est the sun and earth a year ago, has been followed on its journey into distant space with the telescopes of the Lick observatory. The comet is now a little farther than Jupiter is from the sun; that is, about 500,000,000 miles, but Astronomer Curtis has photographed it with the Crossley reflector on two nights, this week, exactly in the predicted positions. Even with the powerful photographic telescope, the image of the comet is extremely faint on the plates, and it would no doubt be invisible in most powerful telescopes if looked at visually. The comet is now sixty per cent farther from the sun than it was when its approach to the sun was discovered photographically in September, 1905."

RESORT IS DESTROYED

San Francisco Has a Big Blaze at the Chutes

San Francisco, May 29.—Three bodies have been recovered from the ashes of the fire that destroyed the Chutes, San Francisco's largest outdoor amusement resort early this morning. Firemen are searching the ruins for bodies of others still unaccounted for.
One of the bodies has been partially identified as that of John Walker of this city. Another is believed to be that of John Boetting, who was asleep in a house in which he was consumed by the flames. The third body taken from the ruins is that of either a young boy or girl.

KILLED BY A LUNATIC

Electrician Put to Death While at Work at an Insane Asylum

Geneva, N. Y., May 29.—While Thos. Carroll, an electrician, was making repairs at the Willard State Insane hospital here last night, a lunatic, whose name is said to be Charles Conklin, crept up behind him, took a hammer from his kit and sank it into Carroll's head, killing him instantly. The lunatic then dragged the body to a coal room where he drove an ice pick through Carroll's head.
Young Carroll was to have been married in June.

NO ACTION IS TO BE TAKEN

Congress Will Not Investigate Kidnaping of McNamara

Washington, May 29.—That congress will not conduct an investigation into the arrest and extradition to California, in connection with the Los Angeles dynamite case of J. J. McNamara, the Indianapolis labor leader, was indicated today when the house committee on rules decided to take no action on the Berger resolution providing for such an inquiry.

ACCIDENTALLY SHOT BY A BOY

Troy, N. Y., May 29.—Tara Lundstrum and his niece, Miss Betty Larsen, were accidentally shot by a single bullet last night while they were sitting under a tree at Snyder, Lake near here. The shooting was done by a 12-year-old boy who was returning from a woodchuck hunt. He had one shot left in his gun and he fired it at random. Both his victims were wounded in the head.
The young woman will probably die, but Lundstrum will recover.

ILLINOIS ALARMED OVER THE WEST

Chicago, May 29.—President G. A. Anthony of the state board of agriculture has written a letter to Governor Deneen, urging him to call a convention to be attended by delegates from every county for the purpose of considering a state-wide campaign of publicity to offset the work of railroads in the west, which is causing people to remove from Illinois.

MURDEROUS WORK OF A FARM HAND

Pawnee City, Neb., May 29.—J. A. McVittie, his wife and two children were shot and killed and a third child dangerously wounded in their beds early today by Jim Felder, a farm hand, who had been working for McVittie.
Felder later shot and killed himself after shooting Sheriff Fuller three times and seriously injuring him.

LEMONS ARE HIGH

Chicago, May 29.—Owing to the unusually hot weather of the last two weeks, lemons have advanced more than fifty per cent in price in the Chicago market. Crates that sold at \$3 and \$3.50 the first of the week were selling at \$5 and \$5.50 today.

POPE DEPLORES PORTUGAL'S ACTION

Rome, May 29.—An encyclical, addressed by Pope Plus, to the Roman Catholic bishops throughout the world, strongly deploring the anticlerical attack of the government of the Portuguese republic, was officially published at the Vatican today.
The encyclical deals with the violent expulsion of religious orders from Portugal; the suppression of church holidays, religious oaths and religious teachings; the introduction of divorce laws; the arbitrary deposition of the bishops of Oporto and Beja, and finally, the law separating church and state.
The Holy See, the encyclical says, has been patient up to now, but can no longer keep silent, as the law of separation denies to Catholic citizens

The Holy See, the encyclical says, has been patient up to now, but can no longer keep silent, as the law of separation denies to Catholic citizens

even common liberties. Such a law, the encyclical asserts, is a spoliation of material goods and a tyrannical oppression in spiritual affairs. Man is deprived forever of a fixed church in which to worship and the law even violates the will of testators.
Ecclesiastics, the encyclical declares further, are excluded by the law from organizations of cult. It prohibits the publication of ecclesiastical acts; it forbids, religious emblems, it encourages rebellion and the corruption of the clergy, pensioning those who have been punished by bishops or those living with women.
The law aims to detach the Portuguese church from Rome, the encyclical says in conclusion, and therefore, the pope condemns it as null.

CHINAMAN USES A GUN

Shoots a Boy Who Refuses to Pay For Cup of Sugar

Chicago, May 29.—Because he refused to pay 25 cents for a bowl of sugar, which he had spoiled by pouring a cup of tea into it, Carl Johnson, 19 years old, was shot and fatally wounded yesterday by Charley Moy, owner of a chop-suey restaurant. Moy is held at the police station, charged with manslaughter.
Johnson and two companions ordered chop-suey and tea, and when the orders were served instead of putting sugar in his tea, Johnson emptied the contents of the cup into the sugar bowl.
This breach of manners aroused the ire of the Chinese proprietor, who demanded that Johnson pay 25 cents extra for the sugar he had destroyed. An argument ensued and when Johnson raised his fist to strike, the Chinaman pulled a pistol and shot him through the temple.

POOL SELLERS TO RETAIN MONEY

New Haven, Ct., May 29.—Now that the sellers of baseball pools here have been let off with a fine, the holders in the city of forty thousand or more pool tickets for which something over \$10,000 was paid, are wondering how they will get their money back.
The police will not permit of the paying of the prizes that come due this week, and, inasmuch as it is illegal to have pool tickets in one's possession, there is very little chance of civil action being brought to recover the cost of such tickets. A majority of the ticket holders are boys and factory employes and the chances are that they will lose their money, while the pool sellers will pocket large sums.

VICTIM OF AUTOMOBILE ACCIDENT KNOWN IN DENVER

Denver, May 29.—Harold G. Hollingsworth, who, with his wife, met death in an automobile collision with a trolley car near Los Angeles yesterday afternoon, was well known in Denver railroad circles. Prior to leaving here he was chief clerk to the chief dispatcher of the Union Pacific railroad. He left Denver about two weeks ago to enter the services of the Southern Pacific railroad at Los Angeles. His parents live here.

HITCHCOCK HAS MADE THE POSTOFFICE PAY

Washington, May 29.—For the first time in the history of the service, it is said, the deficit in the postoffice department has been entirely wiped out and \$1,000,000 surplus for the current fiscal year, ending June 30, is in the treasury to the department's credit.
Postmaster General Hitchcock last night signed a warrant returning to the secretary of the treasury \$3,500,000, the last amount set apart from the public funds to assist in defraying the expenses of the postal service for the present year. Refunds in the financial system, it is said, have made the refund possible.

COSTER DEFEATS CONLEY

NEW ORLEANS, May 29.—Joe Coster of Brooklyn administered a severe beating to Frankie Conley of Kenosha, Wis., in a twenty-round bout here this afternoon. Three judges were unanimous in awarding the Brooklyn boy the honor, and he is now slated to meet Abbe Atell for the featherweight championship. Conley was a 7 to 4 favorite with the crowd, which fairly went wild in the big arena and sweltered in the excessive heat. Both boys appeared in excellent condition. They weighed 122 pounds.

VICTIM OF AN AUTO ACCIDENT, MONTMORENCY, IND.

While hurrying to the bedside of her dying father, J. E. Fleming, at Crawfordsville, Mrs. W. P. McEwan, wife of a wealthy Benton county farmer, was killed today in an automobile accident two miles east of here.

MORMONS INJURED

Joseph F. Smith Says Mexico Must Compensate

New Orleans, May 29.—Mormon settlers in the state of Chihuahua, Mexico, will press claims against the Mexican government aggregating more than a million dollars for damages sustained by them at the hands of insurgents and bandits during the recent revolution, according to Joseph Smith of Salt Lake City, who was here last night en route to Washington.
Unless these claims are settled without delay, he said, the Mormons, who are under the mother church at Salt Lake, will take the complaint to the authorities at Washington.
"The Mormons in Chihuahua have suffered more severely from the revolution than any other settlers," said Mr. Smith. The rebels took what they wanted and gave notes. We now propose to see that these notes are met and unless Mexico is willing to pay, we will ask the United States government to see that we get justice."

RAILROAD EMPLOYES

Supreme Court Decides Hours of Service Law in Their Favor

Washington, May 29.—"The hours of service law for railroad employees" passed by congress in 1907 was upheld today as constitutional by the supreme court of the United States. The decision was announced by Justice Hughes in the test case instituted by the Baltimore & Ohio railroad company.
The act made it unlawful for any common carrier engaged in interstate commerce to permit any trainman subject to the act to remain on duty for a longer period than sixteen consecutive hours, or any telegraph operator more than nine or thirteen hours, according to the time the telegraph station was opened for business. The act also created periods of rest for the employees.
The Baltimore & Ohio Railroad company attacked the law as unconstitutional on the ground that it applied to intra-state as well as to interstate railroads and employees. The order by which the Interstate Commerce commission placed the law into operation was attacked also. The railroad claimed that congress could not, and did not, attempt to delegate to the commission the power to require reports of violation of the law; that the labor and expense necessary to make the reports constituted a taking of the railroad's property without due process of the law, and, therefore, in violation of the constitution; and that it compelled self-incrimination by officers and employes of the railroad, also in violation of the constitution. The objections to the law were met with denials by the government. Both the law itself and the order, drafted by the Interstate Commerce commission, were upheld as constitutional by the circuit court of the United States for the district of Maryland, where the case originated.

FREIGHT ENGINES THROUGH TRESTLE

CHARLOTTE, N. C., May 28.—A double-headed coal train on the Seaboard Air line went through a trestle 12 miles east of Bostwick tonight, killing both engineers and firemen.
The trestle was weakened by fire, which the first engineer did not see, and gave with the weight of the engines. Fifteen of the 29 steel cars crashed through the fire-rotten wood-work of the trestle on to Watkins creek, piling up on the two engines and burying the helpless victims in the wreckage.

NEW RECORD FOR AUTOMOBILE

Indianapolis, May 29.—Bob Burman, driving his 300-horse-power Blitzen Benz car this morning, established a new state of world's speedway records. He drove the mile in 35.35, the kilometer in 21.40; the half mile in 16.38 and the quarter mile in 8.16.
