

Instant Relief for Sore Feet

Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well No Matter What Ails Them.

Police men all over the world use TIZ. Police men stand on their feet all day and know what sore, tender, swollen feet really mean.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does.

You'll never limp again or draw up your face in pain and you'll forget about your corns, bunions and calluses. You'll feel like a new person.

TIZ is for sale at all druggists at 25 cents per box, or it will be sent you direct if you wish from Walter Luther Lodge & Co., Chicago, Ill.

DRY FARMS IN BOX ELDER COUNTY

Brigham City, July 14.—Dr. A. W. Ensign of this city returned during the week from a trip through western Box Elder county. He returned enthusiastic over what he had seen in that part of the county, stating that it is bound to become one of the richest farming sections in the west.

Mr. Ensign visited the great Curlew valley, Snowville, Park valley and the county round about Stone, where much arid land is now being reclaimed under the Carey act. In speaking of the country and its possibilities, the doctor said:

"It calls to mind a certain traveler, who, in crossing over the country one time, said to himself, 'No a snake, not a toad, not a damn thing. That is the impression one gets in the midst of the desert, but your thoughts are entirely different when in Park valley, or in the neighborhood of Stone and Snowville. In these places there is a great deal of evidence of life and abundant prosperity, and the possibilities are wonderful."

"At Park valley the people haven't yet discovered what they have. There is water for hundreds of acres. There are fully 25,000 acres in this locality that can yet be brought under cultivation, and a great deal of it irrigated, and these resources will ultimately be developed, and this valley, in connection with the Curlew valley, will produce wheat enough to feed millions of people. At present there are extensive tracts being plowed. The Pacific Land and Water company in Park Valley has a contract with D. D. Tarpey to plow and seed 2,000 acres.

"The railroad from Burley, Ida., to a point on the Southern Pacific is now an assured fact, and large construction gangs are at work on the Idaho side, and the survey is all made running around by the Sinks down to Monument point. The survey for a spur to Snowville and up through that valley is also completed, and this place of road assured. Experts predict that the western part of the county will be the greatest farming section in the west. Notwithstanding the fact that it was extremely dry and the wheat never sprouted much last fall, yet there are some splendid crops in the Curlew valley. John C. Cutler of Snowville has 320 acres of wheat that looks good for twenty bushels to the acre, and there are many fields just as good."

In the Blue Creek country Mr. Ensign stated that it reminded him of Cache valley, for they have some beautiful crops to harvest. In two weeks the entire valley will be alive with harvesting outfits. Box Elder is rapidly filling up with people, and while there are yet thousands of acres of government land open to entry, it will only be a matter of a very few years when all the farming land will be taken. Numerous steam and gasoline plows are used throughout this country and farming companies are organized to control thousands of acres. Dry land wheat is the principal product so far."

STATE FAILS TO PROVE ITS TITLE

E. D. R. Thompson, register, and M. M. Kalign, recorder for the land office, handed down three important decisions yesterday.

In the case of Thomas J. Jones against the state of Utah a decision was granted the plaintiff. The decision held that the state offered no testimony to establish its title to the land. In the case of the United States against Annie Laura Adams, a decision was rendered against the United States. This was relative to the title to the southeast quarter of section 21, township 14 north, range 4 west, which is near Washburn, on the Maled valley branch of the Oregon Short Line. The decision holds that the filing made on the land as timber and stone land was right, and that the land is not grazing land, as contended by the government. The other decision is of the same nature and involves the title to the northwest quarter of the same. This suit was instituted by the government against Hyrum Adams, husband of the woman in the other suit.

WEEVIL BEETLE IS UNKNOWN

"If there is any species of beetle specially created to destroy the alfalfa weevil I have not succeeded in listing it among the enemies of this pest," said T. D. Urbahn, in charge of the United States bureau of entomology and special agent of the government in conducting the campaign against the weevil, after being told of a beetle that is reported to have appeared near Lehi. "Of course, there are many kinds of beetles that live on insects," continued Mr. Urbahn, "but so far we haven't found one that will be of signal service in the fight against the alfalfa weevil. Whoever found the beetle at work eating weevil at Lehi could find the same thing true of the ordinary toad by a little investigation. And yet we cannot use the toad to any great extent in this work. I will not say the story from Lehi is not true, but I have no knowledge of the specie, and, of course, am unprepared to say to what extent its work may benefit us in the work of exterminating the weevil.

"There is no new development in the experiments we are conducting, although everything is working finely. We are doing everything possible to propagate the parasites which we hope will rid alfalfa fields of the pest. Speaking of the quarantine against Utah alfalfa, which is supposed to be in effect in southern California, Mr. Urbahn said: "As a matter of fact, alfalfa seed put up for shipment in

Utah is free from weevil for the simple reason that the weevil cannot pass through the screens used to qualify the seed for shipment. Of course the bags in which seed is shipped could be a hiding place for the weevil. For that matter anything shipped out of the state could carry them.

"That section of the state in which the seed producing alfalfa is raised is entirely free from the weevil, though even if it were infested the seed would not be contaminated just because the plant might be. Then again anyone at all familiar with the life history, the size and the habits of the alfalfa weevil, its eggs and larvae, must surely realize how impossible it would be for the weevil to be spread through the alfalfa seed. Such a thing is preposterous.

"The danger of the spread of the weevil is not through the seed, but especially by means of railroad trains. Our investigations have demonstrated that in almost every instance the spread of the insect has been along the railroad tracks, and that the insect has been carried from one section to another on railroad trains. Cattle trains are especially likely to transport the weevil. Alfalfa is often used as bedding for the animals in the cars, and when the cars are loaded in an infested region the weevils get out when the car is unloaded, and if there happen to be alfalfa fields nearby the insects naturally find them out.

"We have found the weevils in large numbers also on the sides and top and underneath passenger coaches, so that if California is afraid the weevil is going down there from Utah or other infested sections a general railroad blockade had better be declared."

CHURCHES TO HAVE A LABOR SUNDAY

New York, July 14.—In a call sent out today by the federal council of the churches, more than 12,000 Protestant ministers are requested to preach on some phase of the labor question on Labor Sunday, September 3. It is recommended that wherever possible union services be held by the church on Sunday night, to which organized labor and all other workmen and women be invited and that the various ministers preach sermons appropriate to the occasion in their own churches on the morning of September 3.

The movement is in line with a resolution adopted at a recent convention of the American Federation of Labor, designating the Sunday preceding the first Monday in September as Labor Sunday, and asking the churches to devote the day to the discussion of some phase of the labor question.

GUGGENHEIMS IN A NEW GOLD REGION

Cordova, Alaska, July 14.—Stephen Birch, manager of the Alaska (Morgan-Guggenheim) syndicate, returned today from a tour of inspection of the McKinley lake mining district and announced the bonding of more than fifty gold quartz properties for a price in excess of \$200,000. Engineers have been sent to the properties to make an examination preparatory to development work. The Copper River & Northwestern railway runs within three miles of the claims and a branch will be built to the new property.

LEGAL NOTICE TO CONTRACTORS

Sealed bids will be received up to Friday, August 4th, 1911, by the Board of Trustees of Coalville School District No. 2, Summit County, Utah, for the erection of a school building at Coalville, Utah.
