

# MRS. HANKS IS HEARD FROM

Sheriff E. E. Harrison this morning received a telegram from Mrs. E. L. Hanks, wife of E. L. Hanks, under date of Jersey City, New Jersey, directing that the personal effects of her husband be taken care of and kept for herself and children. In her telegram, she says she will send a written communication regarding the affairs of her husband.

It is anticipated that the body will be buried in the city cemetery immediately after the coroner's inquest Friday. The band, of which Mr. Hanks was manager, has gone to Butte, Montana, but it is understood that some members of the band will be required to return and give testimony regarding the alleged relations between Mr. Hanks and Mrs. Southworth.

# HELD ON A SERIOUS CHARGE

That George Scott, a cripple, arraigned in Police court this morning, is an accomplice of thieves was the charge made against the man by Detective James Pender this morning. Scott is charged with vagrancy and is being held for further investigation.

According to the story of the officer Scott is being used as a "look-out" by the men who have been committing the recent robberies in this city. It is claimed that the man has been seen loitering in front of the places which have been robbed. While the police have not been able to connect the cripple with any of the robberies in a direct way the fact that he has been seen in front of the burglarized places at about the time that the robbery occurred has caused the officers to believe that he is in league with the thieves.

Scott maintains that if he happened to be in front of the places robbed it was merely an accident and that he had no knowledge of the burglaries. Pending further investigation, Scott will be held on a charge of vagrancy but he has not been given a sentence or a hearing.

# THUG BRUTALLY BEATS A BOY

Salt Lake, Aug. 16.—A vicious and brutal attempt upon the person of Louis Blumenthal, aged 22 years, a plumber of Provo, was made this morning at 12:45 o'clock near the corner of Fourth South and West Temple streets, when a thug beat the Provo man over the head with a lead pipe until he was unconscious. Blumenthal said that he was not only knocked down by his assailant but that when he was down the thug continued to strike him over the head with the pipe. However, before the robbery of the person of Blumenthal could be effected the holdup was frightened away by a citizen who saw the beating and hurried to the aid of the fallen man. Blumenthal sustained four deep scalp wounds and one ugly wound over the left eye.

Blumenthal came to Salt Lake last Sunday and has been staying at the Hercules rooming house, 59 West Third South street. After calling on a friend last night, he proceeded east on Fourth South street.

Near the corner of West Temple street, Blumenthal says a man stepped out of the shadow and dealt him a violent blow over the head with a lead pipe. He fell to the ground, and as he lost consciousness the thug continued to beat him with the vicious weapon.

A passerby, whose name is not known by the police, frightened the lone holdup away and after reviving Blumenthal led him up West Temple street as far as Postoffice place. The patrol wagon, with Jailer Gillespie and Detectives Janney and Cleveland, picked up the injured man here and he was taken to the emergency hospital at the police station, where his wounds were dressed by Dr. H. B. Sprague.

# OGDEN BOYS MAKE EXCELLENT SHOWING

When the high fifteen men were chosen to represent Utah in the National matches at Camp Perry, Ohio, it was found that several Ogden men had "made good" Salt Lake City had only three men and three times as many men to choose from.

One of the real features of the shoot was the excellent showing of Corporal John Bikler. He is an entirely new man at the game and shoots like a veteran.

The team leaves on the Los Angeles Limited at noon today and will arrive in Camp Perry Saturday morning. Sergeant Whitaker of the Fifteenth U. S. Infantry was unable to go as coach, which was regretted very much by everybody, as he is as fine a coach as could be desired.

It is hoped that the team will make a better showing even than it did last year when it defeated fourteen other states.

The Ogden men who qualified are Captain W. E. Kneass, Lieutenant C. W. Coolidge, First Sergeant F. B. Smith, Sergeant F. A. Smith, Sergeant John A. Way, Corporal John Bikler and Art A. E. Nylander.

# Magnificent Attraction Opens the Season at The Ogden Theatre

—TONIGHT—

Richard (himself) Carle, one of the most distinctive of our stage humorists, will be seen here at Ogden theater tonight in his latest success, "Jumping Jupiter," which has been the great laughing success of the east for the last two months. "The only strain in seeing 'Jumping Jupiter' comes on the laughing muscles," said the Boston Journal, which bears out the claim that the Carle play is the funniest musical offering of years. Karl Hoeschna, the famous composer of "Madam Sherry" and a dozen other successes, has written some charming melodies for "Jumping Jupiter," and Frazee & Lederer have just equipped it with an entire new outfit of scenery and costumes, which will be shown here in all their new splendor and freshness. Edna Wallace Hopper, the dainty comedienne, is a specially engaged member of the cast.

# MACHINISTS ENTERTAIN AT NIGHT

Following the regular meeting of the International Association of Machinists in Union Labor hall last night, the journeymen machinists were entertained by the apprentices with a banquet and a program of music and boxing.

The apprentice boys spared no expense in the entertainment of the journeymen. The banquet, which was spread and waiting at the close of the business meeting, was an elaborate one and many toasts were drunk to the boys by the older workers. Following the disposal of the refreshments, the pneumatic quartet composed of Jim Ford, Will Scofield, Harry Hill and Bruce Hill rendered a number of selections. The singing of these shopmen proved one of the biggest hits of the evening.

In a four-round boxing bout between "Fug Thomas" and "Bull Pete" two apprentice boys, the crowd was treated to an excellent bit of scrapping. While the affair was purely a friendly one, there was nothing slow or mild about it for friendship's sake. The match was declared a draw.

A fast two-round bout was fought by Bill Scofield and Harry Scofield, which showed that both boys can box as well as sing. This bout, while short and undecided, was none the less interesting.

Joe Jenkinson and Guy Yarrington boxed two fast rounds. During the bout "Pawnee Bill," a machinist, became tangled up with the contestants and came near being knocked out. This contest also was a draw.

All of the boxing bouts were refereed by Jack Minnock. The committee in charge of the entertainment was composed of Delbert Jost, Jack Minnock and Jimmie Lever.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulents. They operate easily, tone the stomach, cure constipation.

# DEFENDANTS FILE ANSWER

In the case of Albin Anderson and Alma Langlois against W. B. Weddell and Fred J. Kiesel, the defendants have filed their answer claiming the allegation that they agreed to furnish the plaintiff a store room on Washington avenue, February 1, 1911.

The plaintiff commenced suit for damages for an alleged failure on the part of the defendants to conform to an agreement to furnish them a certain store room for business on February 1, 1911, they setting up in their complaint that, because they did not get the place at that time, they lost money.

# WEBER STAKE PLANS BIG BENEFIT SHOW

Miss Clara Mosher, of Denver, is in the city completing arrangements for a beautiful operetta entitled "In the Golden Land of Dreams," to be presented at the Ogden theater in October. It will be an elaborate production requiring about two hundred people and Ogden's best talent will be represented.

Many beautiful drills, pantomimes, musical numbers and choice readings will go to make up the program. This entertainment is to be given for the benefit of the Weber Stake.

# DYNAMITE CAPS

IN A LETTER.  
 South Norwalk, Conn., Aug. 16.  
 Postal inspectors are searching for the sender of a letter which contained the machine of the postoffice yesterday wrecking Frederick M. Miller, who was operating it. Fire followed explosion but was subdued quickly.

# PETITION OF KIMBALL FILED

Candidates for nomination for the offices of commissioners and auditor of the city are getting busy these days and it is more than likely that within the next two weeks a great many petitions will be on file in the city recorder's office. The law requires those who aspire to official position in the city government to be nominated by the people, regardless of political affiliation, and those placed in nomination must petition for the name to be placed on the ticket, it being necessary that citizens of the city sign the petition.

At the election this fall, three commissioners and an auditor will be elected.

The first petition nominating a commissioner is that of James N. Kimball. It has been placed on file in the city recorder's office and it contains 106 names. All the names of the petitioners cannot be deciphered but many of them are among the leading citizens of the city.

# QUESTIONS BEFORE THE UNIONS

Preparations are under way for the entertainment of the delegates to the convention of the State Federation of Labor, which is to be held in Ogden September 11, and the meet is expected to be one of the most important gatherings of labor men ever held in this city.

J. A. Finchbaugh, Carl Larson, W. D. Watson, J. M. Barnes and J. Watkins of the Ogden Trades & Labor assembly, have been elected to represent that body at the convention. All other separate labor organizations, affiliated with the State Federation, will be represented at the state meet. Delegations will be present from Salt Lake City and from every other city in the state where there is a labor union.

Among the important questions which will come before the convention are the McNamara brothers' trial, the matter of convict labor on the state roads, the advisability of closer affiliation with the American Federation of Labor and the advantages of organized labor entering politics.

It is also likely that the pending difficulty between the Harriman railroad company and its employees will be discussed, provided the matter is not settled before the date of the convention.

A number of railroad organizations in the state have already taken action concerning the action of the Utah legislature on labor measures and it is possible that further resolutions of censure will be considered by the state convention. It is also considered probable by local labor leaders that a state committee will be created to look after the enforcement of the nine-hour work day law for women, the only labor measure which was acted upon favorably by the state legislature.

# GRASSHOPPERS IN KANSAS WHEAT

Chicago, Aug. 16.—Wheat prices worked higher during the first hour of trading today on a demand from shorts, but the trade generally was small. Liverpool was higher and there were rumors of some foreign demand, which were bullish factors. September opened 3-8 to 1-2 higher at 89 5-8 to 89 1-2, and sold up to 89 3-4.

The cornbelt was reported dry and hot and damage claims from the southern and southwestern part of the belt continued a factor. The cash demand yesterday was good and the sample market firm. September opened 1-8 to 3-8 up at 63 1-2. Later sales were made at 64 1-2.

The oats market was quiet but steady, local traders buying on the corn strength. September opened 1-4 up at 41 5-8 but declined to 41 1-4 later.

Light offerings and some commission house buying held provisions steady. January pork opened 7 1-2 up at 16.30; September lard 5 cents higher at 8.97 1-2, and September ribs unchanged at 9.95.

Grasshoppers were reported in Kansas and Illinois. The close was quiet and steady. September was a shade over yesterday at 89 1-8@14. Rye, No. 2, 86 1-2. Timothy, \$11.00@13.50. Barley, 79@116. Clover, \$12.00@18.00.

# BELL STOCKHOLDERS TO RATIFY TRANSFER.

At a meeting of the stockholders of the Rocky Mountain Bell Telephone company to be held at 10 o'clock Monday forenoon, a resolution will be adopted ratifying the transfer of the Bell company to the Mountain States Telephone and Telegraph company. The basis upon which the Bell stock will be turned over to the Mountain States company will be on a basis of 60 per cent. It is understood that the new company will guarantee a dividend of 7 per cent on the stock.

At this time the number of shares of Bell stock held in Utah is said to be very small. By far the larger part of the stock is held in the east. Utah, it is said, never did hold a great deal of the Bell stock, and that which was owned here earlier has gradually been sold to eastern buyers.

The properties included in the transfer are:

- The Thunder Mountain line to the United States forest service.
- The Nyssa and Ontario exchanges and all properties of the state of Oregon appurtenant thereto to the Malheur Home Telephone company.
- The Coeur d'Alene system to the Pacific Telephone & Telegraph company.
- The Dome Lake line to the Dome Lake Telephone company.
- The real estate in Boise, Ida., recently acquired from the Independent Telephone company.

# DESTRUCTIVE FOREST FIRES

Banning, Cal., Aug. 16.—Billows of flame, driven by a high wind that rose this morning, are sweeping around the base of Mount San Jacinto today, and on toward the big pine forest lying to the eastward. Palm Springs, a resort, and the Banning Indian reservation are in jeopardy. Supervisor Marshall of the Cleveland reserve arrived today to direct the fire-fighters, scores of whom are making futile efforts to arrest the flames.

The men, who have been working night and day since Saturday, are being rapidly driven back and the fire may reach the great pine belt of the Cleveland forest tomorrow.

# CHARGED WITH THE MURDER OF HIS WIFE

Kansas City, Aug. 16.—Charles Mowrey, charged with the murder of his wife, Mrs. Harrie Mowrey, an actress, was bound over to the criminal court today. Bond was fixed at \$5,000.

The woman was found in a rooming house with her throat cut. She had been dead several days.

# THEODORAN OUT ON BOND

Mike Theodoran, the man held for assault and battery on the person of Miss Sarah Waldman and suspected of having planned to commit criminal assault, was arraigned in police court this morning and, after entering a plea of not guilty, was released under a bond of \$150.

Theodoran was represented by an attorney who pleaded that the defendant was a respected citizen of the city and the proprietor of a Twenty-fifth street restaurant. He contended that Theodoran would be able to establish his innocence and asked that the bond be made as light as possible.

Those who believe Theodoran's guilt feel certain that the man will never appear for trial and that the bond will be forfeited to the city.

# FOREST FIRE REPORTS IN UTAH

District Forester E. A. Sherman is in receipt of reports on the fire situation from all the forests in district No. 4 and states that in general the outlook for a season without serious fires is favorable. During the period, August 1 to 15, the reports show sixteen grass and brush fires, all of which were promptly reported and extinguished by the ranger forces of the different forests.

Bad grass fires have occurred on the Wasatch national forest, practically all of which started on lands belonging to the city of Salt Lake and spread across the forest boundary. Owing to a short spell of windy weather, these fires looked dangerous for a short time. However, during the night when the wind died down, they were controlled and are now reported to be out.

On the Uinta national forest a fire was started by lightning which threatened some of the most valuable timber on the Provo river watershed. This fire was, however, quickly reported and extinguished by the rangers with the aid of a few sheepherders.

The Boise, Idaho, Lemhi and Payette national forests in Idaho also report a few grass fires, which were, however, quickly extinguished with practically no loss. Three small fires also occurred on the Teton national forests in Wyoming, but these, also, were promptly extinguished.

Mr. Sherman is of the opinion that, unless a term of dry, windy weather is experienced, there will not be much danger of serious fires during the present season. However, the most critical period is now at hand and the fire protection and patrol forces on the different forests are being increased and strengthened wherever possible.

# TEXAS MAN KILLS HIMSELF

Portland, Aug. 16.—W. P. Faulkner, 36 years ago, of Denton, Texas, where his parents are said to be prominent, swallowed poison in his room early today, and died shortly afterwards in Multnomah hospital.

# FINAL ACTION IN GREAT SALT CASE

The supreme court met yesterday and ordered the remittitur in the case of the State of Utah against the Montello Salt company, in which case both the Utah supreme court and the district court were reversed by the United States supreme court, issued to the lower tribunal to render judgment in favor of the salt company.

The case, which has been in the courts for years past, involved the title to certain salt lands claimed as the property of the University of Utah under the old state grant of lands to the school. It was brought to quiet title in these lands, which were also claimed by the salt company. The construction to be placed upon that portion of the grant reading, "And including the saline lands," was the main point at issue, the state on behalf of the university claiming that it meant all of the salt lands in the district. However, the company contended that the state had not given the university title to all of these lands.

The district court decided the case in favor of the state or the school, whereupon it was appealed to the supreme court of Utah, which affirmed the judgment of the lower court. Appeal was then taken to the United States supreme court and both of the Utah tribunals were reversed.

The document received yesterday was the formal order of the United States supreme court ordering a judgment in favor of the company. The Utah supreme court adjourned until September 18.

# PLAN BIG LABOR DAY CELEBRATION

Organized labor of this city is planning for a most auspicious celebration of Labor Day on September 4 and the committee in charge of the affair reports that it is meeting with very encouraging results in the preparations which are now under way.

The celebration will be held at Glenwood Park but at a meeting of the trades and labor assembly Monday evening it was definitely decided to hold a big parade in the downtown district at 10 o'clock on the morning of Labor Day. The plan for the parade is to start at the street parade it was decided to vary from the old plan of the various trades union organizations marching in separate bodies. All members of unions, whether these organizations be affiliated with the central labor body or not, will be asked to join in the parade and the entire body of men will be attired in uniforms of the same style and there will be no distinction between the different organizations. It is expected that there will be fully 2,000 trade unionists in the line.

In addition to the union men the committee has arranged to offer valuable prizes for the best floats and all merchants and manufacturing organizations of the city will be asked to enter this competition. The prizes will be announced within a few days.

The program at Glenwood Park in the afternoon includes a large number of athletic events, chief among which will be a wrestling match between two well known grapplers of this section. In the evening there will be bicycle races at the saucer track. Band music and dancing will add to the general fund of entertainment.

Those who have been chosen to act on the general arrangement committee are J. A. Finchbaugh, chairman; George M. Thenn, Paul Bossett, John Grill and Paul Struppek. Invitations will be issued to all neighboring labor unions and the public in general to join with the Ogden unionists in the appropriate celebration of Labor Day.

# READ THE CLASSIFIED ADS.

# TEMPEST IN TEAPOT IN COURT

An error on the part of the desk sergeant, who last night booked five men arrested as plain drunks as vagrants, caused a tempest in police court this morning. Clerk Isaac Fulton of the court taking exception to the supposed inference of acting City Attorney Cook that he had booked the prisoners on the wrong charge. Following the reading of the complaint which charged J. E. Kelsey, M. Conroy, Pat Jamison, George Shepherd and Fred Burgess with vagrancy, Detective James Pender whispered to the acting city attorney that the men were not arrested for vagrancy but for drunkenness. The attorney arose and explained to the court that a mistake had been made in the complaint.

Feeling that his reputation for accuracy had been brought into question, the clerk of the court arose and the storm broke. When quiet had been restored, the clerk had the police records in the court room to prove to the court his accuracy in making out the court complaint and Attorney Cook had reiterated a half dozen times that he had not charged the clerk with being responsible for the mistake on the complaint.

In the meantime the prisoners, who apparently considered the difference between the two charges of very little importance to them as they were all without means when arrested, sat and smiled. Because of the mistake in the complaint, the action against the prisoners was dismissed but they were returned to the prison corridor and will be held on a new complaint which is to be issued later.

# FINAL ACTION IN GREAT SALT CASE

The supreme court met yesterday and ordered the remittitur in the case of the State of Utah against the Montello Salt company, in which case both the Utah supreme court and the district court were reversed by the United States supreme court, issued to the lower tribunal to render judgment in favor of the salt company.

The case, which has been in the courts for years past, involved the title to certain salt lands claimed as the property of the University of Utah under the old state grant of lands to the school. It was brought to quiet title in these lands, which were also claimed by the salt company. The construction to be placed upon that portion of the grant reading, "And including the saline lands," was the main point at issue, the state on behalf of the university claiming that it meant all of the salt lands in the district. However, the company contended that the state had not given the university title to all of these lands.

The district court decided the case in favor of the state or the school, whereupon it was appealed to the supreme court of Utah, which affirmed the judgment of the lower court. Appeal was then taken to the United States supreme court and both of the Utah tribunals were reversed.

The document received yesterday was the formal order of the United States supreme court ordering a judgment in favor of the company. The Utah supreme court adjourned until September 18.

# HEAD OF HAWLEY ROADS

New York, Aug. 16.—Directors of the Minneapolis & St. Louis railroad company and the Iowa Central railway company, so-called Hawley roads, in annual meeting today, elected Newman Erb president of both companies. Announcement was made that the Minneapolis & St. Louis road would be extended to the Canadian border, affording to the two Canadian roads now being built to the Pacific an entrance into Minneapolis and St. Paul.

# CHANCE FOR PHOTOGRAPHERS

The Utah Development league yesterday announced a photograph competition in connection with plans for the issuance of a new and attractive booklet descriptive of the resources and advantages of Utah. Prizes aggregating \$100 are to be given for photographs to be used in illustrating the booklet.

There are two divisions in the competition. Like prizes will be given for photographs illustrative of crop production and agricultural opportunities in Utah and for photographs illustrating the scenic attractions of the state and the pleasures to be found in Utah for the summer tourist. Distinctive and original photographs are especially desired.

For the best photograph in either division a prize of \$15 is offered. The second prize in each division is \$10; the third, \$5; the fourth, \$3; the fifth, \$2, and ten additional prizes of \$1 each.

The photographs are to be sent to Joseph E. Caine, secretary of the Utah Development league, at the Salt Lake Commercial club. The league reserves the right to purchase any photograph submitted for 50 cents. The prize-winning pictures are to be featured in the booklet. The contest is to close on November 1, but it may be extended thirty days. Judges to be named later will select the prize-winning photographs.

# BRITISH INVESTMENTS IN BRITISH COLONIES

The British people are of all the races of the world undoubtedly the foremost colonizers. Through maladministration they lost to the crown control of their foothold in the United States, though mastery did not go into alien hands. The costly lesson of the American Revolution has never been unlearned. What the British people have since fought for and obtained with their guns they have kept with their cash. Their colonies are allowed to govern themselves and to make money for the provident mother

# BIG SHOWING OF TONOPAH MINES

Tonopah-Beimont has sent out reports which make a remarkable showing for July. During that month the gross product of the Tonopah-Beimont amounted to \$278,107.07, or nearly \$5,000 more than its gross product for the previous month. In ore 3163 tons were milled and shipped, as against \$767 for June, the value being \$31.30, while in June the average value was a trifle below \$30. The net profits for July were \$149,170.27.

It is necessary that the company earn \$125,000 a month to pay the 25 per cent dividend, which it has been paying, so that in July \$25,000 more than the requirement was made to add to the reserve. The company's treasury now has considerably over a million dollars above what will be required for the next dividend.

Tonopah Mining also makes a good showing for July, though production has been kept purposely low that monthly average might be maintained. A total of 14,115 tons was milled during the month, the average being \$23.19, and net earnings for July are given at \$120,415 as against \$179,913 for June. In June the net earnings were \$50,000 in excess of dividend requirements.

At last reports the three-compartment shaft of the Halifax had attained a depth of over seventy feet and was making at the rate of five or six feet a day. During the week water was piped to the works, and already the concrete foundations for the compressor and other machinery will all be installed within the next ten days, and with the machine drills at work in the shaft a record will be made in sinking to the 1000-foot station, where it is expected ledge material will be found by running laterals to the north and south. About eighteen miners are now employed in the Halifax, besides a considerable force engaged in other operations.
