BASEBALL CUBS AND GIANTS ON EVEN TERMS

McGraw's Men Divide Double-Header While Cubs Drop One.

Chicago and New York share first place honors in the National league race today. By splitting even in a double-header with Pittsburgh, while Chicago was losing to Brooklyn, New York drew up to even terms with Chicago and the two teams are tied for the leadership, each with a percentage of .607. Pittsburgh also gained ground on Chicago and is now but 11 points behind the leaders.

Thursday's games were hotly contested, Chicago making Brooklyn go ten innings to win, while great box work by the rival pitchers kept the games at the Polo grounds close with the result in doubt up to the last.

Brooklyn and Chicago have three more games to play in this series, including a double-header on Saturday, while New York and Pittsburgh will meet twice before their series closes.

The results of each day's games seem more than likely to cause daily changes among the three leaders while the important series are in progress. The standing of the first three clubs in the race today is:

Club	Won	Lost	Pct.
Chicago	65	42	.607
New York	68	44	.607
Pittsburgh	58	46	.556

Giants Break Even

NEW YORK, Aug. 24.—New York and Pittsburgh broke even in a double header, the contests both being pitchers' battles. Mathewson was beaten by Adams in the first game, 3 to 1, a muffed ball by Herzog in the sixth inning starting Mathewson's downfall. Marquard had the better of Camnitz in the second game, holding Pittsburgh to two hits, which they bunched for their only run, New York winning 2 to 1. Carey robbed Herzog of a home run in the first game by a sensational running catch in deep center.

First game:	R.	H.	E.
Pittsburgh	3	8	0
New York	1	6	1

Adams and Gibson; Mathewson, Crandall and Wilson, Miers.

Second game:

Reds Win in 14 Innings

PHILADELPHIA, Aug. 24.—Cincinnati won a fourteen inning contest from Philadelphia today, 4 to 1. Suggs held the locals to one hit for ten innings. In the eleventh, Bates received the first base on balls off Moore and scored. Philadelphia tied the score on Beck's single, Lederus' sacrifice and Titus' single. Cincinnati then won the game on two errors, a pass, a double steal and Hoblitzel's triple. Score:

Cincinnati	4	12	2
Philadelphia	1	8	4

Suggs, Kettle and McLean; Moore and Moran, Spencer.

Brooklyn Trims Cubs

BROOKLYN, Aug. 24.—The game with Chicago had a sensational finish, Erwin winning for Brooklyn, six to five in the tenth with a drive over the fence when men were on first and second. As only two runs were needed, Erwin was credited with only a triple. The locals took an early lead but Doyle's triple in the seventh sent Chicago ahead. Chicago's third baseman got another triple in the ninth and again put his club in front. In the tenth, his single and double placed Chicago ahead again. Brooklyn scored the winning runs however, on Erwin's drive. Score: R. H. E. Chicago 5 7 1. Brooklyn 6 9 2.

Ruelbach, Brown and Archer; Burke, Scanlon and Erwin.

Boston, St. Louis, 7.

BOSTON, Aug. 24.—The locals won out in the tenth from St. Louis, 8 to 7. The winning run was scored on a single by Jackson, whose sacrifice fly had tied the score in the eighth. Score: R. H. E. Boston 8 15 4. St. Louis 7 8 0.

ARE MATCHED

"Knockout" Brown Will Fight Matt Wells, English Champion.

NEW YORK, Aug. 24.—It was announced tonight that Matt Wells, English lightweight champion, had been matched to meet "Knockout" Brown of New York in a ten round bout at Madison Square Garden August 30. This is the first bout scheduled under the new state boxing law and the announcement was made immediately upon the receipt of the sanction of the boxing commission. The bout will be held under the auspices of the Twentieth Century A. C.

The men will weigh in at 133 pounds at 3 p. m. on the day of the fight. McDonald said that Charley White had been selected as referee.

GRAND CIRCUIT RESULTS

GOSHEN, N. Y., Aug. 24.—Ublan, the trotting marvel, went an exhibition mile at the grand circuit races today in 2:02 3/4. He was driven by his owner, C. K. O. Billings, and was paced by a runner. The exhibition was given to beat 2:08. Results:

WANTED TO LIVE 100 YEARS; KILLED BY TRAIN

GREAT FALLS, Mont., Aug. 24.—F. M. Palmer, 84 years of age, who had repeatedly expressed the belief that he would live to be 100 years old, had that hope blasted today when he was struck by a train while walking along the Burlington railroad tracks south of the city. When picked up he was still alive, but died before he could be brought into town.

ANACONDA RACE MEET OPENS TODAY

Temporary Grandstand and Paddock Are Being Rushed to Completion.

ANACONDA, Mont., Aug. 24.—With most of the horses entered that ran in the Butte meeting, the fourteen-day race meeting of the Butte Jockey club will open at the Deer Lodge county race track here tomorrow. Despite the fact that the grandstand and paddock were destroyed by incendiaries last Sunday morning, a force of carpenters, working day and night, has succeeded in erecting temporary structures which will amply care for both race followers and horses. The entries for Friday:

CARELESS DRIVER MAY BE BARRED

Officials of Auto Drivers Association Do Not Like Ogren's Work.

ELGIN, Ill., Aug. 24.—Action by a committee of the newly formed automobile racing drivers' association today may eliminate H. W. Ogren from the road races here tomorrow and Saturday.

Ogren is accused of carelessness in the official trials, during the first lap of which he drove his Colby into a ditch. He and his mechanic escaped uninjured and the machine lost a wheel. His car was a pilot more familiar with handling high speed cars over country roads.

The weather prediction is not optimistic. Clouds threatened a downpour all day today, but rain did not materialize. Several thousand persons watched the trials at various vantage points around the 8 1/2 mile course.

Drivers say the road is much faster than last year.

The entries for the first three events are:

Illinois Cup, 203.5 Miles.

BAD EGGS PLACED IN COLD STORAGE

CHICAGO, Aug. 24.—Commissioner of Health Young today began an investigation of a charge that large quantities of bad eggs are being put in cold storage here for use later when the supply of fresh eggs is inadequate to meet the demand.

The receipts of fresh eggs is said to be much larger than at this time last year and they are being sold to commission men at 17 cents a dozen. The prices to consumers is from 25 cents to 30 cents a dozen. Well posted operators express the opinion that the supply of fresh eggs will be sufficient to meet the demand during the next ninety days without drawing on the storage supply.

Dr. Benjamin Perry, chief food inspector of the Chicago health department, said that he received information that a firm in Kansas City made a specialty of buying number three eggs at \$1 a case for shipment to the Chicago market, and that thousands of eggs unfit for food were now being held in cold storage plants.

CORONER B GINS AUSTIN INQUIRY

SALT LAKE, Aug. 24.—An official inquiry into the circumstances concerning the death of George Harry Austin, the young chauffeur who was shot in the head on the morning of July 25, and who died at St. Mark's hospital Tuesday afternoon, was begun before Justice of the Peace F. M. Bishop and a coroner's jury at 10 o'clock this morning and at a late hour this afternoon court was still in session.

Mrs. Edith Austin, the widow, was the principal witness among nearly a score who were summoned. Mrs. Austin was in mourning but appeared calm under the trying circumstances. She was still on the stand late this afternoon, giving a detailed account of the happenings on the night of the shooting. In answer to J. F. Bowman, assistant county attorney, who conducted the inquiry she told of the quarrel she and her husband had of previous domestic troubles. She claimed she was in bed at the time the shots were fired and her back was turned to her husband. She described the location of various pieces of furniture in the room, and the position of Austin when he fell to the floor. Mrs. Austin produced the statement issued by Austin in which he explained his wife from all blame, and Mrs. Thompson, Mrs. Jones and Mrs. Foubert, who were witnesses to the document signed by Austin, corroborated the testimony given by Mrs. Austin. The widow is represented at the hearing by Atty. L. B. Eddy. Drs. Waite and Sprague were examined and testified as to the nature of the wounds. The jury in Jones and Mrs. Anderson, F. M. Paulson and W. H. Derr, at 2 o'clock this afternoon the jury went to O'Donnell's undertaking parlors and viewed the remains, and the taking of testimony was resumed at 4 o'clock.

STATISTICS ON WOOL INDUSTRY

SALT LAKE, Aug. 24.—Secy. C. B. Stewart of the Utah Woolgrowers' association is sending out 41 questionnaires to members of the association, with a view to collating facts and statistics about sheep raising for presentation to the interstate commerce commission at the Salt Lake hearing on wool rates. Among the questions asked are:

"Have you kept records which show from year to year, your investment in the sheep business, your operating expenses, and your output?"

"Are you able to say from your records or from your experience whether or not the cost of raising sheep and producing wool has increased during the period in which you have been engaged in it?"

"Has there been any increase in the investment in land necessary for a given number of sheep?" also, in five years and in ten years.

Then follow queries as to taxes, maintenance, shearing, supervision, leases, etc.

"Can you, in your locality, load 200 pounds of wool in standard cart?"

"If you think this amount excessive, what do you think should be the maximum weight?"

"Is there any practice or requirement of the railroad over which you ship, which to you seems unduly burdensome, and if so, state details."

"State whether or not cars for moving wool are furnished promptly upon demand."

"Give average wages of herdsmen, also, of campsmen, camp boys per hand, cost of hay, has absorption of winter range by farmers necessitated a longer period of feeding each winter, how many tons of hay are necessary now to winter a band of 1,000 sheep, state whether decrease in size of bands has increased cost of care and feeding."

Expert witnesses, some of them former railroad freight men, have been secured to testify before the commission.

LAKE STEAMER MAY HAVE SUNK

DETROIT, Mich., Aug. 24.—A special to the Journal from Midland, Ont., says the steamer C. C. Martin of Midland with a crew of ten was probably lost in the storm on Georgian Bay Monday night. The barge Albatross in tow of the Martin sank during the storm, but her crew reached the lighthouse at the mouth of the French river last night in a boat. Nothing has been heard from the Martin.

As soon as the survivors of the Albatross had reported their battle with the storm, searching parties went out for trace of the Martin. They returned this afternoon without success.

The craft had been buffeted for thirty-six hours. There has been no food for the shipwrecked people since the Albatross was down. Some of them were not well protected against the exposure and are now said to be dangerously ill.

The Albatross is a sailing vessel of 217 tons. While still in tow of the Martin Monday afternoon she struggled valiantly against the storm. But after the wind and waves had battered the plunging tug and barge for several hours, the line parted and all hands aboard the Albatross made ready to leave the ship.

The men had scarcely time to jump in and cast loose when the vessel sank. The wind picked up the yawl and then all trace of the Martin was lost. Captain Dean of the Albatross rigged a make-shift sail and finally made the French river.

Porcupine turns out to be low grade camp.

The provincial bureau of mines, which has just completed an examination of the Porcupine gold district, reports that the ore there as a whole must be considered low grade. The report says in part:

"Distribution of the gold is generally irregular, occurring along one or both walls, while other portions of the vein may be very low grade. Most spectacular showing occur on porphyry, but these are limited to portions of the veins. Considering the irregular character of certain veins and the quantity of country rock which will need to be mined the ore must be considered low grade."

Fred R. Jones of Fred R. Jones & Co., who has returned from an extended trip to Montreal, declares that there is an organized movement among Canadian mining men to buy what is known as the London interests in the Porcupine situation. The sensational depression in Porcupine issues during the week is attributed directly to the treachery of these same interests.

Algeron M. Meiring of London made a rather lengthy explanation in Montreal.

PRESIDENT NOW ENJOYING GOLF

BEVERLY, Mass., Aug. 24.—President Taft today began his first vacation of any length since he went to Augusta, Ga., last spring. The president reached Boston shortly after 9 o'clock.

On his private car the president donned "his golf togs" and within a half hour after a White House automobile had hurried from Boston to Farmington, he was on the Myopia tugs, with Major Butt.

Golfing and motoring will be his daily program for two weeks unless it is decided to take a ten-day cruise up the Maine coast on the yacht Mayflower.

Secretary Hilles opened the executive office and in the mail from Washington was another score of requests for a few hours of the president's time on his western trip. More than eight hundred requests have reached the White House, but none can be granted.

SCOOPED BALL BRINGS PROTEST

PHILADELPHIA, Aug. 24.—President Horace Fogel of the National League baseball club here, has filed a protest with President Lush on today's game between Philadelphia and Cincinnati.

The cause for the protest occurred in the final inning. Downey, the first man up, hit a line drive to center field. Paekert ran in, dived after the ball and apparently caught it. Umpire Eason called the batter out, but when Manager Griffith of Cincinnati protested and appealed to Umpire Johnstone, the latter allowed Griffith's claim that Paekert had scooped the ball from the ground.

Umpire Eason then changed his decision. A long wrangle ensued, during which Manager-Captain Doolan was banished from the game.

WILEY FACTION WINS ELECTION

DULUTH, Minn., Aug. 24.—Arrival of reinforcements in the last hour gave the so-called Wiley delegation in the annual convention in the association of the State and National Pure Food department victory today. Lucius P. Brown of Nashville, was elected president, and H. E. Barnard of Indianapolis, vice president of the organization, over candidates of the delegations that have taken the side of Secretary Wilson in the agricultural department clash.

The rest of the ticket was elected as follows:

Second vice president, C. H. Billings, Alabama, (Wilson).

Third vice president, Joel G. Winkler, Minnesota, (neutral).

Secretary, W. M. Allen, North Carolina, (Wiley).

Treasurer, James Fauts, Pennsylvania, (neutral).

Executive committee, Edwin Deharr, Oklahoma, (Wilson); E. J. Crumrine, Kansas, (Wiley); Charles D. Woods, Maine, (Wiley).

Seattle will entertain the convention in 1912.

FINDING OF BODY POINTS TO MURDER

BUTTE, Mont., Aug. 24.—The badly decomposed remains of Mrs. Jessie Moore, an attractive young widow, who disappeared mysteriously in July just prior to the date set for her wedding, were found late today in the rear of the Columbia Gardens, a pleasure resort east of Butte.

The authorities are not able to determine whether murder or suicide was the cause of death. William Dobson, the woman's fiance, was arrested today.

BAMBOO BRIDGES IN JAVA

In Java the Government engineers have recently constructed a road bridge more than 100 feet long, with a central span of over sixty feet, entirely of bamboo. The roadway is composed of bamboo matting, which will be covered with a layer of dry earth. In profile the bridge resembles a steel structure, but all the members are bamboo rods. It is estimated that such a bridge should be good for ten or fifteen years. There are two kinds of bamboo used in building and cabinet-making in the East—one having solid and the other hollow stems. The solid, seen in Japanese furniture, is much smaller than the hollow. In the construction of bamboo houses no nails are used. The parts are bound together with lashings formed from the skin of the bamboo itself.
