

LET YOUR WANTS BE KNOWN IN THE EVENING STANDARD

The Evening Standard

WEATHER FORECAST

INDICATIONS ARE THAT THE WEATHER WILL BE GENERAL FAIR, TONIGHT AND TUESDAY; NOT MUCH CHANGE IN TEMPERATURE.

Forty-first Year—No. 217—Price Five Cents.

OGDEN CITY, UTAH, MONDAY EVENING, SEPTEMBER 11, 1911

Entered as Second Class Matter at the Postoffice, Ogden, Utah

ARE LOSING YOUNG MEN

Army and Navy Officers Just Out of School Resigning

Washington, Sept. 11.—The navy department has been particularly unfortunate in the resignations of young officers who have just finished their education at West Point or Annapolis at government expense. In the last few weeks eight or ten midshipmen and ensigns have presented their resignations with reasons sufficient to cause the department to accept them. Both war and navy departments are periodically confronted with this question.

PROFITS OF A LOTTERY

Cuba Has Made Millions, But the Gambling Must Go

Washington, Sept. 11.—The lottery is a profitable scheme in Cuba, and the returns to the war department show that last year the Cuban government received from this source \$3,369,000 profit, which represents ten per cent of the entire annual receipts from all sources.

ACTING GOVERNOR OPPOSED TO FIGHT

Milwaukee, Sept. 11.—The promoters of the Wolgast-McFarland contest say it will take place here next Friday. Acting Governor Thomas Morris says it won't because it is a prize fight.

FATHER OF GEN. FUNSTON DIES IN IOLA, KANSAS

Iola, Kan. Sept. 11.—Former Congressman Edward H. Funston, 75 years old, father of Brig. Gen. Frederick Funston, commanding the department of the Philippines, died last night at his home here, of heart disease. He was in congress 12 years in the late eighties and early nineties representing the Second Kansas district.

BURIED UNDER WALL; WORKMAN INJURED

Salt Lake, Sept. 11.—The falling of a newly-laid brick wall in the foundation of the new Auerbach building, corner of Third South and State

streets, which is in course of construction, resulted in the painful injury of Albert Anz, a laborer, yesterday morning at 11 o'clock.

A large force of workmen were busy on the new building yesterday morning. A brick wall about fifteen feet high and on the north side of the work was constructed last Thursday. Six or eight workmen were employed yesterday morning in filling in dirt between the wall and the sidewalk.

Anz was working upon a scaffold about six feet from the ground. He was buried under the wreckage. During the first moment after the cave-in it was not known how many workmen had been buried and the roll was hastily called. It was found that Anz was the only one under the bricks and mortar. He was extracted from under the debris as rapidly as possible and was found to be unconscious.

Upon the removal to the Judge Mercy hospital it was ascertained that his most serious injury was a number of deep scalp wounds. Anz is from St. Louis, Mo., and was stopping at the Utah rooming house.

In consideration of the height of the wall and the large quantity of material which fell around the workmen, the outcome of the accident is believed by the foreman to be very fortunate.

HUGHES FOR PRESIDENT

Will Displace LaFollette as the Progressive Candidate

New York, Sept. 11.—The leaders of the so-called Progressive or insurgent wing of the Republican party have agreed to concentrate their forces in an effort to bring about the nomination of Charles E. Hughes, formerly governor of New York, and now a justice of the supreme court, as the Republican candidate for the presidency, according to the New York Herald today.

Senator La Follette, it is declared, will withdraw from the contest and support Justice Hughes at the national convention.

WORLD'S MARKETS

OGDEN WHOLESALE PRODUCE

(Selling Price.)
Ogden, Utah, Sept. 11.—Butter—Creamery, extra in cartons, 30c; creamery, firsts, 29c; cooking, 28c; ranch, 26c.

Market, steady to the lower; native steers, 5.25@8.00; southern steers, 4.00@5.50; native cows and heifers, 2.50@7.25; stockers and feeders, 3.25@5.75; bulls, 3.00@4.40; calves, 4.50@7.50; western steers, 4.50@7.00; western cows, 2.75@4.75.

Hogs, receipts 6,000, market 5 cents higher; bulk of sales, 7.15@7.30; heavy, 7.10@7.30; packers and butchers, 7.15@7.35; lights, 7.10@7.30.

Sheep, receipts 12,000; market, steady. Muttons, 3.00@3.75; lambs, 4.50@5.00; range wethers and yearlings, 2.90@4.25; range ewes, 2.50@3.75.

Sugar and Coffee.
New York, Sept. 11.—Raw sugar (firm), unrefined \$9 test, 5.25; refined \$9 test, 5.75; molasses, \$9 test 5.00; refined strong.

Coffee, spot steady.

(Continued on Page Seven.)

MAINE VOTE VERY LARGE

Cities Are Casting Even a Larger Vote Than Anticipated

Portland, Me., Sept. 11.—Maine today is voting to decide whether the prohibitory amendment shall be retained in the constitution.

With ideal election-day weather, there was every indication that the vote would be unusually large.

Prayer meetings will be held throughout the day in many churches. If the license advocates are successful today, there is said to be every possibility that Governor Plaisted may be prevailed on to call a special session of the legislature to take action on the repeal of the statute law, which is in effect the same as the constitutional amendment, and the enactment of another law for the regulation of the liquor business.

A local option law such as prevails in Massachusetts is what the license advocates seek.

In the regular course of events, the matter would not come up before the legislature until January 1913, when the completion of the state government might be much different from that of the present body.

The morning vote in the cities was even larger than was anticipated and in many places fully one-third of the entire vote was cast by noon.

In the manufacturing centers the heaviest vote was deposited during the noon hour. Both sides worked hard to get out the early vote and automobiles and vehicles of every description were pressed into service to carry invalids and indifferent voters to the polls.

Fair weather was reported from all parts of the state.

BLOOD IS SPILLED

Chinese Rioters Attack Troops--Americans on Their Long Journey

Washington, Sept. 11.—Blood has been spilled in Sze Chuen, China, and the situation has grown rapidly in seriousness. Over twenty rioters and a number of soldiers have been killed in battle during the last few days, resulting from attacks of dissatisfied natives on the yamen, the residence of Cheng Tu. This information reached the state department today.

Reports to the department indicate that American women and children have already left Cheng Tu under escort and it is thought that others also have departed.

With 1,000 soldiers, Tuan Fang, director of the imperial railway, left Hankow for the disturbed province on Saturday. Other forces are being collected on the Sze Chuen border.

To investigate the situation which is threatening the Americans, United States Consul Pontius left Hankow, Saturday night, for Chang Kinc.

The gravity of the conditions and the fearful possibilities of the mammoth uprising has brought the central government of China to a quick decision to suppress the trouble with a strong hand. On Thursday the ringleaders of the agitation were arrested by the victory of the province.

This inflamed their followers and resulted in a vicious attack on the yamen by the mob. The soldiers on guard fired into the rioters, killing some twenty of them. The mob returned and, in a subsequent assault on the viceroys' residence, slew a number of troops.

Latest news in regard to the condition there is unattractive as the wires between Cheng Tu and Chuan King have been cut. The capital of the rebellious province is cut off from the rest of the world and the developments of the encounter between the mob and soldiers are unknown.

The political and economic ills of China are not all, for her troubles continue through the ravages of nature. Twenty-seven counties in northern Anhwei and Kiang Su provinces have been devastated by the floods of the uncontrollable Yang Tse, according to official reports to the American legation at Peking.

Conditions in the Yang Tse valley are reported as even more appalling. The central government of China has appropriated 600,000 taels, or about \$420,000, for relief purposes, but that amount is regarded as wholly inadequate.

BLACK MARKS ON DEAD BODY

Chicago, Sept. 11.—With black marks on her throat indicating that she may have been choked to death, the body of Mrs. Jennie Moszulski was found today in her home, Joseph Moszulski, her husband, is being held pending investigation. One of the front windows of the house was open and the woman's savings of \$64, which she kept in a stocking were missing. The husband said he believed burglars entered the house during the night and killed her.

OPENING OF FOOTBALL SEASON

New York, Sept. 11.—The football season will make its formal bow to the public this week with Saturday

games scheduled for Carlisle, Lafayette, Virginia and a number of smaller teams. Next week will see practically all the coaches launching their fall schedules.

Cornell and Dartmouth begin their season's series of games a week from Wednesday. Harvard, Yale, Princeton, Pennsylvania, Brown, Penn State, Syracuse, Amherst, Wesleyan, Lehigh and a host of others appear before the public on the following Saturday. Neither Harvard nor Yale will play mid-week games this year. Harvard starts the season with Bates and Yale with Holy Cross. An interesting opportunity for early season comparison of the two great rivals will be offered a week later when Harvard will try conclusions with Holy Cross.

A new feature of the football program this year will be the Harvard-Princeton game, coming four weeks from the end of the Harvard season. It will rank as one of the half dozen big eastern games of the year.

Princeton will open the season with Stevens, Pennsylvania with Gettysburg, Cornell with Allegheny, and Dartmouth with Norwich.

LITTLE BOY IS DEAD

Springfield, Sept. 10.—The 2-year-old son of Mr. and Mrs. W. K. Hatfield died Saturday night at 10:30 o'clock following a brief illness of typhoid fever. Funeral arrangements have not yet been announced.

IS SAVED BY MAIL BAGS

Aviator Falls on Aerial Postal Trip--Legs Are Broken

London, Sept. 11.—Hubert, one of the aviators of the aerial postal service inaugurated by the British post-office Saturday, met with a bad accident this morning and only the mail bags which the flying postman was carrying from Hendon to Windsor castle, saved him from an almost certain death.

Hubert had just got away from Hendon with two hundred pounds of mail, when the machinery of his aeroplane went wrong and the machine crashed to the earth, burying the aviator under a mass of debris.

Both of Hubert's legs were broken and he suffered other injuries, but the mail bags on top of him acted as a buffer and saved him from being crushed to death by the weight of the engine.

MURDER SUSPECTS ARE ARRESTED

Chicago, Sept. 11.—Three men were arrested at Cary, Ill., by detectives working on the case of the mysterious murder of Frederick Wegnerstrom.

The suspects, who were well dressed and said they were looking for an automobile, gave their names as Edward Marland, of Pittsburg, W. Va.; Logan Logan, of New York; and Matthew Jeffrey.

Wegnerstrom was a chauffeur and the machine which he used at the time he was killed and his body thrown into the river was found several days ago in a grove near Crystal Lake at Cary.

Jeffery told the police he was from Philadelphia. The suspects were locked up after a brief preliminary interrogation.

MINER IS GOING HOME TO DIE

Pittsburg, Kan., Sept. 11.—After suffering six years with a broken back, and physicians say, with only one year of life before him, Andrew Roebetz today started on a long journey back to his birthplace in southern Italy to die. Roebetz was injured in a mine accident and since his injury, he has lain helpless in a local hospital, his strength gradually ebbing away. To his physician, he often expressed the desire to be carried back to his home near Naples to die. His friends among the miners made arrangements for his trip home and appointed one of their number to accompany him. He will sail from New York Wednesday.

CHICAGO'S HEAVY FOG

Chicago, Sept. 11.—A heavy fog, described by the local weather bureau as the worst Chicago has experienced in years, lifted this morning after hanging over the city for twelve hours and causing interruption to all kinds of traffic. No serious accidents were reported.

PARENTS OF DEAD CHILD QUESTIONED

Madison, Wis., Sept. 11.—Martin Lenzberger and wife, parents of the seven-year-old Annie Lenzberger, whose murdered body was found in a lake a mile from home Saturday, were brought to the police station today upon their return from the funeral of their little girl. They and their ten-year-old son were put through a rigid examination by Chief Slaughter and several detectives.

WELL KNOWN WOMAN DEAD

Nephi, Sept. 10.—The death of Miss Luella Miller occurred at her home in Nephi yesterday after a long illness from cancer of the stomach. She was

CAUSE OF BERI-BERI

Found to be Polished Rice--Army Surgeon Makes Discovery

Washington, Sept. 11.—Just why the removal of the thin brown husk on the grains of rice should cause the terrible disease beri-beri when the polished rice is consumed in tropical countries, is a medical mystery. But some time ago the military surgeons, who have been studying this disease in the Philippines, concluded that natives who ate the polished rice were immune. Reports to the surgeon general's office, the last year, appear to sustain fully this view of the cause of beri-beri.

Proceeding to apply their theory practically by feeding the native Philippine soldiers on the unpollished rice, the army medical officers have practically eradicated beri-beri among the troops, there having been but one case among the Philippine scouts during the first five months of the present year. The surgeons are confident that another year will entirely wipe out the disease among the scouts. As the civilian natives generally use the unpollished rice for food, because it is cheaper than the polished grain, the disease is scarcely known among them.

BARRY RETAINS CHAMPIONSHIP

London, Sept. 11.—Ernest Barry, the champion sculler of England, retained his title this afternoon in a match with W. H. Fogwell, the New Zealand champion, rowed over the championship course from Putnam to Mortland in a purse of \$2,000 accompanied the title.

The New Zealander held the lead for the first half of the distance when Barry forged to the front and won easily by three and a half lengths. The winner's time was 22 minutes, 14 seconds.

GRANDMOTHER AT THIRTY YEARS

Atlanta, Ga., Sept. 11.—A grandmother of two children at the age of 29 and three at 30 years, is the record of Mrs. E. W. Bender of this city. It is claimed that Mrs. Bender is the youngest grandmother on record.

Mrs. Bender, who is 31 years old, was married to E. W. Moore at Columbia, S. C., in 1892. She was only 13 years and three months old when her first child was born. This child, a daughter, was married in 1909 to Edward Sinclair, and in January, 1910, gave birth to twins, the mother being barely 16 and the grandmother not yet 30. In January of this year, Mrs. Bender's daughter gave birth to another child.

MELLEN RESIGNS AS PRESIDENT

New Haven, Conn., Sept. 11.—Official announcement is made today that President C. S. Mellen, of the New York, New Haven & Hartford railroad, is to retire from the presidency of that company, but the date has not yet been fixed.

The announcement of Mr. Mellen's retirement was conveyed through an official statement as follows: "The newspapers ask if it is true, or if there is any foundation for the story, that President Mellen is to retire from the presidency."

Mr. Mellen is in good health and it is not thought probable that his retirement will be immediate.

SHIP BLOWN UP AND CREW LOST

New York, Sept. 11.—Fourteen men were drowned in the sinking of the schooner Whispier off the Nicaraguan coast yesterday, according to cables received here from Port Limon.

The schooner, commanded by Captain Winston Hall, of Philadelphia, carried a cargo of mahogany which caught fire and burned to the water's edge. An explosion of gasoline finally sent the ship to the bottom with all on board.

BRUTE OF A MAN STABS HIS WIFE

New York, Sept. 11.—Because his wife insisted on wearing a negligee shirt which belonged to him, Thomas Tullie, a Brooklyn mechanic, 38 years old, stabbed her fatally last night.

"It's too bad I hadn't a gun," the police say Tullie growled when arrested. "I would have riddled her with bullets."

GERMANS FOR WAR

Berlin, Sept. 11.—At the annual convention of the Pan American League yesterday, resolutions were passed protesting against the withdrawal of Germany from her political position in Morocco, and against her acceptance of territorial indemnity in the French Congo.

The German imperial chancellor was asked to break off negotiations with France relative to Morocco rather than settle the dispute on that basis.

Another resolution adopted demanded the utterance of warships Saturday's Bourse panic seemed to have passed as quickly as it arose. The market today presented a completely changed appearance. Heavy buying orders came in from the provinces and from the outside public generally. The utterance of the German foreign minister, Herr Von Kiderlin-Waechter regarding the outcome of the France-German negotiations relative to Morocco, which were print-

(Continued on Page Eight.)

born at Nephi, May 27, 1858, and was the daughter of Daniel and Elizabeth Miller, both deceased. Two sisters, Mrs. Amanda Ellison and Anna Hodge, and five brothers, Daniel Miller, Henry Miller, William Miller, Milan Miller and Myron Miller, all residents of Nephi, survive her. Miss Miller was highly respected here and was an active member of the Ladies' Republican club. The club members will hold a meeting this evening to decide on floral offerings. The funeral services will be held Tuesday afternoon.

SUCCUMBS TO INJURIES

Springville, Sept. 10.—A 14-month-old son of Mr. and Mrs. Earl Condey died last night from injuries received a week ago in a very peculiar manner. The little fellow was "playing horse" with his brother, who is about 2 1/2 years old. The latter "hitched" his brother to a separator and left him there. Trying to get away, the little fellow pulled the machine over on him and was badly bruised and almost choked when rescued. He died last night from his injuries. Funeral arrangements will be announced later.

AMERICANS DEFEATED

Chicago, Sept. 11.—The Chicago soccer football team was defeated by the Corinthians of England by a score of 4 to 0.

GERMANY'S DEMANDS

Paris, Sept. 11.—The nature of Germany's reply to the proposals submitted by France with the idea of reaching an agreement regarding the Moroccan problem has affected French government circles unpleasantly.

Germany's counter-proposals were received in Paris, Saturday night, and, after being submitted to lengthy examination by Premier Caillaux and Foreign Minister de Selves, it was decided to refer the proposals to specialists on the Moroccan questions. When these specialists have formed an opinion, the premier will call a meeting of the cabinet and lay before it the whole matter for decision.

Germany asks, it appears, that every claim of German subjects to concessions in Morocco shall be recognized by France, and that no enterprise shall be started under the French protectorate without being internationalized equally. The claims of German subjects, particularly those of Mannesmann Brothers, and other speculative companies organized to exploit Morocco, are urged.

Germany practically asks a free hand in Morocco which would deprive France of all her advantages and would give Germany privileges beyond those of any power, even France.

Some other signatory of the Algeiras act may ask for another international conference.

A semi-official note issued today says that Minister de Selves has examined the observations presented by the German government in reply to the French proposals, and that he probably will take a favorable view of the suggestions contained therein for establishing the economic equality of the powers in Morocco, but that in opposition to this international equality are private issues to be decided by Germany alone. Other points, the note says, are raised by the German response which are equally serious.

The negotiations between France and Germany, the note says in conclusion, probably will be prolonged for some time.

Although the tone of the Bourse was heavy today, the solid structure of French finance was little affected by financial embarrassments, for the reason that the French buy securities for permanent investment and do not sell on fluctuations in quotations.

The worst of the Moroccan uncertainties on business which simply waits to see what happens. French houses have cancelled many buying orders in Germany and the French banks, as previously indicated, refuse to renew the German loans falling due.

Credit likewise is cut off from Berlin in London. The Societe Generale, one of the most important of the French banks, has refused to renew a loan of 6,000,000 francs (approximately \$1,200,000), made to the Deutsche bank.

MACHINISTS TO CONFER

Davenport, Iowa, Sept. 11.—President James O'Connell and ten other officers and members of the executive board of the International Association of Machinists arrived here today to attend to business preparatory to the opening of their biennial convention next Monday.

O'Connell refused to comment on the refusal of the union to sanction a strike on the Illinois Central. The threatened strike situation on the Rock Island and the Harriman lines will be the first matter for consideration at the sessions of the executive board which opens today.

It was stated today that the second vote of the unions on the advisability of striking has not been completed. Some of the shops have been heard from, but no intimation of how they stand was given.

F. J. Conlon, first vice president of the International Association of Machinists, remained here to keep the Illinois Central labor leaders and those at Davenport in touch with each other.

NOT IN HUMOR OF STRIKING

Chicago, Sept. 11.—Members of the committee of the federation of shop employees of the Illinois Central railroad were in a quandary today what to do in relation to their dispute with the railroad company.

After the conference of the executive board members of the International Association of Machinists and James O'Connell, its president, in Chicago yesterday, where several of the international officers plainly declared they did not favor a strike of the shop employees, the board adjourned to meet in Davenport, Iowa, today. The full executive board will further consider the shopmen's position and final announcement of the machinists position will be made soon.

Should the machinists decide not to endorse the strike, there is small likelihood that J. F. McCreery, president of the Illinois Central shopmen, and his colleagues on the federation committee would order the men out because there will be little funds to depend on for strike benefits.

Members of the international conference committee of the nine trades involved in the federation, remained here awaiting word from Davenport, which, they said, might not come for several days.

No Strike at Present.
Los Angeles, Cal., Sept. 11.—"We have not yet considered the question of a strike of the shop employees. We are still hoping for another conference with Mr. Kruttschnitt and other general managers of the Harriman lines. However, we have not and will not modify the demand for recognition of the federation."

This statement was made today by J. W. Kline, international president of the Blacksmiths' union of Chicago, who arrived here today.

Mr. Kline was accompanied by Martin F. Ryan of Kansas City, Mo., general president of the Brotherhood of Railway Carmen; J. A. Franklin of Kansas City, international president of the Boilermakers' union, and J. D. Buckalew of Washington, D. C., vice president of the International Union of Machinists. They will address a mass meeting of the Harriman shop employees at Labor Temple tonight.
