# TELEPHONE COMPANIES MUST KEEP CONTRACTS

## City Attorney Advises Council That the Terms of Franchise Specifies the Rates Which Shall Be Charged—Committee Will Investigate Report of the Proposed Increases.

City Attorney James DeVine advised the council last evening that the Bell Telephone company can not recede from the provisions of its contract with the city as stipulated in the franchise regarding the rate to be charged for telephone service, nor as to the kind of service to be given. He also stated that the independent company must comply with its agreement with the city respecting rates and service, and that whatever company may have purchased the franchises held by these companies, or whatever consolidation or changes in proprietorship may have taken place since the granting of the franchises to the original companies, must comply with the terms of the original contract.

The attorney recommended that inasmuch as the new company, known as the Mountain States Telephone and Telegraph company, is alleged to have purchased the interests of the Rocky Mountain Bell and the independent telephone companies and that it proposes to change the telephone rate, or the service, the matter be referred to a committee for investigation.

The recommendation was adopted and the president of the council appointed Councilmen Humphris, Dana and Wilson to cooperate with the mayor and the city attorney in the matter and determine the true status of affairs and make such recommendations to the council as they may see fit.

The city recorder reported that there are no protests to the opening of Twenty-ninth street, between Washington and Quincy avenues. The city attorney was authorized to proceed with the opening of the street.

The city dog tax collector andatcher of dogs reported that during the past year he had collected taxes on 867 dogs and that 937 had been cremated. He stated that he had turned into the city exchequer \$2,657 and that his commission in the business amounted to \$1,084. The report was adopted and the commission authorized paid.

Parolls of the city departments amounting to \$2,925.44 were accepted and ordered paid.

The city engineer reported that the grade on Wall avenue, under the Bamberger overhead crossing, between thirty-first and thirty-second streets, was such as to permit the Ogden Rapid Transit company to construct its trolley line and still have a foot to spare. The report was adopted and the recorder was instructed to notify the transit company that they must begin the extension on Wall avenue line instantly.

The first partial estimate of the J. P. O'Neill construction company for the stripping of the bedrock on the Cobble Creek damsite for the South Fork reservoir project was submitted and ordered paid. The amount of the claim was \$1,528.80.

**Tout to Move His Saloon.**

Fred Tout was granted permission to remove his saloon from Washington avenue, between Twenty-third and Twenty-fourth streets, to Twenty-fifth street, between Grant and Lincoln avenues. Mr. Tout will occupy the place formerly occupied by Walter Browning in the Maule building.

It was ordered that \$200 be refunded to Joel Walters, the amount paid for a saloon license for the quarter year beginning October 1. Mr. Walters stated that his application for license had been denied by the district court and that he desired to leave the city at an early date. His saloon was situated on Grant avenue, between Twenty-fourth and Twenty-fifth streets, known as the "Forum."

The street committee was instructed to cooperate with the county officials in the repair of the bridge over the North Ogden canal. The bridge is situated in the city.

The matter of extending the water mains on Twenty-ninth street was referred to the waterworks committee. The engineer was instructed to establish a sidewalk district on Twenty-ninth street, between Washington and Adams avenues.

Property owners on Twenty-first street, west of Washington avenue, protested against the street being used as a "drover's road," claiming that cattle, sheep and hogs driven over that street were embarrassing trespassers. The street committee was called upon to look into the affair and report its findings.

It was ordered that an arc light be placed on Canal alley, between Twenty-fourth and Twenty-fifth streets.

# NOTED SCIENTIST LECTURES HERE

Some interesting facts comprising a general review of the teachings of Christian Science were contained in a lecture delivered by Frank H. Leonard, D. S. B., a member of the board of lecturers of the First Church of Christ, Scientist, of Boston, at the Weber academy last evening.

Mr. Leonard's interesting lecture was delivered before a large audience. In part he said:

What position do the Christian Scientists accord to Mrs. Eddy? Do they place Mrs. Eddy on the same plane with Christ? Do they consider her a mediator? It happens that I have something I have been carrying in my pocket for a good many years, that answers this question in Mrs. Eddy's own words a great deal better than I could possibly answer it. This is a little article written by Mrs. Eddy herself and printed in the New York Herald February 1, 1895, in which Mrs. Eddy writes this: "There never was one God, and never can be but one God, one Christ, one Jesus of Nazareth. Whoever in any age expresses most of the spirit of truth and love, the principle of God's idea, the most of the spirit of Christ, of that mind which was in Christ Jesus. If Christian Scientists find in my writings, and example a greater degree of this spirit than in others, they can justly declare it. But to think or speak of men in any manner as a Christ is sacrilegious."

Do we put the Christian Science text book, "Science and Health with Key to the Scriptures," which Mrs. Eddy has written, on a plane with the Bible? No, we do not, and we never have. There is just one Bible, and that Bible is the Holy Bible that is used, loved and revered by Christians all over the globe. That is our Bible, only we are not reverent old fashioned about such things!

The Christian Science text book is exactly what it is called, a text book. Now a text book to be a text book must be a text book about something, and the Christian Science text book is a text book about the only thing that is worth knowing, and that is knowledge of God the Truth, which our Bible teaches us makes man free.

Now Christian Scientists know the more that one knows and has of religion the happier, the more joyous, the freer he is. Religion is not something to make a long face about, it is something to make a man sing praises. It is not something to bring distress and unhappiness! It is something to bring deep peace in every way, and Christ Jesus has set the standard of Christianity for every one of us, and when He set that

standard, He pointed out to us the freedom and joy that might and should be ours if we were only obedient. He established the standard of Christianity when he made this statement: "He that believeth on me, the works that I do shall he do also; and greater works than these shall he do because I go unto my Father." When He made that statement, He was healing the sick from all manner of diseases, and yet He said, I of myself am nothing. He said, it is the Father that works through me who accomplishes all these things. Christian Scientists will say that they of themselves have never done one single redemptive thing on earth. It is the mind which was in Christ Jesus, the Father who worked through Him and is now working through them that is doing the works today. The healing work that is accomplished solely and wholly by and with the Word of God. So Christian Scientists do not consider a man has been healed simply because a pain has been stopped for him. We do not consider, as Christian Scientists, that a healing has been accomplished unless with the destroyed pain, there has come greater love of God, greater love for Christ, greater willingness to follow in the footsteps of the Master, making for meekness and humility, to serve and not to command, willing to do whatsoever comes unto him to do, so long as it may glorify God.

Jesus healed the sick from all kinds of diseases. It has been said that Christian Science is a very good thing for people who think they are sick, but when they have anything organ-

ically or fundamentally the matter, it is not a good thing, because it cannot do any good in such instances. Now I have told you what accomplishes the healing. And our Master, when the sick came to Him to be healed, did not say, "Is there anything organic troubling you, anything functional?" If there is it is your duty to go elsewhere for your healing, because I have told you what accomplishes the healing. Our Bible teaches us that He healed the sick from all manner of diseases, that He cleansed the leper, that He cast out the evil spirits, that He raised the dead, that He walked on the water, that He fed the multitude with fragments, that He stayed three days in the tomb, that He disappeared from the multitude in one place and appeared before it in another, that He presented himself to his disciples through an unbroken wall. These are works that Christ Jesus accomplished while He was on earth, and it is not simply that I say so, it is not simply that Christian Science teaches us, it is Christ himself said, "He that believeth on me, the works that I do shall he do also."

# FATHER THOMPSON OF BUTTE IS ILL

The Butte Miner of Saturday evening contains the following account of the operation and illness of Rev. Father Thompson of Butte, which will be of interest to many people of Ogden, where the stricken priest is very well known.

Rev. Father Thompson, pastor of St. Joseph's church was operated upon for appendicitis at the Good Samaritan hospital in Cincinnati yesterday and according to a telegram received last night may not survive. A telegram received earlier in the evening, however, said that he was recovering from the effects of the ether very nicely.

Father Thompson's illness cast a gloom over the fifth Eucharistic congress of the Catholic church of America, which session at Cincinnati, He was stricken Thursday afternoon, and to the hospital that afternoon. An operation was deemed imperative and it was performed yesterday. First reports indicated that the beloved priest was recovering nicely, but a message last night indicated that his recovery is uncertain.

# NEW PICTURES AT THE ORPHEUM PLEASE CROWDS

The new daylight pictures at the Orpheum are growing more popular each day from the increased attendance at last night's performance. A complete new change of program was shown with subjects all new to Ogden and each subject is most praiseworthy as they are a complete little playlet with a good lesson in each. With the daylight effect taking the strain off the eyes it makes an enjoyable evening's entertainment. The same program will run tonight and tomorrow night.

# DOUBLY PROVEN.

Ogden Readers Can No Longer Doubt the Evidence.

This Ogden citizen testified long ago.

Told of quick relief—of lasting benefit.

The facts are not confirmed.

Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Thomas W. Wooten, 732 Barlow Lane, Ogden, Utah, says: "For years I was in misery from pains across the small of my back and every little while I was obliged to lay off from work. Often when straightening after stooping, the pain was so acute that I was forced to cry aloud. The kidney secretions passed too frequently and when being voided were accompanied by a scalding sensation. I tried nearly every kidney remedy on the market, but was not helped until I used Doan's Kidney Pills, produced from Doan's Pharmacy. The contents of two boxes benefited me in every way and after I had used four boxes, I was completely cured. My cure is all the more remarkable, considering the fact that I have reached my eightieth year." (Statement given September 21, 1907.)

A Permanent Cure.

Mr. Wooten was interviewed on July 28, 1909, and he added to the above: "I can still recommend Doan's Kidney Pills in the highest terms, as my cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

# CONDITIONS IN ZETON COUNTRY

Assistant District Forester A. C. McCain of the operation department has returned from a three weeks' trip through the Wyoming forest district after having made a general inspection of affairs there. That section of country is in the vicinity of Yellowstone Park and is close to the Teton forest. Mr. McCain states that ranchmen and farmers have fared well in that locality this year, the crops being bounteous and the flocks and herds are in good condition for the winter ranges.

Forest fires prevailed in that section of the forest lands in the latter part of the summer season but no great damage was done because of the better facilities for fighting fire inaugurated this year. The losses in the Wyoming and Teton forests last year were quite extensive. Mr. McCain says that grazing in the forests of Idaho this year has been good and that, generally, the forest reserves have been operated in a way beneficial to the people residing in that particular territory.

# WASHOUT DELAYS D. & R.G. TRAINS

Train service over the Denver & Rio Grande has been badly crippled for the past 72 hours as the result of a bad washout and landside near Ruby, a small town near Grand Junction, Colo. The washout occurred sometime Saturday, 75 feet of track being carried away by the flood.

No trains reached this city until Sunday evening and the double supply of passengers in the midst of the coldest rush almost overwhelmed the Union depot attendants and train directors. The landside which followed the washout also added to the difficulty of getting trains through yesterday and as a result the five sections of Nos. 1 and 5 were several hours late last evening.

Owing to the holding of the Southern Pacific westbound trains for the through passengers the train service of the Harriman road has also been somewhat shattered on account of the trouble on the Gould road.

# WANTED—500 HORSES AND MULES.

Friday and Saturday, October 6th and 7th, I will be at Blackham & Lucas' livestock barn, 239 25th, or at the stock yards, to buy all kinds of horses and mules of all ages at market prices. Yes, will buy shagbark, balky horses. Don't bother me with your high-class speed at Auto prices. TOM BRADSTREET.

# REPUBLICAN PRIMARY NOTICE

TO THE REPUBLICAN VOTERS OF OGDEN, UTAH.

This is a notice that the following gentlemen have filed their petitions with the undersigned and are the Republican candidates for the various city offices to be placed on the Republican primary ballot on October 10, 1911:

Mayor Commissioner—A. G. Fell and William Bostaph.  
Four-Year Term Commissioner—J. M. Forrestall and Thomas E. Browning.  
Two-Year Term Commissioner—T. H. Carr, John W. Austin and Carl Allison.  
Auditor—William D. Van Dyke, Jr.  
For Municipal Judge—J. D. Murphy and W. H. Reeder.

The polling places for the said primary election will be in the following places, to-wit:

First Ward—Maryette Griffin, 330 Twenty-eighth street.  
Second Ward—Lilla A. Kennedy, 2246 Grant avenue.  
Third Ward—Anna Powers, 537 Canyon road.  
Fourth Ward—Callie E. Cave, 2302 Adams avenue.  
Fifth Ward—Annie Miller, 437 Twenty-eighth street.

Three judges in each ward will be announced later. Polls will be open at 4 o'clock p. m. and close at 9 p. m. All Republicans are entitled to vote at these primaries.

GEORGE J. KELLY, Chairman.  
WILLIAM D. VAN DYKE, Jr., Secretary.

# CARR RETURNS FROM THE EAST

T. H. Carr has returned from a trip of three weeks in the east and he reports conditions in that section fairly good. He says that business in most sections is good and that the commercial interests do not anticipate anything but prosperous conditions hereafter. He states that there seems to be a great deal of activity in the business centers of the east and that the impending presidential election is not affecting the markets to any great degree.
