

# HERO GETS A BAUMEISTER PERMITS TO LOADED TO HAVE A GRAZE ON CIGAR NEW TRIAL FOREST

A new depth of ingratitude has been discovered by the runner of a hotel on lower Twenty-fifth street, who is still to have risked his life to stop a runaway horse and to have received for his heroism two loaded cigars. The explosion of one of the cigars is making it necessary for the man who stopped the runaway to forego the habit of shaving for a few days and adopt the use of cold cream.

An attorney appeared in police court this morning in behalf of Jos Baumeister and made a motion for a new trial in the case in which Baumeister was convicted of selling liquor to minors.

Grazing, under permit, to cover all stock which have regularly occupied the addition to the Cache national forest, has just been authorized by the secretary of agriculture for the season of 1912, and applications will be received by the forest supervisor of the Cache national forest at Logan, Utah, or at the meeting of ranch owners at Ogden, which will be held in the forest service office at 10 a. m. March 4.

## EXHIBITION SHOOTING TEAMS

A trap shooting exhibition will be given this afternoon at 3 o'clock on the grounds of the Ogden Gun club. Thirty-fifth street and Jefferson avenue, by three teams from the Pacific coast.

The recent additions to the Cache national forest embrace considerable grazing territory in the Ogden sewer watershed and sheepmen of this locality are interested in the matter of allotments for grazing and in the adjustment of other affairs connected with forestry questions relating to the ranges.

# WRIGHTS' WRIGHTS' WRIGHTS' WRIGHTS' WRIGHTS' An "Early Closing" Sale

It will pay you well to shop before seven o'clock tomorrow

Do you remember the time when every retail store remained open until ten o'clock? Some of you will remember when they remained open even later than ten -- and every night in the week.

And now that we look back to those times we all realize that it was all unnecessary—that all shopping can be done earlier in the day—that salespeople are brighter and more capable because of the shorter hours—and, oh! what a relief it is to go home at seven o'clock Saturday night—only an hour later than on week days.

The public is in sympathy with the early closing—many of our customers have said so—none have found fault with it, and since the public must decide, it seems fair to become a permanent rule.

But what of the three hours the store loses on Saturday—will not the sales be less? We believe not—we are even optimistic enough to look for even larger sales and have arranged this event with a view of making them so. The attractions you see in this ad today are intended to make a big day of the shortened Saturday.

## NEW YORK MUST IMPROVE AS PORT

New York, Feb. 16.—Plans just completed by W. W. Black of the engineer corps of the United States army will call for the expenditure of \$10,000,000 for the improvement of

the East River channel. The plans recommend the removal of all the rocks and reefs in the channel, and the widening and deepening of the river at Little Hell Gate and the Harlem Hills, where the current now is so swift as to be a peril to navigation. A report on the necessity for the proposed improvement by the New York commerce commission says:

"Only very recently the port of New York reached the proud position of the leading port of the world, the competition of Hamburg, Havre and Liverpool is close and keen, and, unless New York makes ample provision, it will lose this place. The completion of the Panama canal, the state barge canal and the Cape Cod canal will lead New York unprepared to take care of the vast increase in its commerce, unless the long-neglected East River improvement is pushed vigorously."
