BLEW UP AT SEA

Eighty Lives Lost in Another Marine Disaster

San Francisco, April 18.—Details of the loss of the Chilean steamer Cachapoal with eighty lives on the night of March 21 were brought here last night by the British steamer Queen Helena.

The Cachapoal was manned by British officers and a crew of Chileans and carried thirty passengers.

The steamer failed to appear at Guayaquil, Ecuador, 250 miles distant, on the morning of March 22 and steamers dispatched in search of her could find no trace.

It is the generally accepted theory, according to officers of the Queen Helena, that the Cachapoal's boilers exploded, as they had given her frequent trouble.

The Cachapoal was an iron screw steamer of 2,270 tons gross register, built in 1881 at Birkenhead, and was owned and operated by the South American Steamship company.

WATER We read of stormy terror grim that clutch the middle zone.

Of how within the frost king's grasp the snowy east makes moon.

And here, where flowers blooming fair nod in a summer's breeze,

We feel a thrill of joy to know no terrors such as these.

Yet there is something lacking, and we feel a sense of pain,

That providence withhold from us the benison of rain.

Drear is the outlook for the bean, and gloomy for the beet;

Affairs meagre are sand-begrimed, baked the seeded wheat.

The zephyr, balmy and all that, sweeps by with clouds of dust,

It bears of moisture not enough to cause a pin to rust.

For long we smiled and kept our faith, and even saw the joke,

But now we long for rain enough to soak and soak and soak.

DEATHS AND FUNERALS MALONEK—Mrs. Jennie Patra Malonek, wife of William Malonek, 250 Twenty-sixth street, passed away at an early hour today, death being due to paralysis superinduced by heart trouble from which she has suffered for years.

Mrs. Malonek was born in Denmark, March 4, 1861. She had resided in Ogden about one year. Previous to coming to Ogden the family lived at Green River, Wyo. Deceased leaves, besides a husband, three sons, two daughters and a sister, Mrs. M. S. Miller of this city.

RANDOM REFERENCES Married—Jacob Kranendonk and Teelik Opherkens, both of Ogden, were united in marriage Wednesday at the Tabernacle in Salt Lake.

The condemnation suit of the Utah Light & Railway company against W. L. Jenkins is still before Judge Harris, this being the second day of the trial.

A complaint has been drawn by County Attorney David Jensen charging J. B. Stevens with grand larceny, the complaint specifically alleging that the young man on April 12 stole a horse belonging to R. T. Adamson of this city.

Opium, prepared in the United Kingdom, was exported in 1910 to the United States, of which all except 1857 worth was sent to the United States.

BAR ASSOCIATION TO MEET HERE

Ogden Canyon to Be the Scene of This Year's Gathering of the Followers of Blackstone—Opportunity to Prove the Advantages of the Canyon as a Summer Convention Point.

The secretary of the state bar association, Hon. Stephen L. Richards, advises that the State Bar association meeting, usually held in Salt Lake in April, has been deferred and will be held at the Hermitage, Ogden canyon, in June.

This will be one of the occasions when members of the local bar and the business men of the city can demonstrate how well Ogden is situated to hold conventions, particularly during the summer months, when heat conditions elsewhere would make such conventions prohibitive.

The attorneys of Ogden, who have worked for this convention, deserve credit for their work for their home city, and this result is only illustrative of what Ogden can accomplish by going after things.

SEVENTY FIVE DAYS IN PRISON

Sam Strong, the man who made a get-away Wednesday forenoon when the officers left him standing in the hall at the police station for a few moments, pleaded not guilty today, to a charge of lascivious conduct. The court found him guilty, however, and the judge gave him a sentence of 75 days at hard labor.

No charge was filed against Strong for leaving the police station without official permission, but he was tried on the charge of lewd and indecent conduct. His defense was weak and rambling, and when it came to telling the court about how he came to take French-leave from the police station he fell down completely. It happened that the judge saw him when he flew away, and his Honor told the culprit that such was the case. Strong hadn't reckoned on testimony of that nature, and his case crumbled to pieces instantly. The judge gave the prisoner a little bit of good advice and the next him to jail to serve 75 days.

MRS. F. HAWKINS ASKS DIVORCE

Frances Hawkins has commenced suit in the district court against Jas. Hawkins, asking for a legal separation on the grounds of cruelty. The complaint alleges that the parties were married at Malad, Idaho, in December, 1895, there now being five children in the family, and that during a part of their married life Mrs. Hawkins has been cruel toward the plaintiff, quarreling with her and calling her vile names.

In July, 1908, Mrs. Hawkins avers, the defendant was cruel and unkind to her and that in 1911 he struck her with his fists. As late as April 12, 1912, the plaintiff says, the defendant used a deadly weapon on her and threatened to kill her.

Mrs. Hawkins asks for divorce, costs of suit, attorney fees, custody of the minor children and general relief.

HEINEMANN IS COMING

It was early in the history of the great nineteenth century romantic movement that Schumann and Schubert wrote their immortal "Lieder." Alexander Heinemann, the great German Lied singer, who will be heard here at the Ogden Tabernacle, Wednesday evening, April 24, under the management of Fred C. Graham and Percy L. Goddard, is universally recognized over the high divide to the head of Huntington and Cottonwood canyons.

The other route would be from Provo to Thistle Junction, paralleling the Rio Grande track, from there up Thistle canyon to Indianola and from there to the country south and east.

Heinemann has proved himself to be an artist of unquestionable authority, and one who has contributed something original to the interpretation of the German Lied.

No artist has appeared here in many years who has the colossal art of Alexander Heinemann. Rarely is the Erl King sung as Heinemann sings it, nor are the works of Schubert, Schumann or Brahms interpreted with such musical intelligence.

HEINEMANN IS COMING

BARKER SUIT ON APRIL 22

The suit of George B. Barker vs. Wallace Foulger, treasurer of Ogden City, will not be heard before April 22.

In this case the plaintiff seeks to recover \$5,000 alleged to be due on a certain warrant issued in payment of a water right in Willard canyon. The city commissioners have instructed the treasurer to not pay the warrant.

The warrant was issued on a former special fund, created by a city council, payable to Frank Moore, now a member of the board of county commissioners. The warrant has been presented to the city administrator for payment in years past, but payment has been refused on the grounds that the particular fund on which the warrant was drawn was without money.

The account was assigned to Mr. Barker and he commenced suit for the amount.

NO CLUE TO BURGLARIES

The police are instituting a search today to locate the 38-calibre revolver which were recently stolen from the Army by a burglar who got in through a rear window. One of the guns was a present to Captain W. D. Kneass from Company B.

No clue has been found that throws light on the burglary at the Ranch saloon Tuesday night. The saloon on Wall street was entered the same night, and a quantity of liquor taken. The evidence seems to bear out the theory that all three of the jobs were done by the same man. Entrance in every instance was gained by opening a rear door or a back window.

HELENA TO PLAY IN OGDEN

The Helena baseball club played Ogden at Provo yesterday and will come to Ogden Saturday to play two practice games. The Helena team, it is understood, feels bitter over the result of the game with Ogden at Provo, and "Mack" says he believes that both games at this place will be exhibitions of unusual speed.

TIES FOR THE NEW COAL ROAD

A. W. Jensen, supervisor of the Mann national forest, formerly assistant collector of accounts in the forest service at Ogden, will return to his home at Ephraim, this evening, after spending a few days with District Forester E. A. Sherman, considering the sale of 100,000 ties in the Mann forest.

The negotiation is significant because parties interested in the proposed railroad from Spanish Fork or Provo to the United States Smelting & Refining company, desire to make the purchase. It is likely that the timber will be rather lively in San Pete county this year. Surveyors are in the field and it seems to be merely a question of which direction the road will take into the big coal fields.

One route would be from Nephi on the San Pedro route across to Fairfield in San Pete county, then to the summit in the vicinity of Indianola, where the high divide to the head of Huntington and Cottonwood canyons. The other route would be from Provo to Thistle Junction, paralleling the Rio Grande track, from there up Thistle canyon to Indianola and from there to the country south and east.

HEINEMANN IS COMING

JARBIDGE IS CLOSED DOWN

Forester E. L. Wheeler, mining expert of the national forest with headquarters at Ogden, has returned from an extended trip to the Jarbidge district in northern Nevada. He encountered considerable difficulty in getting out of the country, because of the condition of the roads which are almost impassable with heavy snow in the mountains and mud in the valleys.

Speaking of Jarbidge, Mr. Wheeler says that both mills have closed down and that some of the leasers have ceased to operate. The trouble in the operation of the mills, he says, is excessive cost of fuel. The mills are operated by steam power, and wood costs too much to justify handling the ore. The values are in the mines, he states, but a cheaper process of handling the ore will have to be found before much headway can be made.

WRIGHTS' Anniversary Sale

SPAWN FOR THE FISH HATCHERIES

State Fish and Game Commissioner Fred W. Chambers this morning stated that he is now preparing his spawning camps in Provo canyon, where the spawning season will begin about May 1.

Something like 2,500 spawning fish will be caught in nets as they come into the "fishway" at the Tollyrife dam in Provo river, and taken to the spawning ponds where they will be stripped of their eggs. The eggs will then be taken to the hatcheries for propagation, in turn to be released in the streams of the state in the form of fry.

The spawning is with the native trout altogether and Mr. Chambers thinks there will be taken from the Provo river about 2,000,000 eggs. A little later spawning will be taken up at Fish Lake in Sevier county, near Richfield, from which body of water will be taken sufficient spawners to furnish 5,000,000 eggs. Some eggs will also be secured from the fish of Panquitch Lake, which is in Garfield county, near Panquitch.

DEMANDS REFUSED

Managers Unable to Raise Eastern Engineer's Wages

New York, April 18.—The committee of general managers of Eastern railroads, after a further consideration today of the renewed demands by the engineers of the fifty railroads in the eastern territory for increased wages, sent a communication to Grand Chief Stone of the Brotherhood of Locomotive Engineers that "it is not possible to accede to your wage requests and those certain to follow."

TALKS ON MR. TAFT

Col. Roosevelt Thinks the President is Led Around

Auburn, Neb., April 18.—Col. Roosevelt views on the qualifications of the president were brought out in a speech which he delivered this morning at Nebraska City at the beginning of today's campaigning trip in this state.

"Often we have to try a man out," he said. "He may be a first class lieutenant and doesn't do in command of the army. Often the lieutenant when he becomes commander means well but means well feebly, and you don't get much out of it if you have a lot of strong men around men around him who don't mean well at all."

After again charging that President Taft had entrusted his fate to Senator Lorimer, Senator Penrose, Senator Gallinger and others whom he characterized as opposed to the rule of the people, he added:

"When I was president I saw all those men. I consulted with them, but I didn't let them be my masters. Whenever there was a line up between them and the people I was against them."

The Colonel brought out a laugh from the crowd with a new epigram. He was speaking of the "silk-stocking whigs" who, he said, were against him. He added:

"The silk-stocking if he is a game man, is just as good as if he didn't wear any socks at all."

Col. Roosevelt's plans called for a run through the southwestern part of the state, ending at Lincoln, where he is to speak tonight.

WRIGHTS' Anniversary Sale

Fruit

STRAWBERRIES are just beginning to arrive and we expect some nice ones for Saturday, per cup. .25c
