

REGULATION OF TRUSTS

New Plan Submitted By Steel Committee for Federal Control

Washington, July 29.—A recommendation favoring the legislation and regulation of big industrial concerns, instead of their dissolution is to be submitted to the house in a report by three Republican members of the steel investigating committee. The report was signed by Representatives Gardner of Massachusetts, Young of Michigan and Danforth of New York. Representative Young submitted an additional statement and Representative Sterling of Illinois, who believes in dissolving the big combinations, will submit a separate report. The minority report favors the creation of an interstate commission of industry, to be clothed with extensive powers of regulation and with power to fix reasonable prices for the output of corporations. The report would require that all corporations capitalized at \$50,000.00 or more operate under a federal charter, before engaging in interstate commerce. Smaller corporations might avail themselves of the federal charter at their own option. The Republican members make it plain that the report is not an expression of Republican policy or dictated by the Republican administration. The report does not spare the steel trust or its organizers, J. P. Morgan & Co. are credited with a profit of \$22,500,000 for underwriting the organization of the United States Corporation. Labor conditions in the steel mills are declared bad and a suggestion is made to the corporation to im-

prove them by working mill hands in eight instead of twelve hour shifts. Nearly Half Water. The report thus summarizes its findings: "The corporation was capitalized at \$1,400,000,000; nearly one-half was water." "The average annual earnings of the corporation have been from 11 to 12 per cent on the value of its assets." "The corporation controls a little over one-half the crude and finished steel business of the United States." "The average wholesale price of steel products has fallen off since the corporation was organized." "The corporation and all the independent have an understanding as to prices. The system of interlocking directorates has insidious consequences and facilitates 'inside management' and the stifling of competition." "The situation as to iron ore supply is grave and may become menacing." Many resolutions are submitted, although no bills have been prepared. The minority report epitomizes its recommendations as follows: "All corporations exceeding \$50,000,000 in capitalization or valuation must become United States corporations before entering interstate commerce. For smaller corporations United States charters are voluntary." "All United States corporations must be recapitalized at their actual value. An interstate commission of industry, like the interstate commerce commission, to be established. The publicity to be provided for. When the price fixed by a United States corporation has been found unreasonable, the commission of industry must recommend a reasonable price." "Interlocking delegates and 'holding' companies forbidden except when permitted by interstate commission of industry." "If foregoing recommendations shall prove insufficient to meet the trust problems, the interstate commission of industry ought to be given a carefully guarded power to fix prices when necessary." "Industrial corporations not to own common carriers. Unreasonable restraint of trade

LOST THEIR BLOOD FEE

Assassins of Rosenthal Gambled Away Money Paid For Crime

New York, July 29.—District Attorney Whitman is said to be receiving reports from the investigations of private detectives that make him feel that he is now on sure ground and that the capture of the slayers of the gambler, Herman Rosenthal, soon will be an accomplished fact. The public prosecutor has heard that the five assassins, after shooting Rosenthal, fled to Rockaway and there in a gambling house lost the proceeds of their crime on a gambling table. Once broke, the slayers returned here and went into hiding. The gambling house in which they played is said to be owned by "Bald Jack" Rose, one of the men under arrest in connection with the shooting of Rosenthal. Rose, it is said, saw to it that the slayers with the proceeds of their crime were taken to the Rockaway gambling house. Five thousand dollars is said to have been the price paid for the killing of Rosenthal and private detectives have confirmed the information that no fewer than twenty persons were involved.

THIRD PARTY OF MONTANA

Progressives In Convention at Helena—Elect National Delegates

Helena, Mont., July 29.—Montana Progressives met in convention here today for the purpose of selecting delegates to the national Progressive convention to be held in Chicago, Aug. 5. Delegates from many counties arrived yesterday and this morning and James A. Metcalf, secretary of the Progressive party, formed in Helena, April 8, said: "I believe that with a possible exception of one, every county in the state will be represented." The convention, which is called for the purpose of electing four delegates to the Chicago convention, but there has been some talk of following the plan pursued in other states, of electing double the number of delegates assigned, with half a vote each. A national committee member named and a state central committee selected and empowered to call a state convention subsequent to the national convention which will place in the field a complete state ticket.

WOMAN ATTACKED BY NEGRO PORTER

IDAHO TO HOLD STATE PRIMARY

Duluth, Minn., July 29.—Mrs. Thaddeus Williams, wife of a theater owner of Eveleth, Minn., was expected to tell in court today at Eveleth the story of how for two hours she, sole passenger of a Northwestern sleeping car, fought off a negro porter, who, she charges, attempted to attack her. The porter, "Jack" Williams, was arrested here last night and sent to Eveleth, where his preliminary hearing was set for today. Mrs. Williams said she succeeded in stopping the negro only by taking his address and promising to write to him. Lewiston, Idaho, July 29.—At a state-wide primary to be held tomorrow, Idaho voters will select candidates for the November election. The chief fight in the campaign has been for the Republican nomination for governor. Three Republicans see the place. For congress two candidates are to be selected and five Republicans are in the field. The Democrats have few contests.

'KING OF AMERICA' ISSUES AN EDICT

IDAHO TO HOLD STATE PRIMARY

Washington, July 29.—The king of America, who says he lives in Curryville, Mo., has commanded Secretary MacVeagh to call in all the money in circulation and create a general panic. "This," wrote the king in a letter received at the treasury department today, "would produce hard times and prevent a labor war." Officials filed the king's letter and announced they would take a chance on disobeying the royal command. Vaccination was introduced into the United States in 1800 by Dr. Waterhouse of Harvard university. Anyway, the man who builds castles in the air is his own landlord.
