

ECZEMA BROKE OUT IN PIMPLES

On Face, Arms and Parts of Body. Itching and Burning Intense. Scratching Disfigured Face. Cuticura Soap and Ointment Cured.

836 26th Ave., Milwaukee, Wis.—"I was cured of eczema by Cuticura Soap and Ointment. My face and arms and other parts of my body were affected. The way it broke out was in pimples, then it became a rash. The itching and burning were so intense that they made me scratch and disfigure my face. My clothing that was close to my body was very irritating. It kept me from getting my sleep."

"I used several remedies which were of no success. I suffered a year or more with eczema, then I began to use Cuticura Soap and Ointment. It was several times I used them and then they relieved that itching. I continued my treatment and now I have no trouble whatever. Cuticura Soap and Ointment cured me completely." (Signed) Miss Alice Martinez, Aug. 3, 1912.

For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath to assist in preventing inflammation, irritation and clogging of the pores. Sold everywhere. Liberal sample of each mailed free, with 25-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston." For tender-faced men should use Cuticura Soap Shaving Stick, 25c. Sample free.

APPEAL TO THE WORLD

Red Cross Calls For Prompt Help In Relieving War Sufferers

Constantinople, Jan. 28.—The Constantinople chapter of the American Red Cross society has cabled to the national headquarters at Washington a pressing appeal in behalf of the suffering noncombatants in the Balkan war, signed by United States Ambassador William Rockhill, Dr. Caleb F. Gates, president of Robert College, and others.

Seventy-five per cent of the refugees are women and children. Worn out by the hardships, bereavements, exposure and starvation, many have died in the last two months, and unless these distressed people can be helped through the winter mortality among them will be appalling. Large sums must be obtained immediately from Europe and America if these people are not to starve. When the war first broke out hundreds of thousands of the Moslem inhabitants of Macedonia and Thrace, fearing equally for their own and the enemy's armies, fled, abandoning their homes and all that could not be carried with them. They were transported as fast as possible into Asia Minor and scattered among the villages.

Heartrending Conditions. Now that the snows of winter have come, their condition is heartrending. The Anatolian peasants are little better off than they are, and the Ottoman government is altogether lacking in funds and can do nothing.

The Red Cross organizations working in Turkey have co-operated in forming an effective organization, and the valuable experience of American missionaries in the interior has been enlisted. The relief work is conducted on the principle, first, of relieving immediate necessities; and second, of assisting the refugees to self-support at the earliest possible moment. But the resources of these societies have been taxed so severely that their funds will be exhausted before the middle of February.

It is hoped that this appeal will reach all parts of the United States and that the churches, charitable organizations and newspapers will co-operate with the Red Cross society in relieving as great suffering and as crying and immediate need as our country has known.

LABOR NEWS OF ALL COUNTRIES

Statistics prove the official board of trade returns showing the reduction of unemployment in England to practically the bedrock minimum of 2 per cent.

In Norway and Sweden children may engage in industry at the age of 12. The anthracite miners averaged more working time in 1912 than the bituminous miners, working 246 days, against 211 days for the bituminous miners.

There has been a conspicuous decrease of foreigners in British registered vessels; a decline of 6,177 in five years. Irish seamen have also declined in numbers, the most recent figures showing a decrease of 557 in the same period.

Thirty-six states prohibit night work by children.

New York City has twenty-one industries in each of which the annual product is valued at more than \$20,000. The largest of these industries is the manufacture of clothing, and next comes the printing and publishing business.

New York has joined Massachusetts in prohibiting the industrial employment of women within four weeks after childbirth, and the prohibition of the employment of women in general for more than fifty-four hours a week.

Of the four new workmen's compensation laws, that of Maryland is purely voluntary; those of Michigan and Rhode Island are "elective," with the well known provision for cutting off the employer's common law defenses if he does not elect to come under it; while that of Arizona professes to be of the rare compulsory type.

The receipts of the American Federation of Labor have grown from \$174,000 in 1911 to \$207,715.60 in 1912. The largest salary of \$7500 is paid the president of the Teamsters' International union.

In Germany the 9-hour day is now pretty general, and in the better organized trades progress towards still shorter hours is slowly made. The question of Saturday half-holiday has not yet attracted general attention. Almost two-thirds of the more than 200,000 miners in Pennsylvania are foreign born.

The census of the Panama canal zone gives the population there today as 62,810, of which about 42,000 are employees of the canal commission, the Panama railroad and of the various canal contractors.

The wages of the American textile employes, for the same work performed, are 100 per cent higher than those paid abroad.

Employees of stores and offices in Berlin, Germany, get one hour and a half in the middle of the day for lunch. As the cafes have no places to lie down, a company has been formed and incorporated with a capital of \$5000 to enable the clerks to have a quiet siesta. This will give the clerks a chance to have a nap in the luncheon hour.

Between \$75,000,000 and \$100,000,000 are paid annually for labor in American woolen and worsted mills.

The sixteenth annual convention of the Iron Workers' union, which was to have been held in Peoria, Ill., but which, by referendum vote, was postponed on account of the trial in Indianapolis, will be held in Indianapolis, at a date to be fixed by the executive committee.

"Slaves of pleasure," as Russia terms her chorus girls, café singers and dancers, to the number of 700 struck recently, demanding better pay and more humane treatment. They declared that they were given only starvation wages and that present conditions of their existence are unbearable.

San Francisco, Cal., has a union of cab fishermen.

WEBB FAILS TO ARRIVE

Custodian of Arizona's First Electoral Vote Is Missing

Phoenix, Ariz., Jan. 28.—Wilfred T. Webb, Arizona's lost presidential elector, who failed to reach the vice president's office last evening in time to deposit his state's first electoral votes, left here January 6. He arranged to stop over in Chicago for four days. So anxious was Mr. Webb to be the custodian of the baby state's first presidential vote that an elector he voted for himself, thereby depriving a prominent woman suffrage leader of the honor.

MESSINGER WILL LOSE MILEAGE

Chicago, Jan. 28.—Wilfred T. Webb, official messenger bearing the Arizona electoral vote for president, who was reported from Washington last night as missing, was said today to be a guest in a downtown hotel in this city, where he expected to spend several days attending to private business.

According to a dispatch from the national capital, all the other states had delivered their votes yesterday and for a time some uneasiness was felt concerning the Arizona messenger. The senate adjourned without passing on Mr. Webb's bill for mileage, which amounts to approximately \$600. If the rule with reference to mileage bills is strictly adhered to, Mr. Webb's visit to Chicago probably will cost him that amount, it is said, as the law requires the votes to be delivered in Washington before this date in order to permit the messengers to receive compensation.

TAFT SENDS A MESSAGE

Believes Goethals Will Be Given Rank and Pay Justly Due Him

New York, Jan. 27.—"The force of public opinion among the American people will compel the next congress to recognize the justice of the suggestion," that Colonel George W. Goethals, chief engineer of the Panama canal, receive rank and pay of a major general in the United States army, is the opinion of President Taft. A letter conveying this sentiment was received at a dinner in honor of Col. Goethals held here last night.

"It is a source of special pride to me," the letter said, "that I recommended to President Roosevelt the appointment of Col. Goethals as chief engineer of the canal. It is difficult to overstate the work of organization and the obstacles which Col. Goethals has had to meet and has successfully overcome in the construction of the greatest engineering project of five hundred years."

Four hundred men, a majority of them engineers, listened to addresses by Colonel Goethals, Rear Admiral Perry and others.

The dinner was given on the eve of Colonel Goethals' departure for Panama.

SUITABLE FOR THE WHITE WAY

The Merchants Light and Power company of this city has placed two street lights on Twenty-fourth street that will be suggested for use when "The Great White Way" of the city shall be instituted.

The lamps furnish a pretty illumination, so shaded as to make an easy light on the eyes and at the same time brilliantly light the street.

One light has been placed at the curb corner near the company's office, the other at the Wright & Sons' corner.

TO STANDARD SUBSCRIBERS

The Evening Standard business office closes at 8 o'clock each evening. Complaints for papers must be made before that time to receive attention. If you do not get your paper by 6:30 o'clock p. m., call up telephone No. 56 and ask for the circulation manager.

ENTERTAINMENT CLUB.

Mr. and Mrs. O. H. Mohlman entertained the Jolly Salt Bacon club last evening at their home, 365 Adams avenue.

A pleasant evening was spent at cards, prizes being awarded to Mrs. Henry Meyers and A. Mohlman.

Before the guests departed a nicely prepared luncheon was served.

The club members are: Messrs.

Eckman's Alternative Highly Praised

A Valuable Remedy for Throat and Lungs.

It is folly to believe that Consumption differs from every other disease in not requiring the use of any medicine for its treatment. For a number of years an enormous mass of voluntary and thankful testimonials from persons who consider that they owe their lives to Eckman's Alternative, a medicine for Tuberculosis, has been accumulating. Surely plenty of time to demonstrate its lasting value. You can write to any of them. Here is one:

5221 Girard Ave., Phila., Pa.
Gentlemen: In the winter of 1903 I had an attack of Grippe, followed by Pneumonia and later by Consumption. I grew steadily worse. In the winter of 1904 I had cough, night sweats, fever and raised quantities of awful looking stuff and later I had many hemorrhages; at one time three in three successive days. Milk and eggs became so distasteful I could keep nothing down. Three physicians treated me. I was ordered to the mountains, but did not go. Eckman's Alternative was recommended by a friend. After taking a small quantity I had the first quiet night's sleep for weeks. My improvement was marked from the first. I gained strength and weight and appetite. I never had another hemorrhage and my cough gradually lessened until everything I say here can be verified by my family and friends.

ANNE F. LOUGHRAN.
(Sworn affidavit.)
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by The Cave Drug Co., Marshall Drug Co., Colley Drug Co., A. R. McIntyre, T. H. Carr and other leading druggists. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa. for additional evidence.—(Advertisement.)

KNIGHTS OF COLUMBUS

SOCIAL JANUARY 31, 1913.

Knights and their friends are invited to be present at the social to be given in the K. P. hall and Royal Dancing Academy. Cards, music, singing, dancing.

ATTENTION, YEOMEN

Ogden Homestead No. 1505, Brotherhood of American Yeomen, will have installation of officers Tuesday evening, January 28, at Caledonian hall (Howell Bldg.).

All members are requested to be present. Visiting members are cordially invited.

W. S. O'BRIEN, Foreman.
J. A. JUNK, Correspondent.

WEBER IS TOO SPEEDY FOR THE HIGH

Weber academy 87, Ogden high school 4.

In brief the above tells the story of the Ogden high school boys' first attempt to play league basketball. But the boys should not be discouraged, for they were handicapped a little in weight and more in experience, for, as Referee Lon Romney said after the game, "It would take a mighty good team to beat Weber on their own floor."

The high school boys should also be given credit for their willingness to work. This willingness, in fact, made the game extremely interesting for the fans, despite the one-sided score, but last evening they were simply outclassed.

Weber, individually and as a team, played in brilliant form, and if they continue the season as consistently, the coveted ribbon will doubtless hang in their new gymnasium.

Boyd Lindsay was the particular star of the evening, for though he scored only two points, time and again the husky little guard worked the ball down to Belnap or McKay, who with unerring aim landed it in the basket. Belnap scoring 35 points and McKay 28. Heiner scored 10 points in the first half and was replaced in the last half by V. Belnap, who scored 12 points. Jones also did effective work at guard.

The game was exceptionally clean, only 21 fouls being called, 10 for Weber, which permitted Warner of the O. H. S. to score the four points for his team out of 10 chances. Eleven fouls were called on the high school, out of which Belnap landed six baskets.

The fans were there from the rival schools about 500 strong, and a

healthy display of school spirit in song and yells added much interest to the game.

The work of Referee Lon Romney of the University of Utah was fair in every respect and was a credit to his knowledge of the game.

The lineup:

Weber A.	O. H. S.
Belnap	Ruby
V. Belnap	Warner
Heiner	Fuller
McKay	Beck
Jones	Davis
Lindsay	Glasmann

Referee, Lon Romney of Salt Lake; scorers, Scott, Taggart and Brown; time keepers, Lloyd, Taggart and Kerr. Time of game, 40 minutes.

Announcement was made of the game to be played tomorrow evening at 8 o'clock in the gymnasium of the state school for the deaf and blind between the Salt Lake high school and the deaf team.

OFFICERS ARE COMING FOR M'DERMOTT

To provide means for a honeymoon two years ago last November, when he led Miss Evelyn Wolsey of this city to the altar, John McDermott forged a number of checks and obtained money on them. He was arrested within a few hours after his marriage and on April 7, 1911, he was sentenced to serve two years in the state penitentiary.

In November, 1912, having been a good prisoner, he was released from the penitentiary and given an opportunity to do better. In the meantime his wife, having secured a divorce and married another man, it seems, however, that McDermott has taken only a brief vacation from jail, as he was arrested last evening by Deputy Sheriff Hodson for forgery alleged to recently have been committed at Butte, Mont.

McDermott has been in Ogden a number of days, well dressed and wearing jewelry. His landlady stated yesterday that he was doing well, as a few days ago he left the city without money, to return in the course of a few days with plenty of it.

The man stated to the officers last evening that he would not deny that he signed checks in Butte recently, although he was not certain that he did. Officers of Butte will arrive in the city this afternoon for McDermott.

ARTISTS TO AID THE LOCAL CHOIR

Director Joseph Ballantyne of the Ogden Tabernacle choir went to Salt Lake City this morning. While there he will make an effort to secure one or more of Salt Lake's foremost musicians to assist the choir in the forthcoming presentation of "Christ the Victor," the beautiful cantata by Dudley Buck.

The artists he had in mind are Willard Weihe, violinist, Alfred Best, tenor, and Arthur Shepard, pianist, all of whom are popular in Ogden and can fill a place in an evening's program with credit to themselves and delight to their hearers.

Prof. Ballantyne will return this evening.

NEW BOOKS AT PUBLIC LIBRARY

The following books on music and the drama are now ready for circulation at the Carnegie library:

Music—Engle, Musical Instruments; Flinck, Songs and Song Writers; Foote, Modern Harmony; Hughes, Famous American Composers; Newman, Richard Strauss; Poole, John Sebastian Bach.

Drama—Bennett, Milestones; Brieux, Three Plays; Dargen, Lords and Lovers; Plays by Galsworthy; The Silver Box, Joy, Strife; Jones, Michael and His Lost Angel; Maeterlinck, Joyzelle; Mackaye, Mater; Pinner, Iris; Sudermann, The Joy of Living; Synge, complete works in four volumes.

HIT OVER HEAD BY A HOLDUP

That he had been assaulted by a holdup, who struck him in the face with a revolver before robbing him, was the statement made by J. H. Ryan, a railroad man when he was taken to the police station at 11 o'clock last night by Patrolman Jerry

The Fuel Supply Register Tells Which Coal Is Best

Ask a fireman who has charge of a furnace where a fuel supply register is used which coal is best. He will tell you Aberdeen coal is best. And he has reason for such an assertion. The fuel supply register indelibly records on a plate the total pounds of coal consumed every 24 hours. These plates form a complete record of the heat producing properties of the different coal burned. A fireman forms his opinion from this record.

When he tells you that Aberdeen coal is in the first class you can rest assured that he knows.

The biggest fuel consumers in the intermountain country burn Aberdeen coal. If you are not already burning Aberdeen coal, START TODAY.

Aberdeen Coal

95% Fuel "BEST IN THE WEST BY GOVERNMENT TEST"

Mined by the INDEPENDENT COAL & COKE CO., at Kenilworth, Utah. C. N. Strickell, Pres. and Gen. Mgr.; Jas. H. Paterson, V. P. Treas.; F. A. Druchl, Sec'y.
