THOUGHTS OF ARBOR DAY

The capital of France has probably more shade trees than any other city, although in this respect Washington must hold second place. The parks and street shade trees of our own capital city are among its chief adorn-

ments, and almost every tree and shrub adapted to that climate can be found there. The city of Ogdén is also well favored by the presence of shaded streets and park lawns. The variety of trees is not so great as it might

be, however, nor has the selection of trees for planting included in large numbers some kinds as well adapted to a dry climate as box elder and poplar, the trees which have been most numerous planted. These are bur oak, honey locust, Scotch and

greater shade is desired, trees of this form naturally should be selected.

MINING NEWS

BOOM STARTS AT CAMP OF CONTACT

Elko Copper District From Which Big Things Are Expected.

A correspondent writing from Contact, the new copper camp in Elko county, north of Wells, gives the following news of what promises to be another great copper district. "With the return of Henry Smith last week carrying the news that the townsite of Contact City had been duly recorded in Elko things began to move and the last few days have witnessed an activity in clearing streets, clearing lots for building, grading, etc., which can only be seen in a mining camp which has the goods and needs only the now assured railroad to make good. "A general store will be put in by

Mr. Eldridge of Twin Falls, Idaho, just as quickly as teams can haul it in. Two or three saloons are going in, and other additions to the townsite is being laid out as the original four or five hundred lots went like hot cakes and in general there is an air of industry throughout the whole district.

"Mr. Pratt of Twin Falls has his teams on the way with a two-story hotel and expects to erect the same as fast as men and money will permit. Mr. Perry and Mr. Sharp, also of Twin Falls, are on the ground and have picked up some fine lots at the low figure they were put on by the townsite company.

"J. C. Climo and associate, who have the Argonne claim, just above the townsite of Contact City, and not more than six hundred feet distant, have opened up in a 200 foot tunnel two feet of copper ore which will run better than 18 per cent copper, with good silver and gold values. Mr. Climo is enthusiastic over his find and will undoubtedly clean up a neat sum of money from the property. Messrs.

Garlet, Ferguson, Fleming and McCoy, who have a lease on the north end of this property, have struck four feet of copper ore in the shaft which will go better than 22 per cent, with good gold and silver values.

"Mr. Russell of Wells, who is in the employ of Mr. Todd, the Seattle capitalist, as engineer, is running out the preliminary lines of the power plant and smelter which Mr. Todd expects to erect on the eighty acres he has obtained near the river.

"Paddy Haas of Houghton, Mich., who has extensive holdings in the district, is here with his wife and child and expects to stay and develop his property. He is backed by a strong company of operators of the copper country. "A brick yard will be put in by Parker & Nelson as soon as they get their tools on the ground and from figures produced by these gentlemen it is a certainty that brick made on the ground can compete with lumber hauled from Wells or Twin Falls, with a saving in the former."

Just a Plain Commoner.

Royal names for hotels are some times the cause of peculiar misunderstandings. An aged farmer from the home county decided to make a visit to Toronto. It was the first time he had been at a city station and when a hotel carrier hurried to him with the interrogation: "King Edward?" the newcomer simply smiled as he answered: "No sir—Thomas Cox of Erasmus."

WILLIE WHITLA IDENTIFIES MAN AND WOMAN WHO KIDNAPED HIM

Kidnaper Gives Name James H. Boyle, Said to Be Plumber of Sharon, Claims Woman as His Wife—Alleged Associate Commits Suicide—Boy Says "Why, That's the Man Whom I Left Sharon With"

Cleveland, March 24.—Willie Whitla today identified the man and woman held on suspicion by the Cleveland police as the persons who kidnaped him from the school at Sharon, Pa., last Thursday, and held him for the \$10,000 ransom which was paid by his father Monday.

Willie said that the man who gave the name of James H. Boyle, was the one who took him from school and carried him to Cleveland and placed him in the house in the east, and where he was held until the money was paid, and that the woman who was the one who cared for him at the house where he was detained and who acted the part of a nurse.

Boyle says the woman is his wife. The police have no other identification of the couple other than the names given. So far as the man is concerned, the police believe the name is correct. Boyle is said to reside in Sharon and is a plumber by trade. He is said to have a widowed mother and four brothers and a sister.

The woman declared that her identification would cause a sensation in Sharon.

Mr. Whitla would say nothing regarding the woman. He said he knew Boyle slightly.

Immediately after Willie had seen the prisoners they were taken to the county court house and there appeared before the grand jury. They were examined to aid in an attempt to find indictments. The charge under the laws of Ohio against the man and woman, if an indictment was found, would be blackmail.

As Boyle and his wife are held by the police on suspicion only, an indictment will afford a means of placing them under arrest formally.

Immediately after leaving the grand jury room, Mr. and Mrs. Whitla, Willie and the janitor of the Sharon school left for Sharon.

As the prisoners have not waived extradition they will be held here for two or three days until the necessary papers for their removal to Sharon can be arranged.

A woman known as Mary Diener, who the police say may have been an associate of the kidnapers or was implicated in the plot, committed suicide today by drinking morphine. The woman drank the poison while standing in front of a drug store in the east end, not far from the house in which Willie Whitla was detained here. She died in an ambulance while being taken to a hospital.

Attorney White, accompanied by Mrs. Whitla and their son, arrived here at 1 o'clock today.

Two private detectives, who represented Willie first, went to the police station in an effort to see Chief of Police Kohler to arrange for the identification. The chief would not admit the detectives and stated that he would have nothing to do with them or would deal only with Willie or his son.

This was reported to Willie, and another dispute occurred, which prompted for a time to stop the proceedings.

Whitla telephoned to the police from the hotel that he had arrived and that he was ready to see the chief. Chief Kohler replied hotly that he was at the police station, where the prisoners were being held, and that Willie could see them there if he cared to assist in the prosecution of the man and woman in custody.

Mr. Whitla then went to the police station, but was not allowed to see the prisoners himself. He was informed by the chief that the only identification he desired was that which the boy could make. The chief also told Mr. Whitla that if he did not care to make the identification in the usual manner, he could return to Sharon and that the prisoners would be processed here on the charge of blackmail.

Whitla then agreed to have Willie see the woman and the man. An hour later Mr. and Mrs. Whitla and their children appeared.

The man was the first one taken before them. Boyle was a little pale and nervous. There was a faint smile upon his lips. He was seated before

WOMEN'S WOES.

Ogdén Women are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must sleep up, must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. H. C. Peterson, 3424 Washington St., Ogdén, Utah, says: "It gives me pleasure to recommend Doan's Kidney Pills. Some time previous to using them I was in a helpless condition, consulted doctors but did not succeed in finding relief. I suffered from rheumatism and dropsical swellings in my feet, had pains in my back and finally procured Doan's Kidney Pills from Bader's Pharmacy, used them as directed and was entirely relieved."

the party, which formed a semi-circle in front of him.

Chief Kohler asked Willie if he had ever seen the man before. "Sure," said Willie, brightly. "Why, that's the man whom I left Sharon with. He took me to Cleveland, then to Ashtabula and back to Cleveland."

"He had a mustache when I first saw him at the school house, but he must have cut it off later. This is the way he looked when I last saw him in Cleveland."

When Willie concluded, Boyle was taken back to his cell and the woman was brought in.

She was defiant and haughty in her demeanor. She stared at Willie and the other members of the party. Her only relapse from the indignant manner was when she first saw Willie. The woman smiled.

Immediately Willie walked up to her, and, extending his hands, said: "How do you do?"

"Hello, Willie," the woman replied, and she placed her hand upon his head and caressed him for an instant.

The boy then stepped back to his father and was asked several questions by the chief of police.

"Yes, I know her," he said, "she was the nurse who took care of me in Cleveland. She told me I was sick and in a hospital. I saw her a whole lot. She was with me most all of the time."

Notwithstanding the woman's former assertion that there would be a sensation when she was identified or when Willie saw her, she and Willie looked at each other without outward evidence of recognition. They did not speak to each other. Neither did she speak with any of the other members of the party.

After the brief examination by the chief the woman was taken back to jail.

County Prosecutor Kline, who is in charge of the grand jury, said that while he could not say what the grand jury would do, the man and woman could be held in Ohio on the charge of blackmail.

The prosecutor also stated that the grand jury had taken the matter up merely as a precaution, as there were no present intentions of prosecuting the prisoners here.

It would be better if they were tried in Pennsylvania, as the laws in that state are much more severe, the extreme penalty for kidnaping being life imprisonment," the prosecutor said.

"That is what they deserve, if guilty. For that reason they will be taken to Sharon for trial first. If, for any reason they escape punishment there, they cannot escape entirely, as we could arrest them and try them on the charge of blackmail. We shall watch the case closely."

Willie then returned to his examining room, where he was waiting for the witness room with his father.

"I had a good time, because they were nice to me," he said. "The funnest part of it was when the man made me walk five miles near Lehigh. After that we rode on the train. He gave me candy and lots of good things to eat. I didn't like the hotel in the house so much, but they said I was sick. The first I saw the woman was at the house where they kept me. She was dressed like the man, but I am sorry for her. Mama was worried an awful lot and I guess I wouldn't want to go through it again."

The Whitlas left for Sharon at six o'clock.

The police today located the house where the Whitla boy was held while in Cleveland. It is the "Granger," a downtown apartment house of the better order. The man and woman rented a suite on the second floor front. Willie said he spent considerable time at the front windows and noticed the names on the street cars which passed. He also said he read a sign across the street which he remembered. It was through the aid of the signs and the street car signs that the lair of the kidnapers was located. The building is in a populous district. The kidnapers ate at a restaurant nearby.

Mrs. Maud Forker, who is the wife of Harry Forker, brother of Mrs. Whitla, was seen at her home in Northwalk, Ohio, today. When she was given a description of the woman she exclaimed, "That woman again!"

She then broke down and wept bitterly. Mrs. Forker would say nothing more or explain her remark.

A brother of Boyle, the man under suspicion, telegraphed the police from Sharon tonight, and requested that he be given an opportunity to see the woman being detained. Boyle said he would be here tomorrow.

Sharon, Pa., March 24.—Believing that the most interesting part of the story of the kidnaping of Willie Whitla is yet to come, the people of Sharon are waiting in eager expectancy for the positive identification of all the persons arrested at Cleveland. That others besides those who are now charged with the crime are implicated in it, is doubted by few here, and the discovery of the others in the case promises a sensation when the facts become known.

That there would be an effort to prevent the making public of names which may be involved in the case, was surmised today by reason of activity in certain lines, but the probability is that the parties in custody will not be permitted to withhold the names of other persons implicated when the case comes to trial.

BYRCE IS GUEST OF HONOR IN SAN FRANCISCO

San Francisco, March 24.—Hon. James Bryce, British ambassador to Washington, was the guest of honor tonight at a dinner given at the St.

Francis hotel by the Commonwealth club of this city. Among the speakers were Ambassador Bryce, Justice Lucien Shaw of the supreme court, and Gavin McNab, a state leader of the Democracy.

TWO MILLIONS FOR KELVIN CALUMET

Lewisshon Deal Involves Much Money—Now Property of Roy Central.

The transfer of the property of the Kelvin-Calumet Copper Mining company of Kelvin, Ariz., to the Lewisshon brothers, under the name of the Ray Central Mining company, involves a larger amount than was at first expected. The sale is one of the largest ever made in the territory. The price set in the bill of sale which was recorded with the county recorder at Florence, Ariz., last week, is stated to be \$2,000,000.

The terms of the contract by which the property is turned over to the new company are that the Lewisshon brothers are to spend \$310,000 on the development of the mine this year. At the end of the year, if the development of the mine shows the returns called for in the specifications of the contract, \$1,600,000 more will be advanced by the Lewisshons for the establishment of proper dressing machinery and the mine will then become the property of the new company. The name of the mine will be changed to the Ray Central.

The old stock of the company is taken over at the ratio of five shares of old stock for one share of the new corporation.

The deal was closed after negotiations covering a period of three months, during which time numerous examinations were made of the property. Adolph Lewisshon recently visited the property, and after a careful examination he decided to take over the property and the Ray Central was then formed.

The property consists of a group formed in 1904 by the amalgamation of the Calumet claim and others, W. T. Smith and J. W. Walker of Phoenix being interested in that property. The Kelvin-Calumet company was formed with W. R. Twitchell in charge, though the large interests connected with it were represented mainly by W. E. Sharpe of Philadelphia, O. A. Turner of Baltimore, Ben Hazen, Thomas Dyer and a Mr. Schamberg of Philadelphia.
