What is the object of this letter? The third paragraph tells the story. Mr. Burley wants the Ogden people to believe that he is giving Ogden as good a rate as is the Denver & Rio per mile and that it gives Salt Lake Grande. If we were to take into consideration, only, the price per mile it would be the same per mile.

Ogden people

Read this story from Sunday's naper and then ask for the same rate Salt Lake City receives-nothing more, nothing less:

many times if it were true that the den, Utah. Oregon Short Line had offered the Four-State Fair just as low a rate as had been offered by the Denver & Rio Grande railway. It is claimed the third column gives the prices as that the Oregon Short Line people "Answering your favor of the 8th assert they have offered just as low a inst. in which you refer to my letter rate for the Four-State Fair as was No. A 597, dated April. My carbon given by the Denver & Rio Grande railway and the Western Pacific rail

This paper has made an investigation and finds the statement is not First of all, the Four-State Fair asked all the railroads entering Ogden to give Ogden, for the week beginning September 6, the same rate such railroads give Salt Lake City for conference and G. A. R. excursions. The Rio Grande people promptly by saying that their road gave Salt Lake City a one-price rate for the round trip and to show that they did not intend to discriminate against Ogden, would give Ogden the same rate for the Inter-Mountain Four-State Fair in Utah and Nevada.

The Oregon Short Line general pas enger agent responded, after much Ogden the same rate they gave Salt points. The intermediate points u rates being 4c per mile, while ours is Lake City for conference and G. A. R. excursions, but would give Ogden a While you may not be advised on four-cent per mile one-way rate for is only \$6.35, just a fraction over the subject, the fact of the matter is the round trip, or one cent per mile cents per mile Manti, 161 miles,

Now comes the Oregon Short Line "As advised in my letter of the 6th and says that the Rio Grande charges inst. the Union Pacific officials are four cents per mile regular fare each agreeable to authorizing same rate way, while the Oregon Short Line from Utah points east of Ogden, also charges only three cents per mile each Wyoming, as far east as Evanston, way regular rates, and that when the Whether they would want to extend Rio Grande gives Ogden its one price these rates over to Rawlins or not, for the round trip, it is equal per mile as you request, I cannot say. Suggest to the Short Line's one and one third rate, as in each case it would be four

cents per mile Now, if it is true that the Rio Grande's regular rate is four cents per mile or 8 cents for a round trip and the Short Line's regular rate is three cents per mile one way or six cents mile the round trip, then one half of the Rio Grande rate would be the same per mile as 1 and 1-3 rate of the Short Line, or four cents. We deny that the Rio Grande charges four cents per mile regular rates. It may do so in some instances, but let us admit that it does charge four cents conference a half rate or two cents a mile each way, does the Rio Grande discriminate against Ogden? No; it gives Ogden an equal chance with Salt That is all Ogden asks. Lake City one-half of its three-cents-

We have not the space to publi the list of all the towns on the lin basis per mile as is authorized by the delay and evasion, to the effect that the list of all the towns on the line Denver & Rio Grande, San Pedro and the Oregon Short Line could not give but the foregoing gives the important doubtedly are at the same ratio. We find the Richfield rate one wa

less than 3 cents per mile, for a ticke from Manti, 161 miles, is only \$4.6 while at 3 cents it would be \$4. From Heber City it which is less than 3 cents a mile The rate from Lehi is just a fraction

over 31-2 cents. The Bingham Jun tion rate is just 31-4 cents per mi while from Murray the rate is a little less than 31-4 cents per mile. We did not seek the rates from the Juab county mining camps, as the Rio Grande has a very expensive piece of road in that county and would justified in charging 4 cents per

mile in that section. Now the foregoing tells the whole story of the Oregon Short Line trying to fool the Ogden and Weber county people into the belief that it is doing as well by them as any other road.

If the Short Line will make the G. A. R. and conference excursion rates to Salt Lake City the same price per mile it charges Ogden, then the people of this part of the country will have no complaint. Our people ask for the same price per mile that is granted our sister city. The Rio Grande has granted the rate-the Short Line refuses to do so. Any effort of the Short Line to play for sympathy among our people should be resented.

The people generally should give the railroad to understand that the best rates are wanted by the whole people of Ogden and not alone by those in charge of the fair association The officers of the fair association are Commerce, the Retail Merchans' As-sociation and the Four-State Fair of-The Short Line, however, charges Salt only the representatives of the people

High Prices In India.

6,297,000 16.0 ...

Increase in the price of grain and foodstuff throughout India has become a serious matter on account of the poverty of the masses and the low wages paid for labor, according to a report made by Consul General William B. Michael to the bureau of manufactures. He says that foodstuffs have advanced 40 per cert, during the last two years in India, while rents have advanced from 50 to 60 per cent.

the cause of this advance is ascribed by some, he says, to the export of too much grain and other food commodities from the country, thus limiting the supply and enabling a certain class of speculators to raise the price of foodstuffs.

There is discontent among all classes, except the very wealthy, because it is almost impossible to live becomingly on present salaries and daily wages.

Cheerfulness of Englishmen. If you ask any intelligent foreigner what his chief impression of England is he will invariably reply the cheerfulness of the English. If any proof were needed of the prevalent gloom it would surely be found in the astonishment which the few remaining cheerful people cause and the amazing popularity they enjoy. Our sunny friends and acquaintances can be counted on our fingers; our dismal ones are all around us. Women's Tailor-Made

Suits

Way Under Price

Here is a stock of suits for women so rich in variety and so filled with the charm of soft color and soft linings that their character, their sterling tailoring, their unusual finishing, are almost forgotton in sheer delight of their beauty.

It is not boasting to say that nowhere, outside of this store in Ogden can richer suits be found and nowhere in Ogden City can suits of such cloth lined with such silks, let alone their charm and individuality, be found under half again as much.

We do not promise you extraordinary suits for \$11.75, though we have better suits for this price than you will find elsewhere at \$15.00. But at \$15.75 there are suits equal in tailoring to any in the city of Ogden and for sale nowhere under \$25.00. At \$25.00 we have suits that can not be matched under \$40.00, yet we are conservative. From these prices they go steadily up to \$75.00.

We believe that we can suit any woman who comes here expecting an exquisite piece of tailoring made of the rich cloths rarely seen outside of extravagantly costly tailor shops,
