

UNPRECEDENTED RAINS CAUSE DISASTER

FIVE PERSONS DEAD, TEN SERIOUSLY INJURED.

Several Thousand Acres of Crops Inundated, Streams Raging, Sections of Track Washed Out.

Oklahoma City, May 24.—Five persons are dead, at least ten seriously injured, several thousand acres of crops are inundated and every stream in the northern and eastern part of the state is raging as the result of unprecedented rains during the past twenty-four hours in Oklahoma.

The dead: Mrs. W. W. Brown and three children of Fowler; Mrs. Mattie Jones, negro; Gib Brown and her children were drowned in Salt creek while attempting to escape from high waters. Mrs. Jones dropped dead from fright when the waters of Boggy creek, near Enid, surrounded her home.

Railroad tracks near Shawnee, Holden, Tulsa, Pawnee, Muskogee, Vinita and Oklahoma City are in bad condition and sections of track are washed out. Bridges are unsafe along the Arkansas, Cimarron and Canadian rivers and traffic is generally delayed.

The flood is the worst since 1872 and the loss of crops will reach many thousands.

Near Miami the Neosho river is out of its banks and many farms are covered with water. A cloudburst at Krenlin carried away houses and crops.

A small tornado struck Morris, demolishing the Methodist church and several residences, including that of Ernest Scott. Mr. Scott, his wife and child were seriously injured.

Black Bear creek in Pawnee county is out of its banks and hundreds of people are removing to higher lands. At Vinita the Grand river threatens all lowlands and the railroads.

In the oil fields four sixteen-thousand barrel tanks were struck by lightning and destroyed.

Lightning struck the school house at Billings, injuring a number attending services there.

St. Louis, May 24.—Disagreeing, two against two, on the government's suit to dissolve the Terminal Railroad association of St. Louis, the judges of the United States circuit court have certified the case direct to the United States supreme court. Judges Sanborn, Vandewater, Hook and Adams sat on the case. The suit was brought in November, 1906. The complaint alleged that the association was a consolidation of parallel and competing roads and ferry and bridge companies, engaged in interstate commerce and acting in violation of the federal statutes.

The case was argued here in April.

St. Paul, Minn., May 24.—Judge Adams, one of the judges who signed the order certifying the case to the United States supreme court, said today: "The order as signed by the court was to the effect that two of the judges found that the combination was in restraint of trade, and that the association should be dissolved. The other two judges were of the opinion that these bridges or approaches were not railroad bridges but were merely terminal facilities, and giving all railroads approach to the city and affording the people ample opportunities to go or come from all parts of the city. Finding the court so evenly divided, we merely certified all the papers to the supreme court to do so."

St. Paul, Minn., May 24.—It is stated today that negro miners who were brought to Jackson, Breathitt county, to succeed white miners in the coal mines there, were preparing to leave and will get away as rapidly as possible. This decision follows an attack on their boarding house Saturday night in which the house was riddled by bullets and one building partially destroyed by dynamite.

The outbreak at Jackson follows a similar state of affairs at Bonston Station, where soldiers are guarding the negro workmen at rock quarries.

Much feeling has also been engendered in Shelby county because of the proposed location there of a four-hundred-thousand-dollar negro school.

METHODISTS TO LAY CORNER-STONE OF HAWTHORNE CHURCH

Hawthorne, Nev., May 24.—The laying of the cornerstone for the Methodist church here tomorrow will mark the invasion for the first time of this town's precincts by a place of worship of any denomination of Christian faith. A town of 1,500 population, prosperous, formerly the county seat, and in the heart of a rich mining district, Hawthorne has never yet boasted a place of worship for believers in Christianity.

RECORD SALE OF WOOL.

The record sale of wool was made yesterday when James Winters, the well known sheep man, sold his wool clip, about 20,000 pounds, to B. Harris of St. Louis for 25 cents. Mr. Winters had declined 21 cents, but when the St. Louis man ran the bid up to 25 cents, Mr. Winters saw it was a record sale, and that no higher price could very well be expected, so he let it go. However, this is no antagonistic move against the Chicago storage plan, for Mr. Winters pays his 1 cent per pound to the Chicago Warehouse company, just the same as though he had shipped his clip there for storage prior to sale. The wool is mostly Cotswold and of the finest quality.

While looking on one of the men turned at him and began beating him. Johnson was attended by Dr. F. B. Steele.

Eureka, May 24.—The cause for the uneasiness of Iron Blossom stock the past few days is believed to be the circulation of a report that the mine was not looking just right, and heavy selling orders were sent in by some of the shareholders. The management here states that in crowding the output of the property, but little opportunity has been presented to develop the big ore body as it should have been developed, and that at one or two points from which the heavy tonnage of ore has been taken lead streaks were apparently encountered. This, no doubt, caused the report to
