Hyland Lack the Punch in Fighting Nelson

The San Francisco papers, in their accounts of the Nelson-Hyland fight, agree that Hyland lacks steam. Here is one account of the fight: Hyland gave Nelson a tougher fight than had been expected, but at no stage of the encounter did Nelson appear unduly distressed, although there were rounds in which Dick peppered his man to the face and brought over heavy rights to the kidneys.

The nineteenth and twentieth were slower rounds, the men apparently contented to wrestle each other around the ring. Nelson never forgot to punch Hyland about the stomach when they came to a clinch, and as he went to the center of the ring for the twenty-first cut loose. Three hard rights in quick succession were planted to Hyland's midbody, and the Californian fairly seemed to wilt away as he sunk to the floor.

With a man in that condition, the result of the fight could not have been in doubt. It was a case of so much hammering before he would have to give. That was the end of the fight. Nelson, realizing that he had his man whipped, roared hard. Rights and lefts to the body and jaw left Hyland in a tottering condition, and a light left to the jaw finally sent the loser down. He was up at the count of nine, but was promptly knocked down once more, the going for the second time saving him.

struck with a crash, smashing the prow almost up to the front of the gondola and crushing the aluminum stays into a shapeless mass, which became inextricably enmeshed in the branches. Nearly a hundred feet of the envelope and framework were destroyed.

Count Zeppelin immediately came telegraphed to Friedrichshafen for workmen to make repairs. After resting for several hours at a hotel he returned in the evening to the scene of the accident, proceeding thence by automobile to Friedrichshafen. He will return tomorrow morning.

FEAST FOR ANYONE

POSSIBILITIES OF THE SWEET POTATO. In Many Respects Superior to Its Sister, the Irish—Three Good Ways of Serving the Succulent Vegetable.

The sweet potato is not in so high favor as the Irish; yet it is not diseased like the latter, says Victor Smith, in the New York Press. Grated, it makes the finest pie you ever tasted. Sliced and candied, it is a dish of such excellence that children cry for it—a Fletcher. When a large yam is sliced a la Korahrens, a sixteenth of an inch thin and fried in a caldron of superheated fat (beef suet preferred) there is nothing better to munch on. The sweet potato is as far ahead of the Irish potato as cauliflower is ahead of collards, the favorite vegetable of Champ Clark, minority leader of the house of representatives.

THEORY AS TO EARTHQUAKES. Possibility That One Shock Has Power to Set Off Another. The possibility that the shocks of an earthquake, transmitted through the earth's mass, may "set off" another quake thousands of miles distant has been suggested by an Italian student of the subject, Signor Emilio Oddone. Of course, this would be the case only where the crust of the earth was in such an unstable condition that good jarring would cause slipping or breakage. Signor Oddone has recently called attention to the fact that just half an hour after the great Valparaiso earthquake another quake was recorded, the center of which was in the north Pacific, about 7,000 miles distant. The time required for an earthquake wave to traverse the solid substance of the earth from one of these points to the other is just the period that separated the two disturbances. It may well be, therefore, that the big Valparaiso quake pulled the trigger that "exploded," so to speak, its smaller successor in the northern hemisphere.

SHERIFF'S SALE. In the District Court of the Second Judicial District of the State of Utah, in and for the County of Weber.

Just a Gentle Hint. Lowry is a man with a moderate income and one child, whom he is already sending to a French master, who is accustomed to be paid every Monday. Recently Lowry sent Henry to his lesson without the usual bank note. That evening the father looked over the boy's exercise, and this is what he found Henry doing his best to put into Parisian French: "I have no money. The week is up. Have you no money? Has your father no money? I need money. What is the day of the week? The day of the week is Monday. Does your father know the day of the week?"

Slow to Realize Change. Bulgaria's flag is so new that the Turkish gunners did not recognize it, and with blank shots turned back a steamer flying it. The official realization of events is often slow to reach. When John Quincy Adams was coming to Berlin as American minister to Prussia he was held up at the gate and the officer of the guard had doubts about letting him in, never having heard of the United States of America. A sergeant more intelligent than his superior knew all about the United States, and on his intercession Adams was allowed to proceed.
