Quick Arrest Made—At the request of Sheriff Clark of Elko, Nev., Gebhardt Sieler was arrested by Officers Chambers and Burk at West Weber yesterday afternoon. The officers, upon receiving the telegram from Elko, went to the Union station and read the description of the man to the conductor of an incoming train from the west. The conductor stated that a man answering the description had left his train at West Weber and the officers secured a horse and buggy, drove to that point and caught the fellow. He will be held at the city jail pending the arrival of Sheriff Clark. Sieler is wanted at Elko on a charge of theft, it being alleged that he misappropriated the sum of \$75 from his employer while acting as bartender.

A real refined resort—Lagoon, 50c. STORAGE at reasonable rates, in good brick building. If you need any room, consult John Scowcroft & Sons Company.

Baby Has Narrow Escape—About 10 o'clock last night the horse which Claude Lee was driving along upper Twenty-fifth street became frightened and started to run. Mr. Lee was thrown out near Adams avenue and the buggy practically demolished. The horse continued his mad career down Twenty-fifth street and at the corner of Washington avenue struck a baby carriage, which was being wheeled by an unknown woman, tearing the handles from it and hurling the carriage about twenty feet into the street. The carriage remained upright and the baby was not in the least injured. The horse ran until he reached a point said to be near the Southern Pacific ice houses west of the Union depot, where he was caught. Portions of the buggy were scattered all along the route and when caught the horse had little other than the harness hanging to him.

NOTHING SPARED TO MAKE LIFE COMFORTABLE.

Southampton, June 13.—The new North German Lloyd liner George Washington called here today and sailed again for Cherbourg on her maiden voyage to New York. Director Heineken, managing director of the North German Lloyd, in an address at a luncheon on board, said that in the building of the trans-Atlantic liners nothing had been spared to render life at sea as comfortable as on shore. In the case of the George Washington, he ventured to claim his company had succeeded in doing even more than this. They had to deal with a noble ship, bearing a noble name, and so they had striven to create, so to speak, a noble atmosphere throughout the ship by filling every available space with reminiscences of the ship's great namesake.

The George Washington, 27,000 tons, is the largest ship ever built in Germany and is from the yards of the Vulcan company at Stettin. She is 722 feet long, 78 feet wide, and the depth from the upper saloon deck is 54 feet, and from the awning deck 80 feet. There are two sets of quadruple expansion engines, aggregating 20,000 horse-power, which will give an average sea speed of 18 1/2 knots. Her floating population will amount to 3,303 persons. There is an open air connected with the smoking room on the upper deck, and Marconi offices for writing messages, dark rooms for photographers, a large electric gymnasium, and winter gardens.

SMALL BOY FALLS FROM WAGON AND IS KILLED

Salt Lake, June 13.—Jolted from his seat on a wagonload of fruit and falling headlong to the ground, Harold Brooks, the six-year-old son of Mr. and Mrs. Harry Brooks, No. 643 West Third North street, was instantly killed at about 7 o'clock last night at the intersection of Third North and Sixth West streets. In falling from the wagon the boy's head struck a stone with great force, fracturing the skull and producing instant death.

The boy was riding with his cousin at the time of the accident and it is supposed he was thrown from his seat on the side of the dirt wagon. The body was removed to the F. M. Taylor undertaking establishment to be prepared for burial. The parents are grief-stricken over the terrible tragedy.

ALL HOPE OF SAVING LIVES OF CREW IS GONE

TWO DIVERS DEAD WHO TRIED TO RESCUE MEN.

Others Have Tried to Pass Chains Around Wreck But Come to Surface Exhausted.

Sebastopol, June 13.—All hope of saving the lives of the crew of the Russian submarine Kambala, which was sunk in collision with the battleship Rostislav during the maneuvers Friday night, or of recovering the wreck, owing to the great depth of water, is gone. Two divers have died in the attempts to rescue the men, on account of the immense pressure. Others have tried repeatedly and heroically to pass chains around the wreck, but finally came to the surface utterly exhausted, having accomplished nothing. All operations have been abandoned.

The chances of saving the lives of the imprisoned men were recognized from the first as very remote, although under normal conditions the submarines have an air capacity of three days. The Kambala is weak structurally, and for this reason cannot make a descent of more than 100 feet.

The Kambala went down in 150 feet of water and only untrustworthy bulkheads stood between the men and death after the boat was struck by the Rostislav's ram.

The disaster occurred five miles from Sebastopol. Four men were saved, including the commander, Lieutenant Apollonoff, who was giving orders through the speaking tube to the helmsman just before the collision.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50 cents at any drug store.

MUTINY OF THE NATIVE CONSTABULARY AT DAVAO

Manila, June 14.—Details of the mutiny of the company of native constabulary stationed at Davao on the Island of Mindanao on the night of June 6, show that the attack on their officers was made unexpectedly by the mutineers. When the mutineers opened fire, one officer, Lieutenant Degorcorria, was hit three times, but none of his wounds were serious, while Governor Walker and the other officers of the company escaped without a scratch. The mutineers then fled to the hills after taking thirty rifles and five thousand rounds of ammunition.

Governor Walker hastily summoned the neighboring planters as soon as the mutineers were out of sight, and proceeded to fortify a convent in preparation for a long siege. On account of the firearms restrictions, most of the planters were only armed with revolvers, but when the natives made an attack on the convent on the afternoon of the 7th, they fought with great spirit, and drove off the mutineers. The mutineers made a desperate attack on the beleaguered garrison and a number were killed and wounded before they retired. Among the besieged, the wounded include Collector Roddy and Messrs. Burchfield, Stephens, Reynolds and Hernandez. All of these planters' wounds were slight. Lieutenant Degorcorria, the wounded constabulary officer, is the man who cleaned out the bad men of Davao after the murder of Governor Bolton in 1907.

DR. MOFFETT CLAIMED TO BE RIFLE KING OF ENGLAND

New York, June 14.—The body of Edmund Montgomery Moffett, who all his life claimed to be the rifle king of England, was buried yesterday near his home at Woodcliffe, N. J. Dr. Moffett, who was 62 years old, was born of a good family in Cincinnati, and for many years had a large medical practice in this city, from which he accumulated quite a fortune. He and his immediate ancestors had traced their genealogy back to 400 B. C. and Dr. Moffett claims to be the true lineal descendant of King James II. His claim to the throne of Great Britain came through Fergus I, first king of Scotland, and down to Robert Bruce and the Stuarts.

Dr. Moffett was a highly educated man and only to his immediate friends did he discuss his relationship with royalty. He never made any formal claim for the throne of England, contenting himself with the belief that the crown rightfully belonged to him.

JUST ONE A DAY

How the Coffee Drinker Compromises His Health.

Some people say: "Coffee don't hurt me" and then add: "Anyway I only drink one cup a day." If coffee really don't hurt why not drink more? There is but one answer and that is coffee does hurt and they know it. When they drink it once a day they compromise with their enemy. There are people who one cup of coffee a day will put in bed, if the habit be continued.

"Although warned by physicians to let coffee alone I have always been so fond of it that I continued to use it," confesses an Ohio lady. "I compromised with myself and drank just one cup every morning until about six weeks ago."

"All the time I was drinking coffee I had heart trouble that grew steadily worse and finally I had such alarming sensations in my head (sometimes causing me to fall down) that I at last took my doctor's advice and quit coffee and began to use Postum in its place."

"The results have been all that the doctor hoped for, I have not only lost my craving for coffee and enjoy my good Postum just as well, but my heart trouble has ceased and I have no more dizzy spells in my head. I feel better in every way and consider myself a very fortunate woman to have found the truth about Postum."

Look in books for the famous little book, "The Road to Wellville." There's a Reason."

Ever read the above letter. A new one appears from time to time. They are genuine, true, and full of human interest.

CORPORAL SHOOTS COMMANDING OFFICER

ALSO SERGEANT WASHBURN AND CORPORAL SUCH.

He Had Been Reprimanded Because of Failure to Report Expiration of Leave of Absence.

Des Moines, June 13.—Corporal Lysle Crabtree today shot and perhaps fatally wounded Captain John C. Raymond, commanding officer of troop B, Second United States cavalry, at Fort Des Moines, then shot and seriously injured Sergeant James H. Washburn and Corporal Elijah Such, who attempted to disarm him. Later he shot himself and nearly died.

Crabtree had been reprimanded by Captain Raymond because of his failure to report when leave of absence had expired. He had passed the night in Des Moines, and was to have returned to the barracks at 7 a. m. Crabtree was summoned by Captain Raymond and questioned as to his conduct, whereupon the corporal hotly insisted he had leave of absence until 7 o'clock tonight. Captain Raymond accepted this explanation and the incident was considered closed, when Crabtree demanded that he be transferred to another department. This Captain Raymond refused to consider, telling the corporal that he could not do that as long as he was not a good soldier.

Immediately Crabtree pulled a revolver from his pocket and began firing. Sergeant Washburn grappled with the soldier, receiving a bullet in the hand and one in the jaw. Captain Raymond had seized the man's arm and was about to disarm him when a bullet struck him in the neck, lodging in the spine, and he dropped to the floor paralyzed.

Captain Raymond is a son of Brigadier General Raymond, retired, formerly of the engineers in charge of rivers and harbors and stationed at New York. His brother is Major Robert Raymond of the engineer corps, stationed at New York.

THE PLACE TO SPEND A HAPPY DAY. Lagoon, 50c round trip. Salt Lake & Ogden Ry.

WARNING IN REGARD TO DANGER AT RESORTS

Chicago, June 14.—To persons about to take summer vacations, the city health department has issued its annual warning against the danger of contamination of water and food at summer resorts in the country. It says:

"The average summer resort is poorly equipped in the way of pure water supply, and the average farmer, who takes summer boarders, has a surface well that is sure to be seriously polluted. Never drink water from a surface well until it has been boiled."

"Look carefully to the food supply, especially milk. See that it does not come in contact with flies at any time. Flies are even a greater menace in the country than they are in the city, because the sanitary arrangements are less perfect."

"It has been the experience of this department that many hundreds of cases of typhoid fever are brought in to Chicago each summer, especially in the late summer by people returning from their vacations."

HER THIRD ENGAGEMENT PROVES SUCCESSFUL

New York, June 14.—Announcement has been made of the marriage of Miss Edith Irwin Walter, the favorite niece of Augustus Thomas, the playwright, and well-known in St. Louis society, to Julien Lansell Hume. Miss Walter had everything in readiness three years ago for her marriage to an automobile broker of Middletown, N. Y., when it was discovered that he had a wife living. The young woman was shopping with her fiancé when the latter's wife happened to see them and exposed him. The wedding invitations were recalled the night before the wedding was to take place, and for several weeks Miss Walter suffered from nervous prostration.

Early this spring, Miss Walter was engaged to marry Robert Patterson, a wealthy young hotel owner of Honesdale, Pa. She was wearing his engagement ring and dressmakers were at work on her trousseau and the day of the wedding was set for June 8. Early in May, Miss Walter broke the engagement without making any public explanation. Mr. Hume comes from a well-known southern family.

GOVERNMENT FAVORS AMERICAN INVESTMENT.

Washington, June 13.—Regarding the proposed American participation in the foreign loan on the Hankow-Sze Chuen railroad, in which New York bankers are deeply interested, an official statement issued at the state department today declares that the department is following this situation with great interest and looks forward with confidence to a satisfactory arrangement between the American group and the German, British and French financiers.

The statement sets forth the government's gratification at the formation of a powerful and responsible American financial group to enter the field of investment in China. The department, it is declared, is giving the enterprise the cordial support which it is ever ready to give to all legitimate and beneficial American commercial and financial undertakings in foreign countries.

SWARM OF BEES INVADERS A CROWDED STREET CAR

Pittsburg, June 14.—There was a lively few minutes among the churchgoers on a North Side car this evening when bees from the aviary of O. E. Knoch, awarded on a flying trolley car filled with worshippers on their way home.

Those who saw the passengers get off the car declare that all world's records for emptying a crowded car were shattered.

Before the motorman, who was safely locked up from the bees, could stop his car one square from where the bees got on he had not a passenger left. Even the conductor had fled, and many people had been hurt by tumbling off the car.

THE Old Way and the New

The old way was to light the fire first when about to prepare the meal. The new way is to prepare the meal first and then with a match light the fire in the gas range, yes, always get things ready before lighting the gas fire.

You wouldn't think of buying ice and keep your refrigerator in the kitchen with the coal range would you? Well, we do, but ours is a gas range. "Do you see?" as Miss Van Cott says, the story in a nut shell is, "A cool kitchen, no fire, only when required."

We lay and furnish the pipe from the street to your meter free. This should encourage you to have gas installed for the comfort of home, especially when the cost of cooking with gas is less than when using coal.

All the Hardware Firms as well as ourselves carry nice lines of gas stoves. Come in and leave your name and become a gas consumer; you will be pleased.

POPE RECEIVES AMERICAN DELEGATES IN AUDIENCE

Rome, June 13.—The pope today received in audience Monsignor Falconio, apostolic delegate at Washington, and the American bishops who have been in attendance on the golden jubilee of the American college. Manager Kennedy, rector of the college, introduced Dr. Wall of New York, president of the Alumni association of the college, who delivered an address. The pope, responding, gave high praise to the college, saying that it, out of seventy millions of Americans, one-quarter of the number were of Catholic faith. It was due especially to the first missionary from the propaganda and to others, more than six hundred of whom had been provided by the American college.
