STEEL STRIKERS IN UGLY MOOD SHOWER TROOPERS WITH BRICKS

Constabulary Had Just Cleared Pittsburg Streets—Soldiers Will Shoot Into Crowds at the First Sign of Rioting

Pittsburg, July 16.—Street cars, vehicles and pedestrians are being held up today by steel strikers in the vicinity of the Pressed Steel Car company's plant at McKees Rocks, where there has been much disorder and some bloodshed during the last two days. Every approach to the big plant is guarded by the men, and every one is compelled to satisfy the strikers that they are not seeking employment. With the coming of daylight, rioting ceased.

By 9 o'clock, however, the streets again took on a lively aspect, the strikers in an ugly mood gathering around the mill entrances. No violence was offered, and the state police took up a position at the upper end of the town. At the first sign of rioting the troopers are under orders to ride into the crowds, and to shoot.

At 9:30 the groups of idle workmen had increased to such an extent that an order was given to clear the streets. The constabulary in squads of ten scattered the strikers. Little resistance was offered at the time, but when it was believed all was well, the troopers were showered with bricks. Several of the policemen were slightly hurt.

The number of injured as a result of the disorders late last night and today will total close to fifty. Several of the policemen were slightly hurt.

The number injured as a result of the disorders late last night and today will total close to fifty. Several men have bullet wounds, but the majority sustained hurts and cuts when the constabulary rode into the crowd. At one time, fully 10,000 men, women and children gathered at a large gate of the works. Stones were thrown into the stockade and then the foreigners opened fire upon the police inside. Suddenly the big gates swung back and twenty-five troopers, firing their carbines in the air, rode into the mob full speed. For awhile the air was full of the screams and curses of the strikers and their sympathizers, while the crack of the guns spread terror. The mob was driven a half mile from the plant and probably thirty persons were injured, some of them seriously.

It was learned today that fifty kegs of beer and a large quantity of whiskey was brought into the mill settlement during the night by the strikers, and today, squads of constabulary searched the district in an effort to locate it.

A monster mass meeting, attended by over 10,000 strikers and sympathizers, was held today on the historic Indian mound at McKees Rocks. The authorities maintained a strict watch over the meeting to prevent the making of speeches that might further excite the strikers.

Wheeling, W. Va., July 16.—At 12 o'clock last night the 1100 men of the tin plate workers, employed by the American Sheet & Tin Plate company, expired, and 500 men, employed at the local plant of the company, quit work because of an "open shop" order of the company.

CARELESSNESS COSTS MANY EVERY CHANCE TO WIN LAND

Spokane, July 16.—Five seconds of carelessness threatens to cost thousands of homeseekers every chance to win land on the three Indian reservations, for which the drawing occurs August 9.

Even an initial marked on the envelope, as sufficient cause for throwing it out of the drawing. So careful is the government to avoid distinguishing marks on the envelopes,
