CASHIER STOLE MANY THOUSANDS

Tipton, Ind., July 29.—William H. Marker, cashier of the First National bank, brother of Noah R. Marker, the missing assistant cashier, who is charged with the defalcation of more than \$100,000, has resigned.

William H. Marker was expected today to issue a statement of his attitude in the bank's management during the weeks preceding the simultaneous disappearance of Noah Marker and \$60,000 of the bank's cash last Saturday evening.

Many bad notes and checks are turning up in the progress of the examination of the affairs of the bank. This morning, bearing forged signatures of substantial citizens, \$21,000 of said, thousands of dollars abstracted from the bank's funds. It is not expected that the shortage will be less than \$110,000 and it may be much more.

It was learned today that before Noah Marker left the city he transferred a piece of property to a farmer and discounted the farmer's note for \$5,000. It is said he also borrowed money from many friends and that he was preparing for his departure for a week before he left the city.

WORLD'S CONFERENCE TO BE IN GERMANY

Barmen-Elberfeldt, Germany, July 29.—The world's conference of Young Men's Christian associations today was devoted to reports from all nations. That of the United States evoked the greatest enthusiasm. This report showed that there are 1,939 organizations, 416,000 members and \$50,000 Y. M. C. A. property in that country. The figures for the entire world are 7,823 organizations, \$21,000 members and \$60,000,000 in property.

The Kaiser telegraphed "the blessings of God on the conference. Work for the welfare of the rising generation."

Equator exports about 20,000 tons of vegetable ivory annually, of which Germany takes about one-half and the United States one-fourth.

INDUSTRIAL SCHOOL REPORT UNFAVORABLE

H. H. Thomas, Present Superintendent, Is Declared to Be Incompetent, But Committee Says He Has Been Honest and Conscientious in the Discharge of His Duties—Indiscriminate Use of Corporal Punishment Deemed as Criminal—Superintendent Should Be an Educator.

H. H. Thomas of the State Industrial school at Ogden must go, if the report of the special committee appointed by the governor to investigate charges against him means anything. It is construed to be decidedly unfavorable to Mr. Thomas.

The report, drafted by the four outside members of the investigating committee, was considered in detail by the board of trustees at a meeting in the governor's office, Thursday afternoon, and officially given to the public for the first time. The board deferred action, however, until another meeting can be held, which will probably be Monday, and while Governor Spry would make no statement Thursday, it is understood that he will ask the board to concur in the report and carry out its recommendations, as far as finances will permit.

The report, among other things, says that the committee is agreed that from time to time during Mr. Thomas' superintendency punishment meted out to unruly inmates has been severe and extreme, but it evades fixing definitely the responsibility for this, other than for the episode of July, 1908, and then goes on to lay part of the blame upon Assistant Superintendent Kneass. While the punishment in this case was extreme, it was neither wanton nor intentionally cruel, the report continues, but corporal punishment must be, and can be, effectively administered only by one skilled in the knowledge of human nature. "Indiscriminate use of corporal punishment is criminal," declares the report. It then proceeds to a criticism of Mr. Thomas.

"Superintendent Thomas has been honest and conscientious in the discharge of his duties as he has seen them, and through his efforts much work of a very commendable nature has been accomplished. We believe he has done all that any person without adequate preparation could do to promote the efficiency of the institution."

As to the charges of incompetency, the committee says that the minutes of the board of trustees show that numerous resolutions directed to Mr. Thomas looking to the improvement of conditions have not been carried out. "A strict adherence to the instructions would have made this investigation unnecessary," says the report.

The committee recommends better salaries for the superintendent and his assistant, with a separate cottage for each, and the utmost care in selecting employees for the school.

The question now is, who will be the next superintendent of the State Industrial school. The persons most talked of for the place are Judge Gow and of the juvenile court of Salt Lake, and Prof. S. H. Goodwin of Provo. Both are very excellent men and if either of them was to be selected it is very likely that the school would not suffer in the future.

Following is the report submitted by the committee to the governor: Hon. Wm. Spry, Governor of the State of Utah:

We, your committee, appointed by your excellency at the request of the board of trustees of the State Industrial school, to assist in investigating certain charges filed by citizens' committee against H. H. Thomas, superintendent, and the conduct of the industrial school, in general, beg leave to submit the following report. With the report we also submit a transcript of the evidence, given in full.

The investigation was conducted at the State Industrial school and covered a period of two weeks, beginning June 14, 1909, and terminated June 29, 1909, on which date arguments and brief were submitted by counsel for both sides. The citizens' committee preferring the charges against Supt. H. H. Thomas were represented by Attorney V. Gideon and A. W. Agee, and Mr. Thomas was represented by Attorney T. D. Johnson.

The following are the specific charges, to-wit:

1. That from the transcript it will be shown that the investigation took a much wider scope. It was desired to give the fullest latitude to the investigation, to enable your committee to become fully cognizant of conditions as they are and as they should be.

2. The committee is agreed in reporting that from time to time during Mr. Thomas' superintendency, punishment meted out to unruly inmates was extreme. The infraction of the rules and the nature of the offenses perpetrated may have occasioned such extreme punishment. As adduced by the testimony and other information in the specific charges of excessive cruelty in the episode of July, 1908, the punishment of the boys for their unmentionable crime against nature, was sanctioned by the superintendent and the governor of the state. In this connection it must be stated that the superintendent could not be held wholly responsible for an overt act committed, when the boys were in charge of the assistant superintendent. At no time, however, no matter what the nature of the offense might be, in which necessitates corporal punishment, should the limit of humane-ness be transcended. The superintendent evidenced a seeming lack of knowledge as to the best method of handling extreme cases. The extremity of punishment was neither wanton nor intentional. All will have to agree that the superintendent was actuated by motives which would lead to the performance of duties as he felt they were to be performed. The responsible position of the head of such an institution as the State Industrial school requires a man who is a competent expert of human nature. The need is manifest for one imbued with such knowledge. The growth and development of the institution investigated show the demand for one trained to handle the various types of inmates. To do otherwise will mean a disruption of discipline which may take much more time and energy to cope with than could be given by a board of trustees whose time and energies are given to the service of the state at large. Moral suasion, coupled with suitable form of punishment, administered by a capable ped-

agogue, one whose heart and thought are in the work, will be the means of preventing crime among the inmates, which crime necessitates excessive punishment.

The further charge against the superintendent was that he is manifestly incompetent to perform the responsible duties of his important position. Our investigation bears out such charge for the following reasons:

The minutes of the proceedings of the board of trustees show that numerous resolutions looking to improvement of existing conditions, and which were directed to the superintendent, were not carried out. Had the things thus ordered been done, it is more than likely that our investigation would have been unneeded. It is evident to the committee that there is need of special training on the part of one who would be the head of the State Industrial school. The qualifications for the office require both adaptation and efficiency. The superintendent must be an educator, especially skilled in handling the types of individuals who are temporarily detained in such an institution. It is our firm conviction that the superintendent should be selected with thought of public efficiency, and the good he can render the state.

In view of our investigation we recommend that the board of trustees, with the funds entrusted to them, charged with appointing a superintendent, pay him an adequate salary that will enable one imbued with high pedagogical principles and moral efficiency to seek such a position; that provision be made for the adequate housing in separate cottages, the superintendent and his family, and that out of his salary, the superintendent maintain himself and family without such maintenance being requisitioned from funds other than his salary.

Second. That employees of the institution be selected only with the utmost care. They, likewise, should be fitted for the work in hand. By character they must be exemplary. While the salaries paid at present are inadequate to secure efficient aid, it would be better, in the opinion of your committee, to reduce the number and increase the efficiency of the employees. By better salaries being paid them, a better class of employees can be secured.

We also recommend that when inmates are legitimately employed for work outside of the institution, the state should receive the benefit and the inmates should receive reasonable remuneration.

Furthermore, we commend the move looking toward as complete segregation of boys' and girls' cottages as is possible, and we recommend that, if feasible, as soon as possible, there be segregation of the boys as to the nature of offense for which they are detained and also as to their age limit.

We find that the buildings and grounds are in fairly good condition. The food administered the inmates is sufficient and wholesome. What defects were complained of in this line were not manifest to the committee, and if any at all, can readily be remedied at the direction of the board of trustees.

In our findings after painstaking investigation, we cannot exonerate Mr. Thomas, but we are bound to state in his behalf that he has performed his duties with more than apparent honesty. His handicap lay in lack of preparation for the work in hand, and while, during the years of his incumbency in office, improvement has been made, both physically and as to the morals of the institution, the institution has outgrown one of its ability.

The work for which we were appointed is, for the time being, completed. If we have rendered service we are satisfied, and this satisfaction will be our compensation.

PRETTY WEDDING TAKES PLACE AT THE PLYER HOME

A very pretty wedding took place at the home of Mr. and Mrs. Percy C. Plyer, 2871 Lincoln avenue, Thursday noon, when Mr. Chris Waechter and Miss Margaret Flannery became husband and wife.

The ring ceremony was performed by Rev. C. W. McCree, pastor of the First Methodist Episcopal church. The groom is a prominent business man of Rock Springs, Wyo., while the bride has held the position of head waitress at the Union Pacific hotel in that city. Following the wedding ceremony a bountiful dinner was served.

INCORPORATION ARTICLES FILED BY NEW COMPANY

The Brown Investment company, a new real estate concern, capitalized at \$4,000, divided into shares at 20 cents each, filed articles of incorporation yesterday. James A. Brown is president, Alice B. Heaton, vice president, Mary E. Hoyt, secretary and treasurer. The other directors are C. W. Brown, Shelley, Ida; W. Ernest Brown, Portland, Ore.; and Edna B. Bailey Salt Lake. The stock is paid for by the taking over of real estate in Salt Lake.

The Fillmore Fruit & Grain Lands

IS FATALLY INJURED WHEN RETURNING FROM LAZARUS

Evert Neuteboom of this city received a message from Salt Lake last evening stating that while Kerst Jan Nybasch was returning from Lazarus last night he fell from a car and was fatally injured.

The injured man was picked up unconscious and died after remaining in a comatose condition for two hours. The dead man was well known in Ogden, having friends and relatives here.

Nybasch was a native of Holland. He joined the Mormon church there in 1890, coming to this country in 1901. He is survived by a wife and two children, one son and one daughter.

The funeral will be held in the third ward meeting house in Salt Lake next Sunday.

HOMESICKNESS CAUSES HIM TO ATTEMPT SUICIDE

Somerset, July 29.—Homesickness is said to have prompted Private I. Bricker of the Eighteenth regiment, Pennsylvania National Guard, now in summer camp here, to attempt suicide last night by slashing his throat with a sharpened bayonet. Before the soldier could suffer much loss of blood, he was taken to the hospital and his wound dressed. It is said that Bricker has been acting queerly since last Sunday, when he was visited by relatives.

Efforts to steal the cornerstone of the old Methodist church in South Third street, Williamsburg, have caused a police detail to be stationed there day and night. The structure is being demolished to make way for a new building. A report has been current in the neighborhood for many years that when the cornerstone was laid in 1847, the trustees and members of the church deposited in it many valuable gold coins and articles which would be of great value now.

Various attempts have been made by unknown persons, mostly at night, to cut out the cornerstone.

LAYING OF L.D.S. CORNERSTONE

Last evening at 8 p. m., the cornerstone of the new Eighth ward L. D. S. chapel was placed in position. A platform was built on what is to be the first floor of the building, and chairs were placed for those who attended the ceremony. An arc light was hung over the cornerstone and one over the platform. The services were conducted by the ward bishop and Bishop James Taylor made a brief speech, and then yielded the trowel.

After the laying of the cornerstone a program was rendered and refreshments were served.

The State Industrial School band, the ward orchestra and the Misses Pauline and Julia Maddock delighted the congregation with a number of well rendered selections.

Bishop Taylor reports the work on the building progressing rapidly, the basement having been finished and he expects to conduct services in the new chapel by the end of next month.

G. A. R. COMMITTEE HOLDS MEETING

At a meeting of the G. A. R. encampment executive committee held at the Weber club last evening it was decided that the official train of the Dix Logan post, band and encampment officials will be run over the Oregon Short Line railroad. The special train will leave about eight o'clock on the morning of August 11 and return at midnight.

The Dix Logan post which will be escorted by the Conservatory band, will carry a large blue silk banner with the inscription, Dix Logan post Number three, Ogden, Utah, in large gold letters.

The decoration committee was authorized to decorate the city hall and city hall square, and Geo. H. Davis, chairman of the decorating committee, was given a free hand to do as he pleased and spend just as much as he cared to in order to have the decorations properly taken care of.

The committee will meet again next Wednesday night when all business connected with the encampment will be cleared up.

The Dix Logan post will meet next Tuesday night and complete arrangements for their part in the program.

PARK KEEPER ATTEMPTS TO SHOOT UP NEIGHBORHOOD

Yesterday afternoon one of the park keepers at Liberty park went on a rampage, and tried to shoot up the neighborhood with a gun that was not loaded. The fellow had been drinking heavily and became violently enraged at some imaginary grievance and commenced to do the deed.

After having terribly frightened the children of the neighborhood and having succeeded in putting the women in a state of hysteria, his brother made an attempt to quiet him down.

Seeing his brother coming he ran at him flourishing his gun and calling upon the gods. Upon reaching his brother he struck him with the gun and cut several deep gashes in his face, and followed by an attempt to shoot himself with the unloaded gun.

IRWIN BISHOP MEETS WITH PAINFUL ACCIDENT

Irwin Bishop, son of J. M. Bishop, residing at Grant and Thirtieth and employed by the Bishop-Child Grocery store, met with a painful, but not necessarily serious accident last evening at about 4 o'clock.

Young Bishop was driving a wagon loaded with empty boxes in front of his father's store, when one of the boxes slipped, throwing Bishop to the ground. Before he had time to get up, another box fell, striking the lad on the spine. He was picked up unconscious, and carried into the store. A physician was called in and after examining the boy stated that the spine had been severely bruised, but that no bones were broken.
