

Something New

An Outing, Hunting or Riding Suit. Made of the New FUSTIAN CLOTH.

FUSTIAN CLOTH

Does away with corduroy—is washable and warm enough.

To all sportsmen who want the most comfortable and slightly suit, we wish to extend an invitation to inspect this NEW ARRIVAL.

Riding Breeches, Too

The Toggery

"Of Course"

MADE IT A LIFE STUDY

DR. J. S. LEONHARDT FOUND THE CAUSE AND CURE OF PILES.

Dr. J. S. Leonhardt, the celebrated specialist of Lincoln, Neb., proved, after years of study, that the cause of piles is internal—bad circulation. Then he perfected Hem-Roid, an internal remedy, and in 1000 different cases it cured 98 per cent. By Dr. Leonhardt's order, Hem-Roid is sold under an iron-clad guarantee. If it fails, the money is paid back. \$1 at Badcock's Pharmacy, Ogden, Utah, or mailed by Dr. Leonhardt Co., Station B, Buffalo, N. Y. Write for booklet.

NOTICE OF INTENTION. Notice is hereby given by the City Council of Ogden City, Utah, of the intention of such Council to make the following improvements, to-wit:

To create Parry Avenue from Washington to Grant Avenue as a sidewalk district, and to build therein concrete sidewalks in the manner following, to-wit:

On both sides of Parry Avenue from Washington Avenue to Grant Avenue build a concrete sidewalk 4 inches thick and 4 feet in width.

The estimated cost of said improvements is \$1,200.00.

The boundaries of the district to be benefited and affected by said improvements are lines drawn 50 feet outward from and parallel to the outer boundary lines of said street for the whole length thereof from Washington Avenue to Grant Avenue.

For the payment of the costs and expenses of making said improvements, the City Council intends to levy and collect special and local taxes upon the lots, blocks, parts of lots and blocks, lands and real estate lying and being within the boundaries of the said district to the extent of the benefits to said property by reason of said improvements.

The City Council will, on Monday, the 25th day of October, 1909, at 8 o'clock p. m., in the City Council Chamber, City Hall, Ogden, Utah,

PEERY BROTHERS MILLING CO. Makers.

hear objections in writing from any and all persons interested in said local and special assessment. Ordered by the City Council September 27th, 1909. A. P. PARKER, City Engineer. First publication September 27, 1909. Last publication October 22, 1909.

CUTTING AFFRAY ON 25TH STREET

Charles Walters wandered into the police station last night and exhibited a large cut on his left cheek, which he had received in a fight at the M. and M. bar, on lower Twenty-fifth street. The cause of the trouble was not fully understood, but at any rate, after a few words there were blows and after the blows came the cutting. Walters was pretty well intoxicated when he arrived at the police station and could not tell a connected story. The cut on his face was about three inches long and a quarter of an inch deep. He had the cut pasted together by two strands of sticking plaster.

POWER FOR THE UTAH LIGHT

ENGINEER COHEN EXAMINING LOCAL PLANT OF COMPANY.

Will Not Be Long Until Power Is Being Generated in Weber Canyon.

C. A. Cohen of Salt Lake, managing engineer for the Utah Light & Railway company, was in the city today attending to business affairs connected with the company. Mr. Cohen has the supervision of all the power plants of the company. He visited the power plant at the mouth of Ogden canyon and made investigations in relation to the contemplated power house at the mouth of the Weber river. The large dam and the pipe line for the Weber canyon plant are about completed and Mr. Cohen states that within a short time the erection of the power house will be under way. When every thing is in readiness for the generation of electricity at the new plant, the company will have an additional power capacity of 5,000-horse power.

MANY BUILDINGS UNDER CONSTRUCTION IN OGDEN

The building activity of the city still continues brisk, even though the fall of the year is fast approaching. The building of residences and business houses through the summer has kept pace with that of previous years and it has made marked improvement in the city. Within the next ninety days C. L. Bacon expects to finish a \$1,000 dwelling on Arden avenue.

Josephine L. Hassell is erecting a \$700 residence on Thirtieth street between Madison and Jefferson avenues. Lillie Greenwell has arranged for the construction of a dwelling house on Twenty-first street between Madison and Jefferson avenues. The cost will be \$1,500.

REAL ESTATE TRANSFERS.

The following real estate transfers have been filed for record in the office of County Recorder Wallace: George R. Hurlbert and wife to John A. Adams, lots 1 to 32, inclusive, block 1, Lawndale addition to Ogden; lots 1 to 32, inclusive, block 2, Lawndale addition to Ogden. Consideration \$1.

Pearl Badger to Dean H. Brown, the west half of the northwest quarter of the northeast quarter of section 14, township 5, north of range 2. Consideration \$2,000.

Eliza Ann Ireland to Annie Badger, part of the northeast quarter of section 21, township 6, range 1 west. Consideration \$1,825.

Alda B. Bouman to Ralph Zonder-van, lots 12 and 13, block 4, South Park addition to Ogden.

SHIP SUBSIDY.

Seattle, Wash., Sept. 30.—President Taft in his address in the natural amphitheater at the world's fair today, came out flatfooted for a ship subsidy and said the country was now ready to try such a measure.

"There is no subject," said Mr. Taft, "to which congress can better devote its attention at the coming session."

Detroit Wins the Pennant.—Chicago today defeated Philadelphia in the American league. This gives the pennant to Detroit.

BRIGHT'S DISEASE

That chronic Bright's Disease is now being cured by treatment that reduces inflammation in the kidneys is beginning to be generally known.

We copy the following from the San Francisco Bulletin, June 23, 1908:

"The recovery is reported of Dr. Z. Lawton, of 264 Fifth Avenue, San Francisco. The case is especially interesting, due to the fact that books declare chronic Bright's Disease incurable and five city physicians had passed on and diagnosed the case. The usual symptoms found in extreme cases were reported: excessive drowsy, enlarged heart and towards the last the patient could only sleep sitting up, and for six weeks he slept in a chair. Lawton had a cousin, Mrs. W. E. Hoover of Auburn, who also had an advanced case of Bright's Disease. She had been tapped three times when she heard of Fulton's recovery. This interested Lawton in the treatment and it resulted in his recovery also. He is a Mason, member of Excelsior Lodge, and many members will recollect his serious predicament and that they thought they would be called on to pass him over."

Parties desiring to know more of this treatment can get full literature by addressing the John J. Fulton Company, 5910 San Pablo Avenue, Oakland, Cal.

Fulton's Renal Compound can be had in your city of our agent WM. DRIVER & SON DRUG CO.

We desire every patient to write us who is not getting the usual improvement by the third week.

DOLLY WILL REMAIN IN JAIL

CHARGED WITH ROBBING JOHN SCOTT OF \$125.

Her Bail Fixed at \$500, Which is Not Furnished—Two Pickpockets Bound Over.

The police court today had but little business to attend to. The officers state that never before in the history of the department has law and order been more strictly maintained. There seems to be no many offenders in the city, and the "undesirable" element is quite conspicuous by its absence.

K. Halbrook and Slim Collins pleaded guilty to the charge of drunkenness. The former was sentenced to five days in the city jail, and the latter, an old offender, was given ten days in the jail with no choice of paying a fine. The court remarked that it would require at least ten days for "Slim" to sober up.

George Riley, a half-breed Indian, was arraigned on the charge of petty larceny, to which he pleaded not guilty. The testimony given on the part of the state was to the effect that Riley, day before yesterday, came across a coat hanging in a tree, in the vicinity of Lincoln avenue and Twenty-fifth street, and he appropriated it to his own use. He sold it to a second-hand dealer for fifty cents. It turned out to be the coat of James Jones, who identified it in court.

Riley claims that he had a coat of his own at the place designated, and that while he was absent for a moment one must have got the coat mixed, and that he carried the other man's coat to the pawn shop. Riley exhibited a large philanthropic spirit before the court, when he stated that he was very anxious to make some one a present of his coat. He was prevented from doing this, however, because nobody who needed a coat happened along.

He was exceedingly sorry that he had not been privileged to give the coat away, and he was very positive that the coat marked "exhibit A" in the court room, and which he sold to the pawn broker, had been "slipped" to him in some unaccountable way.

He was surprised when placed under arrest for stealing that which he thought all the time to be his own property.

The court held the matter over until tomorrow morning, pending further investigation.

E. S. Hall pleaded guilty of violating the bicycle ordinance and was fined \$5.

Dolly Wade was arraigned on the charge of grand larceny. The complaint filed against her by Captain C. C. Brown charged her with stealing from one John Scott the sum of \$125 in gold and silver. The defendant's bail was fixed at \$500 to warrant her appearance in court at the time of the preliminary hearing, which will be set for some future date. Not having the \$500, Dolly was taken back to jail.

Charles Wilson and J. L. Morris were given a preliminary hearing on the charge of attempting to commit the crime of grand larceny, by placing their hands in the pockets of one A. P. Jerrell, September 26, and attempting to extract therefrom whatever valuables or cash could be found. Fortunately for Jerrell, he had no money on his person. The men were bound over to await the action of the district court.

MOORS CONTINUE TO RESIST SPAIN

Melilla, Sept. 30.—While the population of the Melilla garrison was still rejoicing today over the capture of Mount Guruga, the Moorish stronghold, fighting was recommenced on the summit of the mountain. The Spanish post there was attacked by Moors, but the tribesmen were easily repulsed. The Spanish loss was two wounded. The Moors were made prisoners. Simultaneously Beni-Bulfar tribesmen appeared in large numbers on the neighboring heights, but disappeared again under the rain of shell, and machine gun fire.

To Be a Doctor.—Geo. G. Moves departed Tuesday to resume his medical studies in Northwestern University, Chicago.

WHEAT ADVANCES FOURTEEN CENTS.

Chicago, Sept. 30.—September wheat which, aside from occasional nervousness, has seemed to be doing a natural death, jumped suddenly into sensational prominence during the last half hour of business on the board of trade today, advancing by leaps and bounds 14 cents over yesterday's close to \$1.20.

DEATH OF W. E. MARSH.

San Francisco, Sept. 30.—W. E. Marsh, the Southern Pacific engineer, who died in the city early today, had been in the latter institution nearly a month. An operation for appendicitis was performed on September 4 and another was necessary on September 29 for an abscess of the liver.

BOSTON DEFEATS DETROIT.

Boston, Sept. 30.—Scores: Boston, 9; Detroit, 7. Wood and Danohue; Mullin and Schmidt.

WANT ADS BRING BIG RESULTS

MORAN WILL BLOCK ALL TRAFFIC

IF HE DOES NOT BEGIN HIS WORK.

O'Neill Delayed in His Concreting by the Failure of the Asphalt Gang to Arrive.

The concreting of the west side of Lincoln avenue, between Twenty-fourth and Twenty-fifth streets, was completed at noon today, and the concrete workers were transferred to the west side of Wall avenue at Twenty-sixth street, where the work of laying concrete will be begun. After laying the concrete on this avenue, the force of men and teams will be removed to Washington avenue for operations there.

Contractor O'Neill states that, unless the Moran asphalt workers begin operations at an early period, his forces are going to be retarded. He says he cannot lay the concrete on the south side of Twenty-fourth street between Lincoln and Wall avenues, until the north side is covered with asphalt. The traffic there is so excessive that serious exception is taken to closing both sides of the street at the same time. The street in this locality, where it has not been concreted, is very heavy because of the water from the rain and otherwise that has flooded into the lower places of the street and hauling is difficult.

CHRISTIAN SCIENCE REPLY

Salt Lake City, Utah, Sept. 25, 1909. To the Editor Standard: Sept. 20.

The Standard contained a somewhat ludicrous criticism of Christian Science by Rev. Noble Strong Elderkin, pastor of the Congregational church of Ogden, which you say the pastor chose for his regular Sunday evening "Editorial" and read before the congregation. This criticism did not come to us until this morning or we should have answered it sooner.

The reverend gentleman says he attended a Christian Science Wednesday evening testimonial meeting in the Second Church of Christ Scientist of Kansas City, Aug. 18; that the congregation consisted of from one thousand to fifteen hundred "cultured and cultivated persons from the boulevards of the fashionable South side," and closes his first paragraph with the ungenerous statement of very doubtful wisdom, as follows: "I suppose that I should rejoice that any form of religion applied to the 'cultured and cultivated' people of the gospel to ridicule 'cultured and cultivated people' when they, too, seek safety and redemption at the mercy seat. And is it Christian charity to condemn seekers of the kingdom of heaven for their possession of any wealth?"

It is becoming to a minister of the gospel to ridicule "cultured and cultivated people" when they, too, seek safety and redemption at the mercy seat. And is it Christian charity to condemn seekers of the kingdom of heaven for their possession of any wealth? Do you find them in the penitentiaries, in the police courts (except when they are arrested for healing or trying to heal the sick)? Do you find them enticing friends and acquaintances or any one else to enter into these institutions of vice and evil? If you do, then that is the attitude of Christian Science towards these burning evils, just look to the lives of Christian Scientists. They will tell you unmistakably what it is, and better than any written statement. I must write to Boston and find out. If you want to know what the attitude of Christian Science is towards these burning evils, just look to the lives of Christian Scientists. They will tell you unmistakably what it is, and better than any written statement.

How easy it is to write "Once I traveled along Twenty-fifth street with a leading Christian Scientist, prey upon the weaknesses of human life. And I said Mr. Blank, what is the attitude of Christian Science towards the burning evils of our day?" And he replied "I really don't know, I must write to Boston and find out."

While Christian Science as a denomination does not have institutional charities (much of which is of doubtful value according to the best authorities on the subject and those with the largest experience), they do in their practice give much time and money to the deserving poor who come to them for aid.

They are also quick to make large donations to sufferers by fire, flood, famine and earthquakes, as is well known. Mrs. Eddy has set an example by giving many thousands of dollars for charitable purposes, good roads and other improvements. Only last Thursday the Salt Lake Daily Telegram carried the following dispatch: "New York, Sept. 23.—Mrs. Mary Baker G. Eddy has sent to the New York Museum of Safety and Sanitation her check for \$50,000. Mrs. Eddy stated that she did so in appreciation of the philanthropic efforts of the museum in the introduction of safety devices to minimize the accidents due to railway travel and the use of machinery."

In his closing paragraph the Rev. Gentleman expresses the wish that Mr. Leonard, who was to give a lecture the following evening on Christian Science in the Weber Stake academy "would assure us that the great Christian Science church is not like the rest of us in Utah—utterly centered on self." Mr. Leonard did give his lecture and spoke plainly. But we failed to hear from his lips any such uncharitable and unwelcome comparisons as our critic declared he hoped to hear and I am glad of it.

Are we not all brethren? Then why should we ridicule and belittle each other's efforts to praise God and for voicing gratitude for healing as well as for other blessings? Shakespeare says, "Comparisons are odious."

In conclusion allow me to say—It is frequently remarked, especially in the cities, and that too as a criticism, that the habitual large audiences, on account of their dress and appearance, must have come from the cultured and cultivated classes of the fashionable districts, and that the poor and needy are not much in evidence.

We can only say to this criticism, that Christian Science does not proselytize—it grows by attraction—and its followers are attracted from the east and the west, from the north and the south of society, i. e. from all places and from all classes, and this manifestation of peace, comfort, prosperity and even luxury, if you please, is but the fulfillment of the promise of heaven in all ways which Christian

emphatic purpose of Christian Science is the healing of sin. How easy it is to write "Once I traveled along Twenty-fifth street with a leading Christian Scientist, prey upon the weaknesses of human life. And I said Mr. Blank, what is the attitude of Christian Science towards the burning evils of our day?" And he replied "I really don't know, I must write to Boston and find out."
