Arrangements have been made by William Allison, Mgr. of the new Ogden Theater, with Supt. Bailey to have all cars stop directly in front of the theater for all performances.

Before buying your dishes, drop in at E. A. OLSEN'S. Examine our stock and compare our prices. We are closing out.

Folder on Yellowstone—Announcement was made at the general offices of the Oregon Short Line railroad Tuesday that about the first of next May that road will issue an elaborate booklet on Yellowstone National Park, which will surpass anything of its kind ever turned out by a railroad in this section of the country. The brochure will contain forty-eight pages, and will be printed on beautiful unlined paper. The general style of the book will be similar to the beautiful pamphlet issued by the Short Line about two months ago, entitled, "Scenic Idaho." The new book will contain beautiful colored pictures of the various geysers at the park and the other scenic attractions. The book will be issued at a great expense to the railroad.

The seat sale for "Commencement Days," the opening bill for the new Ogden Theater, begins tomorrow morning at 9 a. m. at Culley Drug Store.

Buy your Christmas Chinaware at E. A. OLSEN'S. He's closing at an enormous reduction.

Cup for Live Stock Show—Secretary Jesse Richards of the Wool Growers' convention is in receipt of telegram from Thomas Keogh in Chicago announcing that the Oxford association will offer a \$50 cup, to be awarded at the livestock show to be held in connection with the convention. Mr. Keogh states also that many of those

who attended the livestock show in that city during the past two weeks have announced that they will attend the convention in Ogden.

War on Tuberculosis by Modern Woodmen

Utah Camp No. 9990. This City. Contributes to the G. & C. Work.

The Modern Woodmen of America, the largest fraternal beneficial society in the world, with a membership of a million and a quarter, is waging a warfare against tuberculosis or consumption, which is attracting the attention and admiration of medical men and scientists throughout the civilized world.

Notwithstanding the most rigid examination of applicants for membership, the officers of the society found that this dread disease was the cause of the death of many of its members, and therefore, decided to establish a sanitarium at Colorado Springs, and, for that purpose, bought what was known as the "Amber Ranch," containing 1,200 acres of land. On this land has been erected numerous buildings for dining hall, kitchen, superintendent's office, medical headquarters, laboratory, nurses' cottages, baths, etc., and many "cottage tents" for the use of the patients.

The sanitarium was opened January 1, 1929, and up to that time there had been expended \$84,608.29, of which \$65,198.18 had been voluntarily contributed by members and local camps. Any beneficial member of the Modern Woodmen of America, afflicted with the "great white plague," may enter this sanitarium and receive free care and treatment. During the eleven months that the sanitarium has been open, the results have been marvelous and have attracted world-wide attention.

Recognizing the great beneficence of this movement, Utah Camp No. 9990, of this city, has just donated \$250 for the purchase and erection of a cottage tent on the grounds, and \$10 for administration purposes, to help defray the general expenses of the sanitarium.

While some of the strong camps in the east have donated tents heretofore, the local camp in this city is the first in this section of the country to make such a donation, and, for this reason, Judge Apce, consul of the camp, over which he has presided during the year which will close with this month, is highly gratified at being able, before the close of his term, to place in the hands of the proper officers, a draft for the sums thus donated, and is especially proud of the fact that the members of the camp have most cheerfully contributed to this great work.

Rain and Snow—A wet snow and rain have been falling in the city and immediate vicinity during the major portion of the day. The thermometer has been so high that nearly all the snow of yesterday was melted and is coursing its way down the gutters and ditches of the streets. The temperature has ranged from 33 to 35 degrees above zero all day. It is reported that even in the upper valleys and at higher altitudes, rain has been falling and that the rivers and smaller streams have risen considerably in the last ten hours. On the mountains, though, it has been snowing since yesterday afternoon.

TESTING THE COW FOR TUBERCULOSIS

Government Officer and Assistants Arrive in Ogden and Commence the Application of the Tuberculin Test on All Dairy Animals in Weber County.

Dr. S. D. Brimhall of the department of agriculture is in Ogden for the beginning of a crusade against dairy cattle afflicted with tuberculosis. He represents the United States government, but is co-operating with the state and local authorities in the fight against that most destructive of all diseases, commonly called consumption.

Commencing tomorrow morning, Dr. Brimhall and two assistants will start south of Ogden, and before they finish with their work, they shall have applied the tuberculin test on every dairy cow in this area of Ogden Valley, giving immediate attention to all animals supplying milk to the people of Ogden. Cows found to be afflicted will be killed and their bodies destroyed by quicklime.

So far, in his work in this state, the government official has found less than five per cent of the animals tested to be diseased. This is a remarkable

ably good showing, compared with some sections further east, where as high as 50 per cent of the animals have had to be condemned.

Dr. Brimhall is making his headquarters in the office of Sanitary Inspector Shorten, and the local officer assisting in this commendable labor of purification.

The tuberculin which is injected in the cows, is supplied by the government, its quality being guaranteed. After the test is applied, the temperature of the animal is carefully noted for several hours, a certain fluctuation indicating unmistakably the presence of the disease, while animals free from the germs of tuberculosis show no reaction. In this manner the government officials determine whether the dairy cow shall be condemned or declared healthy and fit to continue yielding milk for the babies and others of Ogden and surrounding country.

The progress of the investigation will be watched with much interest.

STRANGER IS QUARREL IS STRUCK BY ENGINE ENDED BY MURDER

LEFT ARM CUT OFF AND HEAD BADLY BRUISED.

JAP USES A BUTCHER KNIFE ON A COUNTRYMAN.

Arthur Connolly of New York City Victim of an Accident Near the Round House at Wells.

Men Had Fought With Their Fists Before the Murderer's Weapon Was Wielded.

At Wells, Nevada, this morning shortly before 2 o'clock, while a helper engine was backing into a round house, Arthur Connolly, a transient, was run over and his left arm cut off at the shoulder and his head badly bruised. The man was taken to the railroad hospital at Elko, where he was attended by the company surgeon. His condition is reported as serious.

Helper Engine No. 2639 was returning to the roundhouse after having been in the coal chute, in charge of an engineer and fireman as well as a switchman. Connolly, who was evidently going to the round house to get warm, did not see the engine, was struck and fell beneath the wheels. As soon as the accident was discovered Connolly was taken to the railroad depot where he was given temporary relief and then placed on train 5 for Elko.

He gave his address as No. 263 East Sixty-ninth street, New York city, where he said relatives reside.

During a quarrel, Tuesday evening, at Inlay, Nevada, in a bunk car of the Southern Pacific, between two Japanese employes, one stabbed the other to death with a butcher knife. The quarrel was the result of a long-standing hatred between the Japs.

The men started to fight with their fists when they returned to their car shortly before 9 o'clock. One was getting badly beaten when he rushed to a bunk, secured a large dagger or butcher knife, and plunged it into his adversary's breast a number of times. The wounded Jap died before medical relief could be secured.

The body of the dead man was turned over to the county authorities and his slayer was taken by the town constable to Winnemucca where he is safe from the hands of countrymen who were desirous of avenging the death of their companion.

Both of the Japanese were members of an extra gang that has been working in the railroad yards at Inlay for the past month.

WILL RUSH WORK ON THE "ELY ROUTE"

Construction of Goldfield Extension of Tonopah & Tidewater to Be Begun.

According to information received in Salt Lake City Wednesday, construction work on the Ely-Goldfield railroad is to be begun at once and carried on through the winter. The route will be over the survey made last summer from east of Ely, through Robinson canyon, with a tunnel at that place. From there the line runs over the Gironx backbone to White river, then along Curran creek and Railroad valley to Goldfield. On the Ely end the first twenty-five miles will require an outlay of about \$100,000, as the country is rough and heavy work will have to be done.

Announcement is made that the road will be officially designated as the "Ely road." The road is really the Goldfield extension of the Tonopah & Tidewater, which, it is understood, is largely controlled by the Atchison, Topela & Santa Fe, connecting with the latter road at Ludlow, Cal. Hence it is said that the Santa Fe may be at the back of the new road.

Peculiar Divorce Case—A motion to set aside the interlocutory decree and to dismiss the action in the case of George W. Umbenhaur against Lulu D. Umbenhaur has been filed with the clerk of the district court by Mrs. Umbenhaur's attorney. The case is one in which Geo. W. Umbenhaur secured a divorce some months ago after affidavits had been filed claiming his wife had deserted him and that she could be located in Chicago, where he supposed her to be. About a month ago, Mrs. Umbenhaur filed an affidavit alleging that she had not deserted her husband but had been residing with her mother in Michigan and that she was never served with notice of the action for a divorce, and asking that the court reconsider or set aside the decree.

But when it comes right down to tacks and nails, would you be willing to trade Aldrich and Cannon for the rest of Congress?

WARSHIPS AT CORINTO

Four of Them Are Flying American Flag

New Orleans, Dec. 9.—A cable to the Nicaragua from Panama says: "Death to Americans." is the order issued to the army by President Zelaya.

Positive information was received here today that more than a month ago Zelaya issued instructions to his military commanders to shoot every American caught fighting in the army of the revolutionists. Some of Zelaya's military officers protested against the order and warned him that trouble with the United States would result.

The gunboat Vicksburg, which has been stationed at Corinto ever since the Nicaraguan trouble assumed an acute stage, has been reinforced, and there are now four warships in the Corinto harbor. The Vicksburg needs coal, and now that reinforcements have reached Corinto, she will probably go to Panama and replenish her fuel supply.

Washington, Dec. 6.—The cruiser Tacoma is today returning from Cristobal to Port Limon, Costa Rica, according to advices received at the navy department. The Tacoma spent only a few hours at the canal zone port.

Her arrival at Cristobal is unexpected at the navy department. She goes back to Port Limon to join the Marietta and Des Moines in waiting for any demands which may be made on them for the protection of American life and property in Nicaragua.

Washington, Dec. 9.—The statement telegraphed from Nicaragua to London that the United States had demanded the resignation of President Zelaya, and that he had indicated his purpose to retire by the end of the present month, is declared by the state department to be without foundation.

The story from Panama, via New Orleans, that some time ago Zelaya had issued an order that all Americans captured while serving with the revolutionary army should be put to death, is discredited here. The officials do not believe President Zelaya would thus court his own undoing and the certain overthrow of his government.

Developments in Nicaragua are awaited with great interest by officials here, for it is not doubted that within the next few days or a week at the farthest, a crisis will be reached which will seal the fate of the Zelayan government.

BOARD SUSPECTS FINN OF BEING LEPROSY VICTIM

Lansing, Mich., Dec. 8.—A case of suspected leprosy came to the attention of Secretary Shumway of the state board of health in a report from Dr. A. S. Warthin, of the University of Michigan. Dr. Warthin said Stanislaw Szurza, a Finn, who resides with his wife and family of seven children at Calumet, Michigan, presents all the characteristics of the disease. The man came from Alaska five years ago.

Burglary is Charged—District Attorney Harris filed with the clerk of the district court this afternoon an information charging Charles Riley, Charles Jennings and J. Riley with the crime of burglary in each case. It is the complaint in each case is H. H. Cardon, special officer of the Harriman lines, who charges the men with having burglarized a freight car on the 10th day of November of this year. The men will be arraigned in the district court tomorrow.

Dividends Declared—The directors of the Pingree National bank have declared a dividend of three per cent payable December 12, and a second payable dividend of three per cent, payable December 31, making a total of 6 per cent in dividends for the year.

Not all of the geese in the dining room will be on the table when Christmas dinner is served.

Seattle, Wash., Dec. 9.—Charged with insubordination, agitation, disorderly conduct and disrespect to superiors, H. M. Wells has been dismissed as a mailing clerk in the local postoffice by an order from Washington, D. C. The alleged violation of the regulations of the postoffice department were committed through the publication in the Bunday Recorder, the monthly publication of the Postoffice Clerks' union, of which Wells is the editor, of several articles written by him in criticism of the postal rules.

These articles, it is charged, tended to incite disrespect for the postal officials and discontent among employees. The order of former President Roosevelt, which prohibits postal clerks from becoming conspicuous by the expression of their political and religious opinions, was also criticized by Wells.

Looking down the muzzles of two revolvers which appeared as big as thirteen-inch guns, Ray Belnap was compelled to hold up his hands while two highwaymen went through his pockets last night shortly after 12 o'clock and robbed him of \$15 and a Colt's automatic revolver.

Belnap was on his way to Marietta for some young people who had been attending a dance there and whom he intended to bring back to Ogden in his cutter. As he reached the West Twelfth street crossing over the Oregon Short Line tracks he saw a dark figure crouching on one side of the railroad track. The figure suddenly sprang in front of the horse's head and with his revolver leveled on young Belnap ordered him to throw up his hands. Instead of complying with this demand Belnap reached for his Colt's automatic in his hip pocket. Before he could draw the weapon another highwayman who up to this time had not been seen stepped from the other side of the vehicle and in gruff tones ordered Belnap to stick up his hands.

Seeing that the men had the drop on him, Belnap held up his hands while one of the highwaymen kept him covered and the other went through his pockets taking his money and revolver. With a vicious blow on the side of his head with his clenched fist, one of the thugs then ordered him to drive on.
