

A straight, honest, healthful cream of tartar baking powder. Made from Grapes. Contains not a grain of injurious ingredient. Dr. PRICE'S CREAM BAKING POWDER. Fifty Years the Standard. No Alum. No Lime Phosphate.

FOURTH OF JULY MEETING CALLED

Citizens of Ogden Invited to Meet at City Hall on Next Tuesday Evening to Arrange for a Celebration of Nation's Birthday.

A meeting of the citizens of Ogden is hereby called for 8 o'clock P. M., sharp, in the City Council chamber, May 24th, 1910, for the purpose of considering the advisability of celebrating in a fitting manner the nation's birthday.

SALT LAKE AND STATE NEWS

REAL BOOM DUE JARBIDGE SOON

High-Grade Shipments Within the Next Six Months Will Open All Eyes.

Salt Lake, May 24.—It is my belief that within six months you are going to see a boom at Jarbidge along the lines of the Cripple Creek and Goldfield booms, for by that time the shipments of high-grade gold ore will attract the attention of the world to this new mining district of Nevada.

DOUBLE TRACKING S. P. WEST SLOPE OF SIERRAS. An interesting piece of work is being pushed by the Southern Pacific on the western slope of the Sierra Nevada range, where the line drops down to the valley of the Sacramento.

NOTICE. There will be a meeting of the members of the German Evangelical St. Paul's church at the Swedish Lutheran church, corner 23rd street and Jefferson avenue, on Sunday, June 5th, at 11 o'clock a. m., for the purpose of authorizing the Trustees to dispose of lots 11 and 15 in Block one (1) Herriman's Addition in the City of Ogden, Utah.

READ THE CLASS ADS TODAY. Lest you-tire of these two words "Gas" and "Electricity," which I have woven into fable, fiction and story, I must give you something more substantial relating to the past, present and future of these two of Nature's most wonderful and changeable forces.

TO READERS OF MY ADVERTISEMENTS. This big revolving mass upon which we live and enjoy our short span in the endless career of Eternity was no doubt once a magnificent globe of luminous gas, and it is possible that electrical energy acting upon matter produced the gases composing our present world.

Instructions. Always open the oven door when lighting the ovens. Open the valve, then strike match and light burner, then it will not pop. Open the sliding shutter near the valve to give the burner more air to make the flame blue. If the flame is white, it needs more air.

brating in a fitting manner the nation's birthday. All citizens are invited to be present. (Signed) WILLIAM GLASSMANN, Mayor.

marry her, she was tempted and fell. Time and time again she insisted upon her marriage with Sprague, but he always put her off. He was arrested in January, and for two months the girl has been held here by the United States authorities as a witness in the counterfeiting charge against her lover, so called.

DRUG HABIT LEADS TO SERIOUS CRIME. Salt Lake, May 24.—E. Dale Stapleton, a former employe of the Seeling Salt Lake City Car company, and who is on trial in the United States district court, before Judge John A. Marshall and a jury, charged with having forged a money order for \$100, will make the defense that he was insane when he committed the crime.

LOWER MAMMOTH SINKS ON OAR. The conditions at the Lower Mammoth for a substantial ore body making at practically any foot of development work are ideal. The formation is such that we ought to open a big hole soon, said E. G. Coffin, superintendent of the company, who came in from Tintic, Monday morning.

AT THE THEATRES

MAY ROBSON BETTER THAN EVER.

Those who had the good fortune to witness May Robson in "The Rejuvenation of Aunt Mary," at the Grand Opera House in Ogden two years ago this August, were unanimous in their praise of that wonderful little woman's interpretation of a splendid New England character. It was claimed at the time that a more perfect portrayal of the role could not be given. But one, after seeing Miss Robson at the Ogden theater last night in the same role, would have to say that she is better than ever. It is not May Robson one now sees, but Aunt Mary, possessing a wonderful charm and a lovable disposition that appeals.

The character of Aunt Mary is seen in the every-day walk of life in America, yet it is new to the stage. While one sits and watches Miss Robson delineate the character, with original mannerisms and reading the lines with a beautiful and sweet voice, it makes one think of the great power there is in a play toward finding out the beautiful side of life. Miss Robson is great.

Miss Robson has a company of the most talented and clever people that has been seen in Ogden with any attraction during the past season. Every member is a star.

Jack Storey as Jack Watkins, Jr., Aunt Mary's nephew, is splendid. He is versatile. Besides reading his lines well, he is a pianist as well as vocalist and is entertaining.

Paul Decker, as Mitchell, is pleasing. He, together with Arthur Deering, are made the typical chums of Jack.

Faye Cusick as Betty is far above the average. Her portrayal of "the girl" was perfect.

John McMahon, Harry Crowley, George F. Hall, Lester Wallace, Harry Jones, Nina Saville, Grace Morse, Lotia Blake and Rosa Fantuzz were good in their respective roles.

The production is beautifully staged with every effect being carried out in detail. The piece will be repeated again this evening, when it is probable that it will be greeted by a crowded house. It is one of those shows that the oftener one sees it the more he likes it. It is a comedy that is comedy and should be seen to be appreciated.—E. T. S.

HOGS AND VEAL

We are paying for fat hogs as follows: Hogs, from 200 lbs. and up, per 100 lbs. \$3.00. Hogs, from 160 to 200 lbs., per 100 lbs. 8.75. Hogs, from 125 to 160 lbs., per 100 lbs. 8.00.

We receive hogs daily. Anybody who prefers dressed weight on hogs may bring them in on Tuesdays or Fridays, between 7:30 and 10 a. m. We will then slaughter them while you wait, and pay \$12.00 per 100 lbs. dressed. At either of these days you may choose whether you want the live weight price or 12.00 dressed.

We pay for fat veals from 70 to 125 lbs. dressed weight 11 cents per lb., and receive them daily. You may bring them in either live or dressed.

Access to our plant is now convenient since the construction of the viaduct. OGDEN PACKING & PROVISION CO.

PLAIN CITY LOSES A PIONEER

Plain City, May 24.—Funeral services for James Stewart were held at the ward meeting house last Saturday afternoon. The attendance was large, many relatives from Salt Lake City, Ogden, Warren, Logan, Prossion and Blackfoot being present.

Deceased was one of the pioneers of Utah. When sixteen years old he came to Salt Lake City from Glasgow, Scotland, only seven years behind Brigham Young and his party.

The Tintic district, states Mr. Coffin, is looking better than ever. In spite of the lack of news from operating properties there are many producers emphasizing their existence with fine ore at depth, like the old Mammoth property. On the 2,150-foot level as reported, there is some very good gold ore being opened, and this grade of rock will aid materially in swelling the Mammoth treasury for the when dividend payments will be resumed. Mr. Coffin points to the weekly ore shipments from the camp as the best evidence of prosperity.

SALVATION ARMY OFFICERS UNITED.

Salt Lake, May 24.—Captain Albert E. Chesham and Captain Julia Williams were married Monday evening in the Salvation Army barracks in the presence of all the Salt Lake followers and a number of outsiders. Colonel W. J. Jenkins delivered a short sermon, after which he performed the ceremony. Captain Williams was attended by Ensign Pitt, and Captain Chesham by Major White. After the ceremony Miss Ella Hansen and Miss Harkner sang a solo; Ensign Pitt sang and accompanied herself on the guitar. Major Watts of Butte, Mont., next spoke, after which Major Waite of Denver gave a pleasing talk. Captain Chesham delivered a short address, after which Mrs. Chesham rendered a solo and gave a short talk.

The happy couple will have a two weeks' honeymoon. The bride wore her usual uniform, the only additional ornament being a broad white silk drape thrown across the shoulder. She carried a bouquet of white roses. Ensign Pitt carried white carnations.

Colonel W. J. Jenkins suggested that the ladies donate a little money as a wedding gift to the young couple. A snug sum was contributed in this manner.

but for the last twenty-five years he has resided at Plain City, where he died on May 19. For many years Mr. Stewart was singularly and distressingly afflicted, being totally deaf and partly blind.

League fans of Huntsville and Plain City met on the diamond here last Saturday afternoon. A great crowd of enthusiastic patrons of the sport witnessed the game. The score was 7 to 10 in favor of Plain City.

"Tuley" Poulsen, the ball player, is back from Salt Lake, where he has been for the last two or three months. "Tuley" says the capital is growing some, or rather it was while he was there; but how that burg will fare now that "Tuley" has left it—but, how vain is speculation!

"Bob" Bates has met the fate of the prophet in his own country. Weeks ago he predicted rain "when the comet turns its tail," and "Bob" is watermaster on the extension of the North Range lateral of the Plain City irrigation system in the county of Weber, state of Utah, U. S. A.

Some days ago, "Bill" Miller blew in from Canada, whither he had gone in the early spring-time of the year. "Bill" is doing what he can to discourage the man who finds temptation in the beck of the Northland. He says there is nothing there but "roamin' in' (rolling) hills," and now "Bill's" acquaintances are wondering as to what brand of "snake bite" the wayfarer provided himself when he invaded the Dominion. They themselves are not wholly unacquainted with a number of brands which they hold responsible for heaving sidewalks and reeling buildings, but "roamin' hills" "Yet, some of 'em are making it," reluctantly admits the wanderer. There is the case of Ralph B. Robson. Twenty-five years ago Ralph was running a threshing machine in Plain City; now he is a Mormon bishop in the land of wheat and "roamin' hills."

Billy Harrison is still preaching Socialism, and bids the world keep its eye on Milwaukee. The things that have made Milwaukee famous long since found favor in the sight of Billy.

DOUBT DISAPPEARS. Back Can Ignore This Double Proof. Does your back ever ache? Have you suspected your kidneys? Backache is kidney ache. With it comes dizzy spells, Sleepless nights, tired, run days, Distressing urinary disorders. Cure the kidneys to cure it all. Doan's Kidney Pills bring quick relief.

Bring thorough, lasting cures. You have read Ogden proof. Read now the Ogden sequel. Renewed testimony: tested by time. Mrs. Sine Larsen, 573 27th St., Ogden, Utah, says: "My experience with Doan's Kidney Pills proved them to be a remedy of great value. I procured my supply from Badcock's Pharmacy, and less than the contents of one box convinced me of their curative powers. I personally know several other people who have used Doan's Kidney Pills with good results. I gladly recommend this remedy to all persons in need of a kidney cure." (From statement given July 25, 1906.)

Mrs. Larson was interviewed on July 29, 1909, and said: "You may continue to publish my former endorsement of Doan's Kidney Pills. I still hold this remedy in high esteem." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

MINERAL PAINT ROCK IS WANTED

Parties having mineral claims containing any kind of paint are requested to leave samples of their rock at the Standard office or at the Ogden Paint factory for analysis. All kinds of mineral paints are wanted. Immediate attention to this matter may be of value to all persons having mineral claims which are good for paint purposes.

CAMELS AND DROMEDARIES

Campbell Brothers Great Consolidated Shows that will exhibit here on Friday, June 3rd, carry the largest herd of Camels and Dromedaries of any show on the road. Few people know the difference between the Camel and the Dromedary, so that a description of these animals will be of interest.

The real Camel possesses two humps, while the Dromedary has but one; the camel is the larger of the two, and is capable of carrying the heavier burden. The Camel inhabits a dry hot soil, and can carry a burden of 3,000 pounds, 12 miles a day. The Camel is forced to kneel while being loaded, and when overloaded,

will make a plaintiff cry, and refuse to rise until part of the load is removed. The Camel's knees are covered with a heavy callous substance for protection while kneeling to relieve his burden. Nature has given the Camel a fifth stomach, or reservoir that is capable of holding several gallons of water; this water can be carried for a long time, and in case of need, can, by the action of the muscles, be utilized to dilute the dry food.

When the Camel becomes vicious he is very dangerous, their chief mode of warfare being to bite, and when they once get a good hold, they are very tenacious, and oftentimes their jaws have to be pried open with an iron bar. It will pay you to see these animals when you visit the menagerie of Campbell Brothers Great Consolidated Show, when they exhibit here on Friday, June 3rd.

FOR WORLDWIDE PEACE MOVEMENT. London, May 24.—A proposal to inaugurate a world-wide peace movement, bearing the name of the late King Edward, was made by Sir Wm. C. Mather at a meeting of the peace society today.

The suggestion met with prompt approval and speakers estimated that there was reason for the belief that Emperor William was desirous of taking an important part, if not the actual leadership, on promoting a peace league of the world.
