**Whittier's Good Wishes.**  
A young woman once sat at a boarding house table beside a reserved and awkward country boy whom she delighted to tease. When she left she asked him to write in her autograph album. The poem which John G. Whittier wrote there stands as a warning to other young ladies that she who laughs first at a seemingly dumb countryman may be herself laughed at many years later. The quaint concluding stanza is:

Thy life—may nothing vex it—  
Thy years be not a few,  
And at thy final exit  
May the devil miss his due.

**Water.**  
In consideration of the very important fact that three-fourths of the principal constituents of the body is water and that it is far more essential than food, how little heed is paid to the matter of its consumption and purity by the average person. One to two quarts of pure, cool water should be consumed daily by every one. "Eight full glasses of water daily should be taken throughout the day between meals," was the advice given by a noted physician in a lecture on dietetics.

## RHEUMATISM

**COMMON IN SUMMER**  
The time to get rid of Rheumatism is in Summer while the blood is endeavoring to purge itself of all poisons and impurities, and the skin is active, with all the pores and glands open and able, in this way, to assist in the elimination.

Columbus, O., 1855 Mt. Vernon, Ave. Six years ago I had a severe attack of inflammatory Rheumatism, and the doctors I had did me no good. They changed medicines every week and nothing they prescribed seemed to help me. Finally I left off their medicine and began the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time my hands were so swollen and painful that I could not close them when opened. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and today I am a sound, well man and have never had a return of the disease.  
E. H. CHAPMAN.

The inactivity of the Liver, Kidneys and Bowels causes the refuse matter to remain in the system, which, coming in contact with the different acids of the body, forms uric acid to be absorbed by the blood and distributed to the different joints and muscles, producing the pains, inflammation and other distressing symptoms of Rheumatism. The wandering pains of the disease remind the sufferer that the poison is still in the blood and he should lose no time in getting it out. S. S. S. neutralizes the acid and makes the blood rich and pure. It tones up every organ and cures the disease permanently. S. S. S. contains no harmful minerals to disagreeably affect the system, but while curing the disease builds up every part of the body by its fine tonic effect. Book on Rheumatism and any medical advice desired without charge.
