FINNIGAN'S BALL SEPTEMBER 6 & 7

The most popular farce comedies of today are those which introduce life characters, with which one is acquainted and have scenes familiar with the laughable incidents we expect. Such a play is "Finnigan's Ball" and the characters are all flesh and blood creatures somewhat exaggerated in their stage appearance, but easily recognized just as though they were our every day friends and neighbors. The scenes are taken from the Lakes of Killarney and the author has written a witty, sparkling dialogue even more humorous than given most comedies and several well-known musical composers have contributed marvelously to the tuneful and catchy music that forms an enjoyable feature of the performance. The comedy is of the most uproariously funny kind ever seen in years, in fact, it is one high laugh, there are three acts, crowded with songs, dances and specialties, so that there is never a dull moment while the curtain is up. The company is headed by the famous Barrett Bros., one of the best known Irish teams ever before the American public. The cast includes the names of some of the most popular artists now in the public limelight and a score of very attractive young ladies who wear a variety of bewitching costumes and display their charms in a frolicsome manner. The company appear here on

State Auditor A. L. Scherr was in the city yesterday on business.

Dr. Pierce's Favorite Prescription,
Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine of known composition, a full list of all its ingredients being printed in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol and that has the highest testimonials. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.
A little book of some of these endorsements will be sent to any address, post-paid, and absolutely free, if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.
Be it remembered that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed in plain English on every bottle wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are free for the asking.
If you suffer from periodical headaches, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of immediate benefit from taking Dr. Pierce's Favorite Prescription.
Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They purify the stomach, liver and bowels. One a laxative; two or three a cathartic.

Are you Suffering With Catarrh?

The first stage of catarrh is used by taking cold. Most people pay little attention to a cold. In a little while a case of catarrh is the result. Catarrh is a local disease, caused by an inflammation of the mucous membrane of the nasal and other passages. The nasal passages being most exposed to the changes of the weather are the first to become affected. Each cold taken aggravates the disease, and it will be noticed that colds are taken much more easily as the disease progresses. Soon the accumulation of mucus begins to drop into the throat, then on down into the lungs, impregnating both with the disease. If proper medicines are applied there is no reason why catarrh cannot be cured.
