## TAKE CASCARETS FOR A SOUR, SICK STOMACH OR INDIGESTION

that with sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, flatulency, indigestion, and sick headache, means indigestion; a "disturbed" stomach which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any. Try Cascarets; they cure indigestion, because they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret 12 night will straighten you out by morning—a 10-cent box will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

## Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged. This—the quality of penetrating—probably explains the tremendous success of the well known fluid eczema remedy, oil of wintergreen, thymol glycerite, etc., as compounded in D.D.D. Prescription. We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We can give you a trial size bottle for 25 cents that will be enough to prove it. Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute. But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee:—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

## THE Y. M. C. A. OF WEST VIRGINIA UNIVERSITY.

The accompanying picture is a flash-light, taken of one of the regular weekly men's meetings of the University Y. M. C. A. President Hodges was the speaker at this meeting. The meetings are held on every Friday evening, and the speakers are prominent men of the university or elsewhere. A large crowd attends these religious meetings of the mid-week, at which subjects of vital interest to earnest college men are informally discussed. The association has shown evidence this year of being very much alive. Not only has it held, or lent its aid to several social events in the school during the year, and organized a fast basket ball team—in more serious matters as well, it has shown itself ready to lend a helping hand. Many people who are interested in the university do not know that the Marlin Sunday-school is organized under the supervision of the Young Men's Christian Association, or that it is responsible also for furnishing two speakers every second week for an evening meeting in that place on Sunday evening. Members of the association have also conducted meetings at the Monongalia county home, where religious exercises have been held for the first time in several years. Gospel teams composed of association members are planning several trips to small outlying towns, accessible from Morgantown. The meetings are generally held on three successive days, Friday, Saturday and Sunday, and the teams are composed of two or three speakers and a singer. Only one such series has been so far held since Christmas, but others are being planned. That held at Stewartstown, and was very successful. Another branch of the Association's activities which will readily commend itself to every patriotic American is the work which they have started among the foreigners of Morgantown's manufacturing suburb of Sabraton. They are teaching the immigrants of the shops and factories to speak and write correctly the tongue of their adopted country. The Roberts system of instruction is used. The work has only lately been organized, but is progressing nicely, and is one which will be of obvious benefit not only to Morgantown, but to the country in general. The Y. M. C. A. is not an organization which spends its time chiefly in blowing its own horn, and it is responsible for many good things for which the general public, with casual observation, does not give it credit. But those who are familiar with its work know that it is a real force in the university, and that all its varied activities are directed toward a common purpose of helping the student body and the world.
