**TWO WOMEN TESTIFY**

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their Own Statements Follow.

New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter."—Mrs. CASSIE LLOYD, New Moorefield, Clark Co., Ohio.

Read What This Woman Says:  
 South Williams town, Mass.—"Lydia E. Pinkham's Vegetable Compound certainly has done a great deal for me. Before taking it I suffered with backache and pains in my side. I was very irregular and I had a bad female weakness, especially after periods. I was always tired, so I thought I would try your medicine. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I felt so much better that I got another and now I am a well woman. I wish more women would take your medicine. I have told my friends about it."—Mrs. ROBERT COLE, Box 45, South Williams town, Mass.

**Healthy Mothers**

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.  
**MOTHER'S FRIEND**  
 READFIELD REGULATOR CO., Atlanta, Ga.

There never was a time when people appreciated the real merit of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with a cough or cold give it a trial and become acquainted with its good qualities. For sale by all dealers.

**AN EXPEDITION IS TO BE UNDERTAKEN**

To Force Return of a Big Amount of Loot Taken from Vessel.

LONDON, April 27.—An expedition will be dispatched shortly from Aden to punish the Sultan of Socotra unless loot taken from the British steamship, Kuala, which was wrecked on the island of Socotra, is restored and an apology given.  
 The punitive expedition will consist of a cruiser of the East Indian Squadron and the steamship Dalquais, which will convey a company of native infantry from the Aden garrison. The command of the party will be given to Major General Sir J. A. Bell, political resident at Aden.  
 The Kuala, bound from Dundee to Singapore, went ashore in November and one of the crew was compelled to travel 300 miles in an open boat for assistance. The lives of the crew were threatened and the vessel was looted by the natives. Subsequently the crew was rescued by a Russian ship and landed at Singapore.  
 Socotra is an island of the Indian ocean lying near the entrance of the Gulf of Aden. It is eighty miles long and contains 1,350 square miles. Though virtually part of an Arab sultanate, Socotra is under British protection, constituting a dependency of Aden.  
 The Timur ruby has been a part of the British crown regalia since it was presented to Queen Victoria in 1831 by the directors of the East India Company. There has been more or less mystery in the history of this jewel, some experts even contending that it has been lost. The recent visit of the King-Emperor and his consort to India resulted in the publication of a history of the jewel written with the idea of clearing away the misapprehensions surrounding it.  
 The Timur is the largest known spinel ruby, weighing just over 252 carats. It is uncut but polished and was probably discovered in one of the old ruby mines of Badakshan. It was seized by Ameer Timur, better known to western historians as Tamerlane, when he plundered Delhi in 1398. In due time it descended to his grandson, by which time the great Tartar empire was on the wane and during one of the many wars between the Tartars and the Persians the ruby fell into the hands of the Kings of Iran. Shah Abbas presented the ruby to his friend, the Mogul Emperor Jehangir in 1612. When his favorite wife remonstrated with him for inscribing his name on the jewel, Jehangir made the striking prophecy that the ruby would more certainly carry his name down to posterity than written history, for it would always remain in the possession of the ruler of Hindustan, a prophecy which has been fulfilled to the present day.  
 In 1740 Nadir Shah sacked Delhi and carried the ruby away with him. When Nadir was assassinated in 1747, Ahmad Shah seized the ruby with other booty, and proceeding south, founded the kingdom of Afghanistan. When his grandson was expelled from the country he sought refuge in the Punjab, where he was compelled to surrender both the Koh-i-noor and the Timur.  
 When the Punjab was annexed by the British in 1849 the Koh-i-noor, the Timur and all other state jewels were taken over by the Board of Administration and the first named jewel was taken directly to London, where it was presented to Queen Victoria. The Timur was later packed up with other jewels and taken to London for the great exhibition of 1854. At the close of the exhibition the ruby was presented to the Queen by the Court of Directors of the East India Company, since which time it has been one of the crown jewels.

During a conference of the Societies for the Relief of Foreigners in Distress held at the Mansion House, the Lord Mayor declared that he was inclined to agree with the American critics of England who asserted that there were too many charitable societies in this country. He was almost disposed to think that there was one society very much missing in London and he would like to give it the name of the Society of Education in Industry and Thrift. The two qualities were scarcely known among the proletariat of this country; otherwise they would scarcely need the work of the numerous societies formed and managed for the relief of people who did not help themselves.

The annual report of the British Sugar Beet Council shows that the raising of sugar beets in England has passed the experimental stage. The greatest advance reported by the council was the establishment of a factory at Norfolk. There the farmers will be able to test their beets and those who have not yet planned their lands will be given instructions.  
 The members of the council are convinced that the industry will soon be placed on a sound financial basis without any assistance from the Development Fund, which could not be drawn upon because the International Sugar Convention prohibits subsidies or grants of any kind by the government for an undertaking planned to produce sugar for commercial purposes.

The collection of bones, the remains of at least 11,000 people, in the crypt

of Bodwell Church, near Kettering, Northamptonshire, has been rearranged and placed on shelves, to save them from decay by damp.  
 The crypt containing the remains was accidentally uncovered by workmen some two hundred years ago. Many suggestions have been ventured as to the origin of the bones, among them that they mark a monastic burial place, or that they were the skeletons of the victims of a plague, or that the bones are those of the slain at the battle of Naseby. A recent theory is that the remains are the bones of villagers buried in the fourteenth and fifteenth centuries.

**RINGLING**

(Continued from page three.)  
 as that of a saint, and whose wonderful powers and whose bravery are verily believed to have been of divine inspiration.  
 On the triumphant incidents, the victorious engagements, the final defeat of the English armies, and the coronation of Charles VII. all achieved by the frail Maid of Orleans, has been founded the inspiring spectacle which gives Ringling Brothers' circus a new significance and makes an attraction such as the world in searching for amusement has never before found.  
 The regular circus program is more than ever attractive. Its company of 275 foreign artists, its double menagerie and its new street parade will prove a great surprise to those who attend from this city. The event is one that should not be missed.

**BIG CLASS**

To Be Taken into the Local Conclave of Heptasophs Monday Night.

Forty new members are to be taken into Clarksburg Conclave, No. 323, Improved Order of Heptasophs, Monday night as a result of the visit of J. H. Primrose, of Wilmington, Del., here. Mr. Primrose is a deputy su-

preme organizer and he organized the conclave here twenty years ago. The meeting Monday night will be held in the Pythian rooms in the Williams building on Second street at 7:30 o'clock. It is essential that all the members of the new class be present. The order has paid out \$21,000 here in benefits and \$2,000 is pending. Included in its membership are some of the best residents of the city.  
**MARRIAGE LICENSES.**  
 Marriage licenses have been issued to Clifford R. Hughes and Zelpha V. Cunningham and Thomas J. Patrick and Martha Lingar.  
**JENKINS LEAVES HOSPITAL.**  
 Thomas Jenkins, the would-be suicide, was discharged from the St. Mary's hospital Friday night after having his wound dressed. The wound was only a slight one and Mr. Jenkins will be able to be out in a few days.  
 Dr. Fleming Howell has returned from an extended trip in the West. Mr. and Mrs. H. J. Wentz and child, of Richwood, were guests at the Waldo hotel, Saturday.

**FAMOUS**

Is John MacVicar for His Expertness on Municipal Questions.

The St. Louis Dispatch says of John MacVicar, of Des Moines, Ia., who is to speak in the court house here Monday night at 8 o'clock on the commission form of government. "MacVicar is a sturdy and militant Independent. He has been a pioneer

One sight at "The Red Rose" at the Fairmont opera house next Monday night. There will be a special car to Clarksburg after the show.

**How Build Today To Replace the Worn-out Parts of Yesterday?**

Each day thinkers use up cells of the Brain.  
 Each day active workers destroy cells in the nerve centres.  
 If the food lacks the things Nature demands for rebuilding, Nervous Prostration and Brain-fag result.  
 Suppose a bricklayer tried to build a wall and the boss furnished brick, sand and water, but left out the lime?  
 Suppose you eat plenty of albumin and take sufficient water, but neglect food which contains Phosphate of Potash?  
 Nature cannot rebuild gray matter in nerve centres and brain without Phosphate of Potash which binds together albumin and water to make it.  
 Phosphate of Potash, as grown in the grains by Nature, is more than half the mineral salts in Grape-Nuts.
