

# REPUBLICAN LINE-UP IS A SPLENDID ONE

For the Primary Election to Be Held in the County June 4.

As the time for the state wide primary which will be held by the Republican party this year draws nearer the interest in the candidates who desire to secure the nomination for different offices, becomes more acute and their friends are hustling for their favorites in the hope that they may get the largest number of votes and be chosen to represent the people when the election is held in November.

The list of candidates who have qualified for the primaries is an excellent one, not only for the state offices, but for congress, the state senate and the legislature. The list to be found appended is made up only of those candidates for whom Harrison county voters may cast their ballot at the coming primary and does not include the candidates for Congress or the state senate for the other districts. It would be a hard matter to pick out one that is better than another in the list for they are all

- good men and staunch Republicans. Here is the list:

# If You Like a Little Quiet Fun

Ask some prosperous person if Grape-Nuts Food helps build the brain. Chances are you get a withering sneer and a hiss of denunciation. Then sweetly play with the learned toad.

Ask him to tell you the analysis of brain material and the analysis of Grape-Nuts. "Don't know? Why, I supposed you based your opinions on exact knowledge instead of pushing out a conclusion like you would a sneeze."

"Well, now your tire is punctured, let's sit down like good friends and repair it."

The bulky materials of brain are water and albumin, but these things cannot blend without a little worker known as Phosphate of Potash, defined as a "mineral salt."

One authority, Geohegan, shows in his analysis of brain, 5.33 per cent total of mineral salts, over one-half being Phosphoric Acid and Potash combined, (Phosphate of Potash) 2.91 per cent.

Beatnis, another authority, shows Phosphoric Acid and Potash (Phosphate of Potash) more than one-half the total mineral salts, being 73.44 per cent in a total of 101.07.

Analysis of Grape-Nuts shows Potassium and Phosphorus (which join and make Phosphate of Potash) is considerable more than one-half of all the mineral salts in the food.

Dr. Geo. W. Carey, an authority on the constituent elements of the body, says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumin and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course, there is a trace of other salts and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor, and has the power within itself to attract, by its own law of affinity, all things needed to manufacture the elixir of life."

Further on he says: "The beginning and end of the matter is to supply the lacking principle, and in molecular form, exactly as nature furnishes it in vegetables, fruits, and grain. To supply deficiencies—this is the only law of cure."

Brain is made of Phosphate of Potash as the principal Mineral Salt, added to albumin and water.

Grape-Nuts contains that element as more than one-half of all its mineral salts.

Every day's use of brain wears away a little. Suppose your kind of food does not contain Phosphate of Potash. How are you going to rebuild today the worn-out parts of yesterday? And if you don't, why shouldn't nervous prostration and brain-fag result? Remember, Mind does not work well on a brain that is even partly broken down from lack of nourishment.

It is true that other food besides Grape-Nuts contains varying quantities of Brain Food. Plain wheat and barley do. But in Grape-Nuts there is a certainty.

And if the elements demanded by Nature, are eaten, the life forces have the needed material to build from. A healthy brain is important, if one would "do things" in this world.

A man who sneers at "Mind" sneers at the best and least understood part of himself. That part which some folk believe links us to the Infinite.

Mind asks for a healthy brain upon which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it is used up from work of the previous day.

Nature's way to rebuild is by the use of food which supplies the things required.

**"There's a Reason" for Grape-Nuts**

## FROM THE EDITOR.

He Forgot That He Had a Stomach.

Talking of food, there is probably no professional man subjected to a greater, more wearing mental strain than the responsible editor of a modern newspaper.

To keep his mental faculties constantly in good working order, the editor must keep his physical powers up to the highest rate of efficiency. Nothing will so quickly upset the whole system as badly selected food and a disordered stomach. It therefore follows that he should have the right food, which can be readily assimilated, and which furnishes true brain nourishment.

"My personal experience in the use of Grape-Nuts and Postum," writes a Philadelphia editor, "so exactly agrees with your advertised claim as to their merits that any further exposition in that direction would seem to be superfluous. They have benefited me so much, however, during the five years that I have used them, that I do not feel justified in withholding any testimony."

"General 'high living' with all that the expression implies as to a generous table, brought about indigestion, in my case, with restlessness at night, and lassitude in the morning, accompanied by various pains and distressing sensations during working hours.

"The doctor diagnosed the conditions as 'catarrh of the stomach,' and prescribed various medicines, which did me no good. I finally threw physics to the dogs, gave up tea and coffee and heavy meat dishes, and adopted Grape-Nuts and Postum as the chief articles of my diet.

"I can conscientiously say, and I wish to say it with all the emphasis possible to the English language, that they have benefited me as medicine never did, and more than any other food that ever came on my table.

"My experience is that Grape-Nuts food has steeled and strengthened both brain and nerves to a most positive degree. How it does it, I cannot say, but I know that after breakfasting on Grape-Nuts food one actually forgets he has a stomach, let alone 'stomach trouble.' It is, in my opinion, the most beneficial as well as the most economical food on the market and has absolutely no rival." Name given by Postum Co., Battle Creek, Mich.

## GOOD PLAY

Is Being Presented Now at the Odeon Theatre on West Pike Street.

Real vaudeville holds forth at the Odeon for the first half of the week. It is a bill of uniform excellence, not a dull moment from rise to fall of curtain.

The Gypsy Four, instrumentalists, have an act excelled by none, each member being a finished artist on each instrument they play and when four such people combine one is sure of a treat. The repertoire includes popular and classic selections, solos, duets, trios and quartette numbers in rapid succession are introduced and they well deserve the hearty applause they receive at the end of their act.

Gordon and Norton in a character change act have a stunt that gives them a chance to show their versatility and it is a pleasure to watch this talented pair. The portrayal of a baseball fan by Miss Gordon, nicknamed the lady with the sun kissed locks, is true to life and she is ably assisted by her clever partner.

Jack Renzetta, comedian, keeps the house in good humor with his clever comedy trick tumbling and hand balancing. His act is a social novelty and is away from all others of this class.

The usual three reels of feature films are shown at every performance.

Beginning Thursday, May 16, a season of musical comedies will be inaugurated at the Odeon. Hoyt, Cronin and Dauy's musical comedy company will be the opening attraction.

**HOME-FROM HOSPITAL.**  
Miss Blanche Robbins, of Clay street, who was operated on for throat trouble at Dr. Percy Showalter's hospital, has returned to her home and is doing nicely.

**UNDERGOES OPERATION.**  
Mrs. N. A. Phillips, of Hickman street, recently underwent a surgical operation in St. Mary's hospital and is doing nicely.

## A Permanent Cure For Chronic Constipation

Although those may dispute it who have not tried it, yet thousands of others, who speak from personal experience, assert that there is a permanent cure for chronic constipation. Some testify they were cured for as little as fifty cents, years ago, and that the trouble never came back on them, while others admit they took several bottles before a steady cure was brought about. The remedy referred to is Dr. Caldwell's Syrup Pepsin. It has been on the market for over a quarter of a century and has been popularized on its merits, by one person telling another. The fact that its strongest supporters are women and elderly people—the ones most persistently constipated—makes it certain that the claims regarding it as a permanent cure for constipation have not been exaggerated.

It is not violent like cathartic pills, salts or waters, but operates gently, without griping and without shock to the system. It contains tonic properties that strengthen the stomach and bowel muscles so that in time medicines of all kinds can be dispensed with and nature is again solely relied on. Among the legions who testify to these facts are Mr. J. W. Whitley, Marion, Va., and Mr. Wm. Glenn, 2304 E. Preston St., Baltimore, Md., and they always have a bottle of it in the house, for it is a reliable laxative for all the family from infancy to old age.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.
