

**Another Fatal Accident with Scalding Wash Water.**

*Anty Drudge*—"Oh! Mrs. Happydays. Here's another child scalded to death! Too bad. And just to think, that could have been avoided if the mother had only washed with Fels-Naptha soap in the Fels-Naptha way—with cool or lukewarm water. Criminal negligence, I call it!"

The woman who considers her health won't tempt fate by standing for hours over a steaming tub, opening the pores in her chest and neck (the very place where grip and pneumonia strike) and then going right out in the cold to hang the clothes on the line.

No need. Wash the Fels-Naptha way—in cool or lukewarm water. No steam; no hot water; no nauseous odors.

It saves money and doctor bills, and keeps hands and face clear and smooth instead of chapped and blotchy.

Washing the Fels-Naptha way, does away with the back-breaking drudgery of wash-day. No hard rubbing.

Fels-Naptha dissolves the dirt; makes the clothes look a lot cleaner and fresher than you could ever get them by boiling and rubbing.

Clothes last longer, too—washed with Fels-Naptha. There is no boiling to weaken the fabric and no hard rubbing to wear it to shreds. Do your next wash the Fels-Naptha way. You will be all through in one-half the time and with one-tenth the effort.

Follow the directions on the red and green wrapper. Use any time of the year.

**CIRCUS**

To Give Two Performances Here July 11 Has Many Novelties.

This is a season of novelties with the Barnum and Bailey circus. Never before has it offered such a variety of new European creations. Prominent among these are a company of wonderfully trained cream stallions that play on Swiss bells. They enter the ring walking on their hind feet. Some of them play real tunes while others dance to the music. This is the best act of its kind that ever came out of Europe.

Winston's seals are another astonishing specialty. They ride horses, juggle fire-brands, skit the rope, walk the slack wire, play on string instruments and juggle light and heavy objects with more skill than any man has ever displayed. An imported monkey and dog circus is another remarkable novelty. It is full of comedy and is not lacking in thrills as well. In the company is a baboon that is an accomplished jockey. Its mount is a Russian sheep dog. The dogs in this group of trained animals form a fire department that responds to an alarm and rushes out with a full fire-fighting equipment. A collier captain of a hose company mounts a ladder and rescues a poodle from flame and smoke.

Other features on the unusual program are offered by Mae Wirth, the greatest rider, male or female, in the world; a company of Japanese giants the only act of its kind ever seen in America; Kate Sandwina, the strongest, the most beautiful, and the most skillful woman in the world; the great Willis family with their jumping and dancing horses; the great Georgette family, who juggle human beings; the Florence, the Bento, and Les Jardy families of acrobats, the Siegrist-Sillbon and the De Van families of acrobats; Victoria Codona, the greatest wire performer in the world, and the Davy family of equestrians.

The fifty best clowns in the world keep the audience in constant laughter. The biggest menagerie on earth is on exhibition. In it is the only baby giraffe in captivity. The forenoon parade is the wonder of the age in pageantry. It is a panorama of 1,000 world wonders. It will pass through the streets of Clarksburg on the morning of Thursday, July 11, giving the people an idea of the wonders under the tents.

The performance opens with the great spectacle of "Cleopatra," presented on the biggest stage in the world and with a cast of 1,250 characters, 650 horses, a grand opera chorus of 300 voices, a ballet of 250 dancing girls, and a trailload of special scenery.
