

SUFFERING

These Two Women's Health Restored by Lydia E. Pinkham's Vegetable Compound—Read Their Own Statements.

Chesneyville, La.—"Some time ago when in poor health, suffering from feminine ills, I began to take Lydia E. Pinkham's Vegetable Compound and Liver Pills. I soon felt better and gained in strength and flesh. A gradual improvement continued as I took the Compound and from 120 pounds I now weigh 165, and feel that my life has been prolonged."

"I deeply regret that I did not know of your medicine long before I did. Friends often speak of the wonderful change in my health, and I tell them that your medicine did it."—Mrs. J. W. STANLEY, Chesneyville, La.

Distressing Case of Mrs. M. Garry, Chicago, Ill.—"I have used Lydia E. Pinkham's Vegetable Compound for backache and it has certainly made a new woman of me. After my first baby was born I was left a perfect wreck. I was so weak I could hardly do my household duties and suffered with an awful backache. But since I have used your Compound the pains in my back have left me and I am strong again."

"My mother used it also through Change of Life and speaks very highly of it. You can use this letter any way you wish. I think it is only fair for one who has suffered as much as I, to let others know of your great remedy."—Mrs. M. GARRY, 2568 N. Ridgeway Ave., Chicago, Ill.

GREAT ACTIVITY IN COLLEGE AND ATHLETIC WORK AT WEST VIRGINIA UNIVERSITY.

VERY STRONG FOOTBALL TEAM

The University Has a Very Large Attendance—Many New Instructors Have Been Added to the Faculty. The Various Societies and Organizations are receiving the New Students Under Their Respective Sponsors.

Morgantown, W. Va.—The activity at the University has been the scene of a great deal of activity the past two weeks. The large number of freshmen entering this year has increased the strength of the corps to such an extent that it has been found necessary to form another company. This makes the normal organization for a battalion of four companies. Nearly all of the authorized state cadet appointments have been taken up. The students are just beginning to realize the value of these appointments and they are in great demand.

Commandant Weeks is planning for a new indoor target range to consist of five targets, which will be arranged in such a way that the firing will not interfere in any way with the use of the armory floor as a drill hall. Target practice has been found to be one of the most interesting features of the cadet training. Last year the University entered the intercollegiate match which was conducted by the National Rifle Association. Twelve of the largest colleges in the east were entered in this match. West Virginia University finished sixth, which, considering the fact that it was their first attempt, is a very good showing. This year they expect to come out very much nearer the top. In connection with the range the commandant proposes to introduce a change in the method of instruction. The range will be turned over to one company for a day at a time, and each man will be required to fire at least ten shots at some time during the day. This arrangement will enable the cadets to suit their convenience as to the hour and will allow for better instruction.

Through the courtesy of the adjutant general and the other officers of the national guard of the state, who loaned the necessary tentage and equipment, the corps was enabled to spend five days last May in camp at Caddell, W. Va. This time was spent principally in target practice. A number of very good scores were made and twenty-nine of the cadets qualified as marksmen. A similar encampment will be held this year, if the necessary equipment can be obtained.

CHANGES IN THE FACULTY.

Dr. W. P. Edmunds, who succeeds A. W. Chez as physical director and football coach, is a graduate of Michigan in medicine. He played for three years on the Michigan football team, and afterwards for two years on the All-Western team. He also has a record as an all-around athlete in basketball, tennis, boxing and track work. He is assisted by R. E. Thomas, of Ohio State University, and formerly a player on the team at Hiram College.

Miss Mary B. Oliver, who comes as assistant to Miss Colwell in the domestic science department, and as woman's physical director, is a graduate of Wisconsin University, B. S. in the department of home economics. She took her physical training in Cornell College, Iowa, and also in Wisconsin. The freshmen and sophomores are all required to take physical training. In the fall, during the nice weather the work will be tennis, and in the spring tennis and out-door basketball. During the winter months inside work will be given in inside classes.

Prof. George F. Wells comes from Toledo, Ohio, where in addition to his active practice he was in charge of the law department of St. John's University. His academic preparation was made at Oberlin College, and his law training at the University of Michigan. He succeeds Prof. Willey, who is retiring after twenty-four years of faithful service.

Mr. R. E. Hunt, B. S. Agr., Kansas State Agricultural College, comes to take charge of the animal husbandry department in the college of agriculture. Mr. Hunt was employed at Pennsylvania State College for the short course last winter.

R. E. Seaman succeeds Mr. R. H. Chandler in the wood-working shop of the engineering college. Mr. Seaman has been occupying a similar position in Cornell University.

Dr. J. E. Hodgson comes as associate professor of mathematics from Baltimore Polytechnic Institute. Dr. Hodgson graduated from Washington and Lee, and took his graduate work in Johns Hopkins. He is well known among the educators of West Virginia, having held positions in Romney and Keyser Preparatory Schools, in Potomac Academy and in Davis and Elkins College.

Mr. Alex. P. Moore will act as assistant professor of French. His home is in Astoria, L. I. He is a graduate of Columbia University, and spent the

Football Prospects Good.

Under the efficient leadership of West Virginia's new coach, Dr. W. P. Edmunds, of Michigan, and his assistant, R. E. Thomas, of Ohio University, the outlook for a good year in football is unusually bright. A round three dozen men are turning out each day and the weather has dealt mercifully with them during the early days of practice. The field is in fine condition and covered with a stunner's growth of grass. The squad has been divided into two squads, the first known as the varsity and the second as the reserve squad. The varsity numbers about 16 or 18 men, and the reserve include the others. While the squads are working separately, the one under Coach Edmunds and the other under Coach Thomas, frequent shifts are being made from one team to the other. Any man who shows up unusually well on the reserve gets a chance to show his mettle on the first team, while the man who fails to get snap and ginger into his work soon has opportunity to take life easier with the second-team men.

The varsity team is made up about half-in-half of old and new material. Bachman, Harrison, Boyles and Carfer are the only players who won their letters last year. Te line looks good, and the main problem is in developing the back field. The line-weight averages about one hundred and seventy pounds, whereas the back field is thirty pounds lighter. It is entirely new with the exception of Bachman, who is one of the best kickers and all-around players in the country.

The classes have organized earlier than usual this fall. The seniors were first, followed by the Juniors. Under the coaching of the juniors the freshman got in ahead of the sophomores in their class election. In celebration of the event they paraded the streets and captured a few unlucky sops, whom they "put through their paces" by making them parade the streets with clothing put on wrong side out, and otherwise askew, and by making them harangue the crowd before some of the public places of the town. They afterwards decorated poles and walks with their colors. There is undoubtedly more to follow, as both classes show a lusty disposition. The class rush has not definitely been arranged as yet, but will come in the near future.

Enthusiastic Choral Society.

Under Director Black the Choral Society is already beginning preparation for its fall concert. The society chorus will number about one hundred members, many of which are former members, and the attraction has all prospect of being the biggest and the best of all that have been produced. The chief feature of the program will be several numbers from Mozart's twelfth mass. There are several reasons which have prompted the selection of this masterpiece. Since the Catholic Church has in late years dropped all modern music and gone back to the Gregorian tone again, this style of music has been too much neglected. Because of its size, too, it is a work seldom heard in the churches and is a work which very few choruses care to attempt. Music lovers will appreciate the opportunity which the choral society is furnishing, of listening to the great production under competent leadership. The date will be some time late in November. The rest of the program will be of a miscellaneous and lighter nature. The spring con-

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by a local application of the mucous membrane of the middle ear. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

GOLD DUST

Good soap washes clothes well—if you use enough elbow grease; but Gold Dust washes them more thoroughly—and with little or no rubbing. Gold Dust saves half your time and spares your poor back.

Another great advantage of Gold Dust—use any kind of water you like. Gold Dust softens the hardest water and makes it soft as rain water.

Gold Dust is just a vegetable-oil soap in powdered form, with other cleansing ingredients added to make it work more thoroughly and quickly than soap ever can.

Just try Gold Dust next wash-day and see how much time you save.

Gold Dust is sold in 6c size and large packages. The large package means greater economy.

SAID SHE WOULD FAINT

Mrs. Della Long Unable to Stand on Her Feet More Than a Few Minutes at a Time.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agonizing with womanly troubles."

Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long I would faint. I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did."

Take Cardui when you feel ill in any way—weak, tired, miserable, or under the weather. Cardui is a strengthening tonic medicine for women.

It has been found to relieve pain and distress caused by womanly troubles, and is an excellent medicine to have on hand at all times.

Cardui acts on the womanly constitution, building up womanly strength, toning up the nerves, and regulating the womanly organs.

Its half century of success is due to merit. It has done good to thousands. "Will you try it? It may be just what you need. Ask your druggist about Cardui. He will recommend it."
