And a vital and essential part of a store's service to its patrons is its enterprise in telling them its store news promptly, fully, frankly.

SOME WORKING GIRLS LOSE TOO MUCH TIME

Two Girls Tell How To Avoid It.

There is nothing that teaches more than experience. We therefore quote from the letters of two girls who suffered and were restored to health. The same remedy is within reach of all.
Brooklyn, N. Y.—"Pride is taking the first bottle of Lydia E. Pinkham's Vegetable Compound I suffered agony every month, but after your wonderful medicine had been taken a while I felt a little better; and after taking seven bottles of it I feel that I can truly say I have no more pain or inconvenience."
"As I am out in the business world as a stenographer, I come in contact with many girls, and when the opportune moment arrives I tell them about the Vegetable Compound and I know that quite a few are taking it."—HELEN CANET, 556 Dean St.

Another Girl's Experience.
Tishomingo, Okla.—"I am a stenographer and book-keeper, and Lydia E. Pinkham's Vegetable Compound has saved my life. I am enjoying the best of health now but I was suffering from female troubles and painful periods, and would have backache, headache and fainting spells. If any woman would like to write to me I will gladly answer her letter and tell her what Lydia E. Pinkham's Vegetable Compound has done for me."—MRS. MATTIE COPENHAVER, Tishomingo, Okla.—Advertisement

Pretty Mothers

Health is the foundation of all good looks. The wise woman realizes this and takes precautions to preserve her health and strength through the period of child bearing. She remains a pretty mother by avoiding as far as possible the suffering and dangers of such occasions. This every woman may do through the use of Mother's Friend, a remedy that has been so long in use, and accomplished so much good, that it is in no sense an experiment, but a preparation which always produces the best results. It is for external application and so penetrating in its nature as to thoroughly lubricate every muscle, nerve and tendon involved during the period before baby comes. It aids nature by expanding the skin and tissues, relieves tenderness and soreness, and perfectly prepares the system for natural and safe motherhood. Mother's Friend has been used and endorsed by thousands of mothers, and its use will prove a comfort and benefit to any woman in need of such a remedy. Mother's Friend is sold at drug stores. Write for free book for expectant mothers, which contains much valuable information.

WOULD LOSE WITH WILSON

Lose Our Prosperity, Lose Our Jobs, Warns Taft, Who Says the Very Name is Reminiscent of Free-Trade Disaster.

Beverly, Mass.—President Taft has written a letter to John Wanamaker at Philadelphia, thanking him for his efforts in behalf of the Republican party. Mr. Taft says:

"There are certain facts that stand out so prominently in this campaign that I cannot conceive how a majority of our voters can fail to apprehend them. They are that a vote cast for the third party is a vote cast for the Democratic ticket, and that a vote cast for the Democratic ticket is a vote cast for economic experimentation, which, under the most favorable circumstances, would mean lack of business confidence, the calling of loans, a stringency of the money market, the suspension of manufacturing, the destruction of the market for farm products because the people had no money to buy, and untold suffering for the wage-earner and his family."

"I want to thank you for the splendid work you are doing for the success of the Republican party in the approaching election. I thank you not for myself alone but for the people at large, who have so much to lose, so little to gain, from a change of administration, who will indeed suffer if a Democratic President and Democratic Congress secure the opportunity to make good their platform pledges, and an extra session of Congress is called next March to change the tariff from a protective to a revenue basis."

"We have experimented in the past with the tariff theories of our Democratic friends. You will recall as clearly as I do the distress which followed the passage of the Wilson bill. Is there not a certain significance in the fact that it is another Wilson who would again subject us to such an experiment? Wilson and prosperity are words that refuse to go together in our American history."

"You recall the report of Mayor Gilroy on conditions in New York when he and his Democratic administration conducted an investigation into the hardship and suffering which prevailed in 1894, and found that 185,000 persons were dependent on charity because 52,000 men and nearly 15,000 women who under normal conditions experienced no difficulty in securing employment were out of work. You can recall the days when, as the result of just such tariff 'readjustment' as our Democratic friends now propose, there were soup kitchens in every large city, when able-bodied men were compelled to beg from door to door, while women and their little children died of starvation or were stunted in their development from the privation they were compelled to undergo."

"The election of a Democratic President would mean the election of a Democratic Senate and House, and the present Congress has proved how savagely and with what recklessness the Democrats would deal with the tariff if they were in full control of the executive and legislative branches of government. I cannot understand how any American voter can fail to see that by throwing away his vote on the third party or by voting to put the Democrats in power in the White House and in Congress he is assuredly courting disaster as is the small child playing with matches. And so, Mr. Wanamaker, far above any personal consideration, I am grateful to you and to all who like you are helping the Republican cause this year."

Important News of the Engineers.
Several important changes are being made in mechanical hall, which will considerably increase the efficiency of that department. A retaining wall is being built along the north side of the building. This will prevent the dampness which has heretofore made the basement of the building so uncomfortable in damp weather. The windows will be lowered and made full size. The electrical laboratory will be made much more satisfactory by the change. The basement of the power plant is also being lowered and repaired. An important addition to the equipment is a new one hundred and fifty H. P. Westinghouse steam turbine, which is being installed for the use of the students.

Dean C. R. Jones visited the Panama Canal during the summer, partly for the sake of a vacation trip, but also because of his interest in the canal as an engineering project, and in order to see the canal before it is filled. His trip occupied most of the summer.

West Virginia has nearly \$2,900,000 in its treasury. It has never had a deficit in the sixteen years of Republican administration. The MacCabe-Chilton ring turned the state over to the Republican party with an empty treasury, embroiled in scandals pending and dilapidated state institutions. The same old gang of incompetents (and worse) is trying to get control again. Let the people beware.

Dr. Hatfield looks like a governor, acts like one, talks like one and will soon be made one by the votes of the people of West Virginia.

WHEELING, Oct. 28.—Contractors Caldwell & Drake expect to begin the work of raising the old Windsor hotel building for the erection of a new \$400,000 hotel on Friday, November 1. The work of removing the furnishings of the hotel will be begun tomorrow. The entire hotel will not be closed, as twenty-five rooms on the Twelfth street side will be operated until the remainder is completed.
