RADIUM RUSH

Causes the House Committee to Close its Hearings and Begin a Bill.

WASHINGTON, D. C., Jan. 28.—Spurred by reports that prospectors have started a "radium rush" to the Carnotite lands of Colorado and Utah, the House committee today hurriedly closed its hearings and began preparing a bill for government control of the nation's radium output. It would not withdraw radium lands from private entry but will reserve to the government the right to buy and reduce all radium ores in a government reducing plant, probably at Denver. The new bill will be introduced late today or tomorrow and an effort will be made to get a special rule to expedite its passage through the House.
