In Almost Every U. S. Consulate

Wherever Uncle Sam is represented by a resident official, in Asia, Africa, North America, South America, Europe, Australia and the Islands of the Tropics, the Government records are preserved against fire and theft in THE SAFE-CABINET.

This did not happen by accident as the result of the findings of a special commission appointed to investigate the relative merits of steel filing cabinets. Their conclusions should be valuable guides to you in selection of your office equipment.

Let me give you some interesting facts about fire protection and THE SAFE-CABINET.
