THE THEATERS

Scene from "Within the Law."

Rowland and Clifford, who claim to have made nearly half a million dollars with "The Rosary," have made an arrangement with William N. Selig to make a pretentious film production of their greatest dramatic success. "The Rosary" will be staged on a very elaborate scale and the big scenes in Italy will be reproduced in astonishingly attractive style.

George H. Melford, the Kalem director and star, did three things at once. In "The Master Rogue," a two part drama which will be seen at motion picture theaters commencing

Words of Praise For Mayr's Wonderful Stomach Remedy

"How thankful we are to you for getting a hold of your wonderful Remedy. My wife could not have had but short time to live if she had not taken your wonderful Remedy when she did. One more of those paroxysms pains she was having would have killed her without a doubt. Now she is free from all pain, free from heart trouble and free from that disturbing Neuralgia—all the results of five treatments—and the expulsion of five or six hundred Gall Stones. Now she is able to eat anything she wants and her appetite is good and before taking your medicine she had no appetite and when she ate anything she would suffer death for so doing and could not sleep at night; since taking your treatment she sleeps well all night long." T. A. NEILL, Rossmore, Texas.
The above letter should convince you more than anything we could say in behalf of Mayr's Wonderful Stomach Remedy. Sufferers should try one dose of this Remedy—one dose should convince them that they can be restored to health. Nearly all Stomach Ailments are caused by the clogging of the intestinal tract with mucoid and catarrhal secretions allowing poisonous fluids into the stomach and otherwise deranging the digestive system. Mayr's Wonderful Stomach Remedy painlessly removes these secretions without a surgical operation and puts an end to Colic Attacks, Gases in the Stomach and Intestines and all of the usual symptoms of Stomach, Liver and Intestinal Ailments. Ask your druggist about Mayr's Wonderful Stomach Remedy or send to Geo. H. Mayr, Mfg. Chemist, 154 Whiting St., Chicago, Ill., for free booklet on Stomach Ailments and many grateful letters from people who have been restored.

"Within the Law," Bayard Veiller's gripping new play which The American Play Company will offer as the attraction at the Robinson Grand Saturday afternoon and night, May 2, depicts engrossingly how a pretty young woman, forced against her will into questionable pursuits, successfully applies to the underworld methods alleged to have been used by Wall Street magnates in "big business" trust building operations. In the play the young woman defies punishment by the authorities although she breaks the law at will, remaining, however, always "within the law," by employing its inequalities and technicalities as a shield for her illegal endeavors.

DANGEROUS IS WILD ANIMAL CAPTURE VERY

But That Fact Does Not Deter the Big Circus People Who Will Be Here.

Few who see wild animals in cages realize the vast amount of trouble, danger and expense necessary to get them there. The greatest danger lies in capturing the wild animals in their native country. With the Hagenbeck-Wallace shows which will give two performances in Clarksburg Thursday, May 7, there are several hundred wild animals, most of which were captured in the forest and jungles of their native country.

There is no more ticklish or dangerous task than tracking lions in the vast Nubian deserts. The scorching sun pours down with such force that few men can stand it. The effect on the eyes is blinding. There is little or no shade. The wariest and most careful hunter may be tracking an animal, and at the same time be tracked by the animal he is seeking, who may spring on him at any moment.

For capturing full-grown lions large traps of various forms are used. One trap is square, one of the sides lifting upon a spring like the old-fashioned mouse trap. This trap is baited with a piece of fresh meat, and as soon as the lion has entered the trap the door shuts down and he is a prisoner. More than a score of lions with the Hagenbeck-Wallace circus were captured in this manner.

Elephants are generally caught in nooses. A number of men surround the elephant after they have previously formed a circle of fire about the beast. The fire gets closer and closer to the elephant and finally a noose is thrown over his head. He is then remain there until quiet. Tame elephants are then brought into use and appear to be a sort of persuasive in making the huge animals tractable.

In catching snakes various devices are used. One is to set the grass on fire in a circle where it is known that snakes have hiding places. As they rush out they are caught in large nets mounted on wooden hoops to which is attached a large bag.

The war with Mexico is the predominant subject discussed here. Some say they would like to go down in Mexico and help lick them, while others say they would not go at all, and would not care if the Americans were defeated—(this from the Socialist element.)

The roads are reported to be "out of sight" on Big Rock Camp and at Wallace and Brown, right in the midst of the oil boom in that field. Horses are being "snaked" out of the mud every day, and it is all but an impossibility to haul even an empty wagon over the roads with one team. The county court has notified the people that it will not be responsible for any losses caused by the condition of the roads.
