FLEMINGTON

(SPECIAL CORRESPONDENCE)
FLEMINGTON, May 14—G. O. Sinsel, one of our leading merchants, has just completed extensive improvements in the interior of his store room by annexing a part of the ware room to the main store. The carpenter work has been completed and the entire store is being treated to a new coat of paint. When complete it will add much to the appearance as well as affording more room and better accommodations to customers. G. M. Yates is busily engaged in making improvements in the store-room of W. A. Sinsel and Son. The Rev. P. H. and Mrs. Murray returned home Tuesday from Huntington, where they visited relatives. Mrs. John Shackelford, of Clarksburg, was a guest of her parents, Mr. and Mrs. A. J. Smith, Monday. W. L. Hyson is building a new porch, which adds very much to the appearance of his residence.

INDIVIDUAL ATTENTION.
 Every high school graduate in Nebraska receives a letter from the University of Nebraska congratulating him on his graduation and urging him to consider the advantages offered by the state university.

REMARKABLE CURE FOR RHEUMATISM.

It is commonly acknowledged by all physicians that Rheumatism is caused by the presence of Uric Acid in the blood. And therefore, practically the only remedy for this condition was an expensive trip to the famous medicinal springs of Bohemia and Carlsbad, which many sufferers cannot afford. Just recently, a remarkable discovery has been made that makes it possible to concentrate all of these wonderful medicinal benefits of these springs into a powder. This powder is called LAX-URIC and can be had at Wells-Haymaker Co., Angle Inn Pharmacy, Stone & Mercer or Farrell's Drug Store. It acts as a mild, effective laxative and completely neutralizes the Uric Acid in the system thus giving almost instant relief from rheumatism. It is also excellent as a cure for all complaints arising from disordered stomach, kidneys and liver.—Advertisement.

Commencing THIS week and continuing hereafter WE will DRESS and DRAW at time of killing ALL our poultry. Note the difference in the taste of the fowls.

A SMART MOIRE.

The skirt forms the subject of this article because it is a very fashionable model for independent wear. The material should be laid open and half of the pattern laid upon it and cut out. Place the piece of pattern with line of large "O" perforations on a lengthwise thread. The stay is marked by triple "TTT" perforations and should be placed on a lengthwise fold. The lower front and back of the skirt are marked for either round or square outline. After the skirt is cut, proceed with the making. First, close the center-front seam, which is easily distinguished by the perforations. This can be piped, if desired, the fold of piping being attached on at the same time the seam is closed. The back seam is then closed, the edges being left free above single large "O" perforations for the placket. Now, adjust stay to position underneath the skirt; stitch upper edges together and gather skirt to fit the stay. The front looks well decorated with buttons of its own material.
