

# HARRY THAW MAY GO TO PITTSBURG SOON

In Custody of a United States Marshal as a Court Witness.

## JEROME LIKELY TO CONSENT

But It is Understood That Thaw Will Not Be Allowed to Remain There.

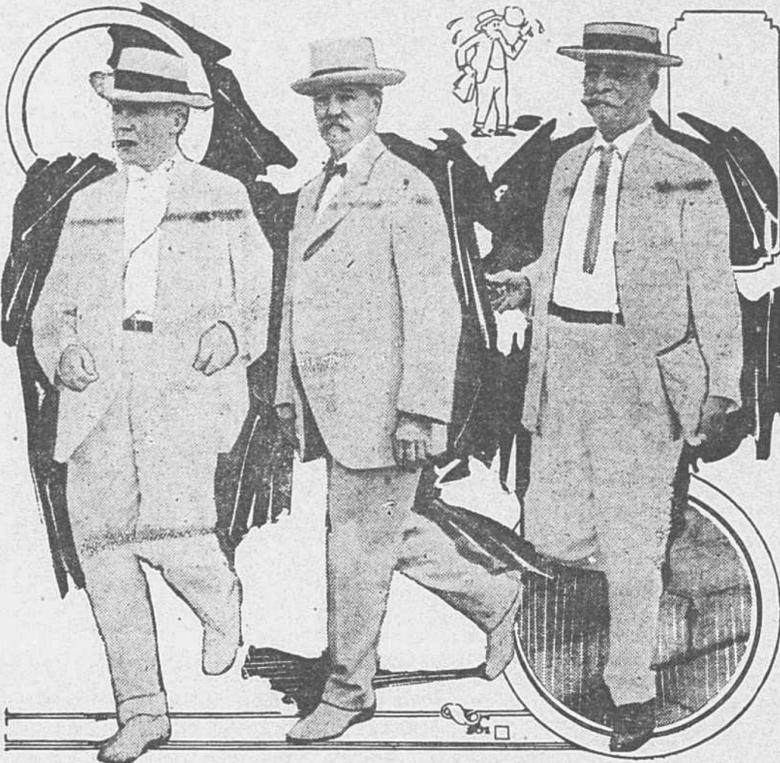

NEW YORK, June 11.—Negotiations between counsel for Harry Thaw and representatives of Attorney General Carmody, of this state, with a view to securing permission for Thaw to take the trip from New Hampshire to Pittsburgh were in progress today. Thaw's lawyers were here for a conference with William Travers Jerome, who represents the attorney general, and it was hinted that a decision might be reached permitting Thaw to make the trip. It is not proposed to free Thaw under bail for his journey but it is planned that Mr. Jerome, as a representative of the attorney general, join in an application to the supreme court for an order permitting Thaw to be taken to Pennsylvania in the custody of a United States marshal.

Thaw's request for permission to go to Pennsylvania is based on affidavits that his presence is required as a witness in the courts there.

"I don't know anything about this move to have Thaw brought here in custody of a United States marshal but it might be up because he has attorneys other than me," said former Governor W. A. Stone today. "I am acting under Thaw's directions and am trying to have him released on bail. I will not be satisfied with anything else."

"The cases in which he will be needed as a witness are those in which the trustees of the estate of the late William Thaw, his father, have decided that the stocks of the Standard Oil subsidiaries companies are 'principal' and must be added to the value of the estate. Thaw and the other heirs claim they are incomes and the amounts should be paid to them."

## SENATORS DIG UP THEIR LIGHT SUMMER SUITS AND PREPARE FOR LONG SIEGE; SESSION MAY NOT CLOSE BEFORE AUGUST 1

Three senators on a hot day. Left to right: Reed of Missouri, Cummins of Iowa and Fletcher of Florida.

Walking through the United States capitol these days one is impressed with its summery aspect. Stately senators, members of the "greatest deliberative body on earth," who are ordinarily garbed in the long black coats and shiny silk hats of statesmanship, are now seen about the building dressed in the lightest of summer wear. The statesmen are preparing for a long siege in Washington, which may not end before August 1.

# HEAVY VOLLEY FIRING IS DONE

On the Outskirts of Mazatlan by Those on Board the California Warship.

## WELL DIRECTED ATTACK

By the Mexican Rebels is to Result in the Capture of That City.

On Board the U. S. S. California, Mazatlan, by wireless to San Diego, June 11.—Heavy volley firing on the outskirts of Mazatlan was heard today. It is believed the rebels are advancing for a determined assault. A well directed attack, it is thought, would result in the capture of the city.

The discovery was made today that the breech plugs of all the federal garrison's guns at Fort Rosale, except one were missing. The artillery officer in charge has de-camped.

## ROOSEVELT'S SAFETY

From Suffragets in the City of London is to Be Carefully Looked After.

LONDON, June 11.—Fears of suffragette activities have caused the withholding from publication in London of Theodore Roosevelt's engagements during his approaching visit to England. It is known, however, that except for his lecture before the Royal Geographical Society Colonel Roosevelt at his own request will take no part in public functions while he is in London. On the other hand an extensive list of private entertainments has been arranged so that the colonel may have the opportunity of meeting prominent people whom he desires to see.

## WELCOME ARCH

For the Annual State Convention of Elks is Given a Test.

PARKERSBURG, W. Va., June 11.—The Welcome Arch, corner of Market and Fifth streets, was given a test last night, though not quite completed. White and purple lights make up the color scheme in honor of the Elks convention, and the message it bears will be "WELCOME B. P. O. E." in ornamental incandescents. Not all of the lights have been strung but the main scheme has been effectively carried out, and the effect from either upper or lower Market street is marvelously beautiful.

Meantime the other works of decoration are proceeding. The Court of Honor on Fifth street is under construction, and everywhere there are renewed signs of activity for the convention.

The line of march for the big parade has been revised and it is now arranged finally. The parade will form at the corner of Seventh and Julian streets, will pass down Juliana to Fifth, and move over Fifth to Ann, thence along Ann to Eighth, to Juliana, to Thirteenth, and to Market, and down Market to Third. From Third it will move to Juliana, and up Juliana to the officers of the State Association. The parade will continue to Eighth, where the bands will be massed and will then move to Market and pass down Market to Fifth, where it will disband and the marchers return to the Elks' Club on Juliana street. Colonel J. M. Crawford will be grand marshal.

## INSPECTION

Of the Water System of the City is Completed by the Water Board.

The water works and sewerage board has completed a thorough inspection of the water system. Recently all fire hydrants were flushed, inspected and painted. The steel equalizing tanks were emptied, cleaned and two coats of paint applied and they were put into service June 3. On Wednesday the new concrete equalizing reservoir was emptied into the city mains for the purpose of cleaning and inspection and this was accomplished practically without loss of pressure in the city. The intake chamber in dam No. 1 at the city pumping station, and the circulating basins were also cleaned and put back into service Wednesday evening.

The few dead ends remaining in the distribution system were thoroughly flushed out. The completion of the above leaves nothing to be done to improve the sanitary condition of the water supply.
