## How To Get Rid of a Bad Cough

A Home-Made Remedy that Will Do It Quickly, Cheap and Easily Made

If you have a bad cough or chest cold which refuses to yield to ordinary remedies, get from any druggist 2 1/2 ounces of Pinex, a 15-cent bottle with a pint bottle and fill the bottle with plain granulated sugar syrup. Start taking a teaspoonful every hour or two. In 24 hours your cough will be conquered or very nearly so. Even whooping cough is greatly relieved in this way.

The above mixture makes a full pint—a family supply—of the finest cough syrup that money could buy—at a cost of only 54 cents. Easily prepared in 5 minutes. Full directions with Pinex.

This Pinex and Sugar Syrup preparation takes right hold of a cough and gives almost immediate relief. It loosens the dry, hoarse or tight cough in a way that is really remarkable. Also quickly heals the inflamed membranes which accompany a painful cough, and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. Excellent for bronchitis, spasmodic croup and winter coughs. Keeps perfectly and tastes good—children like it.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in guaiacol, which is so healing to the membranes of the throat. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," do not accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. # DELUGE

Of Protests against War Tax Pours in on United States Senator Chilton.

WASHINGTON, Oct. 6.—Senator Chilton has been deluged with telegrams and petitions protesting against the imposition of a war tax on gasoline. Most of the petitions allege that a tax on the product would seriously interfere with a flourishing industry in West Virginia—the manufacture of gasoline from natural gas.

The disposition of the Senate seems to be to place a tax on the manufacture of automobiles, taxing each new car according to its horse power, but manufacturers of automobiles say this will not produce an immediate revenue as there is now little demand for new cars and that sales have fallen off tremendously on account of the war. The ways and means committee of the House is inclined to stick to the tax on gasoline. The necessity for passing a war tax measure is regarded as so great that both House and Senate will yield rather than have a deadlock and will pass a compromise measure, with possibly a small tax on automobiles and a cent a gallon on gasoline.
