GRAND ARMY

Of the Republic Would Like to Hold Annual Meeting in Clarksburg in 1917.

(By W. M. M.)

MT. CLARE, May 22.—The brief report of the Grand Army of the Republic encampment at Sistersville, as appeared in the Friday's issue of the Telegram, written on the ground at the close of the Thursday morning's session and before the afternoon excursion to Middlebourne, hardly gives justice to the occasion; for none of us knew of the treat that was in store

for us. The free transportation that furnished for the five hundred vets, including a large delegation of women from the two auxiliaries of the order, the distance of twelve miles to the beautiful town of Middlebourne, was tendered by the traction company under the personal supervision of Mr. Broadwater, its president, without compensation from any source. Upon arriving at the destination we were led to the large and beautiful high school building, which was thrown open for inspection and then all were seated in the large auditorium and entertained with a short program, consisting of addresses, music and class drills to the delight of all. We were then marched back to the court house, where a bountiful supply of ice cream and cake were served to all.

This feast was furnished by the town of Middlebourne, whose people certainly used every moment of our stay in ministering to our comfort. The many automobiles used in Sistersville in carrying us to and from the stations during our entire stay there, was furnished by that town; and our immense treat at the Pader City park on Wednesday afternoon, was furnished by Pader City.

But now comes the most humiliating task in writing this letter. Several of the Grand Army of the Republic posts were anxious to bring the next encampment to Clarksburg, on account of its wealth and central location; but we of Custer Post were afraid to call for it for fear that the citizens of the city would not give them such a cordial reception as has been accorded them at other points. Let us hope that Clarksburg will think over the matter during the next year and give us some encouragement to call for the encampment of 1917.

OIL AND GAS

Butler county is to the front with a gusher, the first the old banner county has been able to present in a number of years. The well is located on the German Lutheran church lot at Evans City, and was drilled in during the early part of the week. It showed for a good producer, but when shot did not respond and the owners decided to drill a little deeper. When drilled four feet deeper into the third

and a second pay was encountered and the well began to flow at the rate of twenty barrels an hour and the first twenty-four hours paced five hundred barrels to its credit. Nothing in any of the Pennsylvania fields has caused so much excitement since the drilling in of the Scotty McBride well.

Town lot leasing started with a rush and everything in the immediate vicinity of the church lot has been taken. On a lot eighty feet north of the producer, a rig has been completed and there is another building on another lot one hundred feet south-east. Farm owners are leasing or holding out for a large bonus. A twenty-five acre lease of the Sutton farm was taken by Pittsburghers for which they paid a bonus of \$2,500. With the prospects of getting good producers, operators have lost sight of the low market.

Light wells are the offering in the West Virginia fields. On Trace Fork, Duval district, Lincoln county, the Wayland Oil and Gas Company has drilled its test on the L. R. Pauley farm through the Berea grit and will have a pumper good for less than five barrels a day. On Habbit Fork of Trace Fork, the same company has completed a test on the Hannah Paul farm and has a light pumper in the same formation. On Sam's branch of Indian Creek Elk district Kanawha county, the Ohio Fuel Oil Company has completed and shot No. 8 on lease No. 2 on the W. G. Morris farm and it produced 40 barrels the first twenty-four hours from the Weir sand.

In Big Sandy district, Kanawha county, the United Fuel Gas Company has drilled its test on the L. L. Gander farm through the Big Injun sand and has a gasser. In Curtis district, Roane county, G. L. Cabot has drilled a test on the W. J. Crisp farm through the Berea grit and has a light gasser. In Smithfield district in the same county the South Penn Oil Company has drilled No. 8 on the J. G. Greathouse farm through the Big Injun sand and has a five-barrel pumper. On Warrior's Fork, Mannington

district, Marion county, the South Penn Oil Company has completed No. 8 on the G. M. Ice farm and has a five-barrel pumper in the Maxon sand. In the same district, the same company has drilled No. 2 on the E. Wilson farm into the Big Injun sand and has a show for a 10 or 15-barrel pumper. In Greenbrier district, Doddridge county, the Hope Natural Gas Company has drilled a sand gasser on the Joshua Smith farm to the Gordon sand and has a light pumper in the lower sand.

In the old Seo field in Rumley township, Harrison county, Ohio, Brenner and Company have drilled a second test on the Henry Meyer farm through the Berea grit and have a light pumper. The location is seven hundred feet southeast of No. 1 on the same farm. In the same pool and in the same township, Bert Cameron and Company have started to drill a test on the Phillip Shambaugh farm, located 1,000 feet west of production. At Junction City, Perry county, the Luper Oil Company's No. 2 on the J. P. and Metzger farm is holding up at 50 barrels a day.

The Oil Market. Pennsylvania, \$1.35; Mercer, black, .97; New Castle, .97; Corning, .83; Cabell, .97; North Lima, .88 South Lima, .83; Princeton, .84; Wooster 1.05; Indiana, .83; Somerset, .80; Ragland, .63; Illinois, .54; Kansas, .49; Oklahoma, .49; Corsicana, light, .45; Corsicana, heavy, .40; Electric, .45; Healdton, .30; Henrietta, .45; Caddo, 38 degrees, .50; Caddo, 35 degrees, .50; Caddo, 30 degrees, .40; Caddo, crude, .95; Canada, 1.38. Producers and Refiners' Company quotes \$1.35 for crude of the Pennsylvania grade.

"It Must Be Right"

Do You Judge a Tree By Its Foliage-- Or By The Fruit It Bears?

Do you judge an automobile by the color of the paint, or by the consistent service and cost of upkeep? Do you judge Life Insurance by the cost of the premium—or by the protection you get? Do you judge a gas well by the cost of drilling—or by the volume of gas it makes? Does low price give you the satisfaction that good quality does? THEN WHY JUDGE AUTOMOBILE TIRES BY THEIR PRICES? You cannot get something for nothing. You get exactly what you pay for. You cannot get REPUBLIC QUALITY at less than REPUBLIC Price. No tire is any better than the actual Mileage you get out of it. Have your Tires Vulcanized today—not tomorrow. Tire service within a radius of 10 miles without any extra cost. All adjustments on tires made at home.

The Kokomo Six \$1550

A Big, Light, Seven Passenger Touring Car

—that glides along the level boulevards in perfect silence; that mounts the steepest grades with power to spare; that may fly over the country roads all day long at sixty miles per hour; that may creep through the crowded, congested districts of the city at one mile per hour on high gear—slower than you walk; such is

This car is built to endure, yet has the simple stream lines of good taste. There is ample leg room and the cushions are at the proper angle for the comfort of the tourist. The extremely long springs give an ease in riding that is unsurpassed.

The Kokomo "Six" is complete in the most minute detail. The experience of twenty-two years in actual automobile building has made it so. It is extremely simple. Any owner may take care of this car.

With the exception that it has 127-inch wheelbase, 35 x 4 3/4-inch tires and weighs 3050 pounds, The Kokomo "Six" is the same in every respect as the Haynes Model 30, the car whose remarkable performances have proven its right to the name, America's Greatest "Light Six."

Two Models—Three Body Styles

Model 30—America's Greatest "Light Six"—5 passenger touring car, 127-inch wheelbase, weight 2550 pounds. Price, f. o. b. Kokomo, Ind. \$1485. Model 33—The Kokomo "Six"—7 passenger touring car, 127-inch wheelbase, weight 3050 pounds. Price, f. o. b. Kokomo, Ind. \$1550. Model 30—The Prettiest Roadster in America. Price, f. o. b. Kokomo, Ind. 1485
