STREET BASKETS.

Street baskets cost money, but they are cheap when it comes to facing Mayor Gordon on a charge of violating the city laws.

Our city council has gone to the expense and trouble of placing upon the sidewalks of the city STREET WIRE BASKETS to protect those who may have a paper bag, peeling paper or other small parcel of filth from throwing the same upon the city street or sidewalk in violation of the following ordinance:

19. It shall be unlawful for any person to place or deposit any earth brick or stone (except for building purposes) coal, wood, ashes, lime, mortar, shavings, paper, garbage, decaying animal or vegetable matter, manure, or filth or rubbish of any kind, upon any street, alley, road, sidewalk or public square within the city; and every violation of this section shall be punished by a fine of not less than one dollar nor more than ten dollars.

Mayor Gordon and Chief Brooks have instructed the Police to keep an open eye for violations of this ordinance and must be broken up.

The GLOBE

HUGE LIBRARY IS DEDICATED AT HARVARD

Is Memorial to Titanic Victim and Third Largest in Country.

CAMBRIDGE, Mass., June 24.—The Widener Memorial Library, ranking third among the libraries of this country in the number of volumes which it will accommodate, was dedicated with simple exercises at Harvard University today.

The monumental structure is the gift of Mrs. Eleanor Elkins Widener of Philadelphia, in memory of her son, Harry Elkins Widener, a member of the Harvard class of 1907, who lost his life in the Titanic disaster. Specifically intended to house the rare collection of books bequeathed to the university by Mr. Widener, the building was planned on a scale to care for the entire Harvard library, with allowance for great enlargement in the number of books.

The building, standing within the college yard near Massachusetts avenue, is on the site of the old Gore Hall, the former library building, which was torn down. In style and material it harmonizes with the Colonial hall in its immediate vicinity. The exterior is of brick and limestone, with long, square-headed windows, Romanesque arches and Corinthian columns. The outside measurements are 250 by 200 feet.

The marble colonnade of the entrance hall and a broad marble staircase lead directly to the central section, where the Widener collection is located. Within the vestibule are two simple memorial tablets, and in the entrance hall is a tablet placed by the class of 1907 and bearing a suitable inscription.

Glass Book Shelves. The memorial section consists of two rooms, which will house the Widener collection, over a marble-framed fireplace, is the portrait of Mr. Widener, by Ferrier, the Paris artist. The book case in this room have plate-glass shelves and bronze sashes. The outer room includes the office of the special librarian and the collection, George F. Winslip, who served for twenty years as librarian of the John Carter Brown library at Brown university.

On the first floor are the offices of William C. Lane, the college librarian, and Prof. Archibald C. Coolidge, director of the university library; the "treasure room," equipped with metal book cases, and a room for the library council. The stairways at the sides lead to the reading room, 192 feet long, with soft-toned glass skylights; the card catalog and delivery room and the periodical room. The book stacks extend through eight low-studded stories, and space has been reserved in the basement for two more floors of stacks, for future needs.

On the third floor are room for special collections and departmental libraries, a photograph room and a map room. Seventy studies for professors and 200 reading stalls for research students are placed close to the stacks.

Are Rare Books. The Widener collection contains about 3,000 volumes. All of these are rare books, gathered by Mr. Widener through tireless search of this country and Europe. Among them are a Shakespeare First Folio a famous Caxton, the English Bible of 1550 and a first edition of Burton's "Anatomy." There are also many first editions of famous American writers, each autographed by the author.

The task of moving the books of the Harvard library from the buildings where they have been temporarily housed begins today. It is estimated that more than six months will be required to complete the moving and arrangement of the volumes. The library, however, will be ready for working use when the college term opens on September 27, and during the summer most of the rooms will be open to the public.

Out of 817 playing members of 24 Scottish Rugby football clubs, 638 have joined the colors.

Greatly Benefited by Chamberlain's Liniment. "I have used Chamberlain's Liniment for sprains, bruises and rheumatic pains, and the great benefit I have received justifies my recommending it in the highest terms," writes Mrs. Florence Silfr, Wabash, Ind. If you are troubled with rheumatic pains, you will certainly be benefited by Chamberlain's Liniment. Obtainable everywhere. — Advertisement.

Stout. 2:50—Song service. 3:00—Report of committees and election of officers. 4:00—Adjournment. Dinner on the ground.

Many Die Needlessly In Search for Health

Tuberculosis Can Be Cured without Hunting a New Climate Says Association.

NEW YORK, June 24.—From 10,000 to 15,000 consumptives go West in search of health every year. Such is an estimate made by the National Association for the Study and Prevention of Tuberculosis in a statement issued today based on recent investigations of the United States Public Health Service.

Investigations were made during the past year by surgeons of the United States Public Health Service, E. M. Carrington in California, E. A. Sweet in Texas and New Mexico, and A. D. Foster in North and South Carolina. The national association draws the following conclusions from these studies:

- (1) Thousands of consumptives attracted by the climate migrate every year to the west and southwest. While no definite figures can be procured, the acts ascertained would indicate an annual migration of at least 10,000 and possible 15,000 into the states of California, Arizona, Colorado, New Mexico and Texas. Many Hopeless Cases. (2) From 30 to 50 per cent of these consumptives are hopeless cases and die within six months after their arrival, the percentage of those dying within 30 days running as high as 15. (3) A large, but unknown percentage die in almshouses or are the recipients of charity, and the great majority of these could have been made comfortable in their last days if they had stayed at home among friends and relatives. (4) From 40 to 90 per cent of all deaths from tuberculosis in the west and southwest are of natives of other states, nearly fifty per cent coming from Illinois, Missouri, Ohio, Kentucky, Tennessee and New York. (5) People who can afford it and who are not in too far advanced stages of tuberculosis will find the climate of the west and southwest an aid in the treatment of tuberculosis. Delay Dangerous. (6) No one should think of going west of southwest for his health unless he has at least \$1,000 above his railroad fare, and can leave his home in comfortable circumstances; and no one should go who is in an advanced stage of tuberculosis or who has not taken careful medical advice. (7) Tuberculosis can be cured in any part of the United States, and it is far better for a consumptive of moderate means, such as the average workman, to go to a sanatorium near at home, than to go west and live in a more favorable climate without proper food or medical care. (8) Finally, there may be plenty of jobs in the west and southwest for jobless men, but the consumptive will find the greatest difficulty in getting work, and no one should go west therefore in the hope of getting a job.

OUR FRIENDS IN ADAMSTON

Give Added Praise, Their Statements Are Convincing.

It is gratifying for us to read such good news as the following, for it shows that the experience of our friends in Adamston is the same as that of many Clarksburg men, and some who have spoken out so heartily in these columns: Mrs. Virginia Snider, Box No. 237, Adamston, W. Va., says: "I had severe dizzy spells and spots often appeared before my eyes so that I could hardly see. When I stooped, I had to catch hold of something to help me. My ankles were badly swollen. I had severe headaches, too. I used doctors' medicines, but got no relief and when I was advised to try Doan's Kidney Pills, I did. The first box helped me so much, that I got another and then a third. Three boxes were enough to relieve the trouble. The swelling left my ankles and I had no more pain or dizziness. I was relieved of the kidney weakness, too." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Snider had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

R. T. Lowndes Department Store ESTABLISHED 1831

We have just received a few pieces of dainty figured Splash Voile, as this material is in so great demand we feel lucky in being able to supply you with it, we advise you to call and see it early, as we have only a limited number of yards.

THE PRICE To be independent one must pay the price, which is industry and thrift. For the vast majority of us, the only road to competence lies through hard work and economy. 4% On Savings The Union National Bank Capital - \$500,000.00 Surplus - \$200,000.00

FACTS DO NOT JUSTIFY HORROR OVER LEPROSY

Less Dangerous Than Many Other Diseases Says Dr. Montgomery. SAN FRANCISCO, June 24.—Horror of leprosy is an inheritance from the middle ages and is not justified by the facts, said Dr. Douglas M. Montgomery, of San Francisco, in a paper presented this morning before their sixty-sixth annual session of the American Medical Association.

The growing economic and industrial importance of public health work was emphasized by several speakers. Sickness insurance was advocated by Dr. B. S. Warren, of the United States Health Service, as a means of overcoming the handicap of poverty among wage earners.

Dr. Warren showed that disease is more prevalent among low paid workers than among better paid and that fully one-half of the wage-earning families of the United States do not have an income sufficient to maintain a healthy standard of living.

Watch Your Children

Often children do not let parents know they are constipated. They fear something distasteful. They will like Rexall Orderlies—a mild laxative that tastes like sugar. Sold only by us, 10 cents.

For the 4th Wearing Apparel of Metropolitan Distinction—from Horne's

OUR APPARELING SHOPS for men, women and children offer selection of styles which are at once individual and desirable. Garments in our stocks are chosen by style-experts, persons trained to know the wheat from the chaff.
