GERMANS TAKE ANOTHER POLISH FORTRESS

RUSSIANS FIGHT ENEMIES IN VAIN

To Check the Onrush of the Austrian and German Troops in Poland.

MYSTERIOUS SEA BATTLE

French Admit Their Inability to Hold the Lens-Arras Cross Roads.

LONDON, Aug. 21.—The Russian field armies are fighting desperately but vainly to check the onrush of the Germans and Austrians. Novogeorgievsk, the last Polish fortress to hold out, has fallen. Ossowetz, to the north of Poland, has resisted the invaders this far only because of the marshy nature of the surrounding country which prevents the Germans from employing their heavy guns effectively. South of Brest-Litovsk Field Marshal von Mackensen's forces have penetrated far beyond the Bug. Other German armies east of the river render a serious Russian defense along the Bialystok-Brest-Litovsk line virtually impossible. The mysterious naval battle in the gulf of Riga was still in progress at the time of the latest report from Petrograd, which, however, gave no details of the magnitude of the action.

Along the other fronts no important changes are recorded with the exception of the French admission of inability to hold the Lens-Arras cross roads.

The diplomatic problem in the near East has been brought appreciably nearer a solution by the formation of a Greek ministry under the premiership of M. Venizelos and the indications that the uncompromising attitude of the military faction in Serbia against Bulgaria's claims are being broken down.

After forty-eight hours of unusual activity, resulting in a heavy toll of merchantmen traversing the naval war zone, German submarines apparently have been withdrawn to their bases. Relief is expressed that the White Star freighter, *Bovic*, is safely in port. It is now definitely established that only two Americans, who were passengers on the *Arabic*, are missing.

ITALIANS VICTORIOUS IN BATTLE IN THE AIR

PARIS, Aug. 21.—Italian aeroplanes defeated an Austrian air squadron off the Adriatic coast according to a despatch from Turin. Three of the Austrian machines were brought down. The despatch says that the Italian squadron forced an engagement upon the Austrians after a long chase. The Italian aviators returned to their base without loss or injury.

ZEPPELIN IS BROUGHT DOWN BY RUSSIANS

LONDON, Aug. 21.—Russian gunners have brought down a Zeppelin that of a steward. The bodies had to be taken to a Petrograd despatch. The despatch continues: "The airship was hit four times. It contained the pilot and engineer together with eight sailors, a machine gun, bombs, incendiary darts and apparatus."

RECESS TAKEN

The county court took a recess Friday evening until Monday morning. The court expects to adjourn the term Wednesday.

IS MINISTER AGAIN TO SANTO DOMINGO

William W. Russell, who was asked by W. J. Bryan to retire from the post of minister to the Dominican Republic in order that James M. Sullivan, a more "deserving" Democrat, might be appointed to the place, has now been reinstated by President Wilson. Sullivan recently was forced to retire because of charges preferred against him. Mr. Russell is a native of Washington and has been in the American diplomatic corps for years, working up to the grade of minister from that of secretary.

WAGE SCALE COMMITTEE IS GETTING READY

For the Struggle over the Annual Scale of Wages of the Operatives.

PITTSBURGH, Aug. 21.—The Glassworker says: "And now comes the reconnoitering and preliminaries of the window glass scale conference at which the wages for the blast of 1915-16 are to be determined. 'The manufacturers' wage committee will meet next Wednesday and Thursday in Pittsburgh at the Fort Pitt hotel."

"The National wage committee, representing the workers, will hold a conference the following week, Tuesday, August 31, at Cleveland, O. 'Just when the two committees will hold a joint conference is unknown at present."

"There is a vital need for next week's meeting, for unlike the workers' committee, the manufacturers do not know yet exactly what they want, or what they are going to do. There are some changes in this year's committee, and it is on that account probably that next week's meeting has been called, to enable the members of the committee to get well acquainted and to try to formulate a well defined plan of action."

"This year's manufacturers' wage committee consists of H. R. Hilton, C. H. Baker, George Schlostein, Leopold Mambourg, John Schoy and P. Hockstrasser. 'The men composing the workers' wage committee are J. M. Neenan, president; Charles Bryant, secretary; Walter H. Brown, Redwood City, Cal.; George Fairfield, Morantown, W. Va. blowers; Arthur Vandermess, Point Marion, Pa., and Joseph E. Dixon, Huntington, W. Va. gatherers; Charles Beebe, West Union, W. Va., and Charles F. Barth, Adamston, W. Va., flatteners; Shreve Ames, Independence, Kan., and John I. Githens, Utica, O. cutters."

"It is a foregone conclusion that the manufacturers' committee will resolve to make a effort to secure a reduction in the scale. This move has been talked over more or less tentatively for some time past and is open secret that such a demand will be made."

"On their part, the workers' committee will present a solid front not only against a reduction but for an increase in wages. 'They have prepared a table of statistics for the blast of 1914-15 to show that the average amount of wages received by window glass workers for the blast was \$726.51, and that the average number of employment weeks was 23 1/4."

BLOODHOUNDS

Are Put on Trail of Man Who Damaged Pool Tables at Orlando.

Sheriff Ross F. Stout's bloodhounds went taken to Orlando Saturday morning and placed on the trail of a miscreant who broke into Skinner's pool room there some time ago. The night and cut the covers and cushions of the pool tables into ribbons, besides doing other damage. The same depredation was committed in the same pool room a few months ago and bloodhounds trailed a scent to the abode of a young man in the town who was arrested and tried for the offense but who was acquitted. The only evidence that could be produced at that time was that the bloodhounds followed a trail directly to his home.

STOUT SAFE

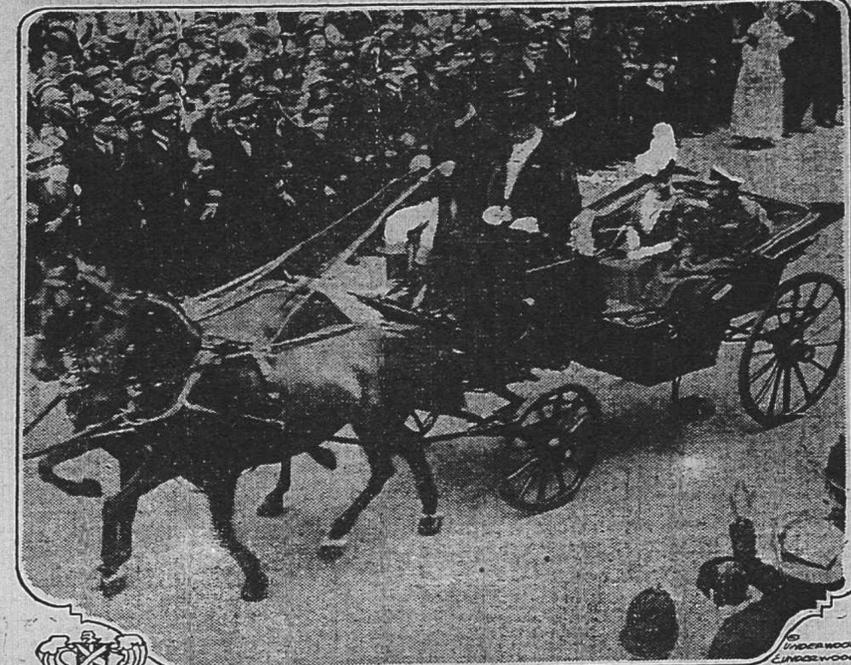

Missing Man is at the Home of His Mother Now.

PARKERSBURG, August 21.—Porter Stout, who left Clarksburg last Sunday morning on his motorcycle in company with his brother, Chester Stout, and who, later, was reported missing, is here at the home of his mother and safe. He was not heard from for several days and it was thought that he might have met with an accident or possibly foul play. However, he simply had trouble with his engine and finally got stuck in the mud so badly on Red Hill that he was forced to abandon his trip by motorcycle. He walked to this city and later returned for his machine.

WINDOW GLASS MARKET QUIET IS THE REPORT

Given Out by the Glassworker, a Pittsburg Trade Publication.

PITTSBURGH, Pa., Aug. 21.—The Glassworker says: "Not dead, nor comatose, but rather sleeping sweetly seems to best describe the window glass business during the last week."

"There is some business, dealers and jobbers emphatically aver it, but there is not enough to bathe whole office forces in perspiration. There are inquiries, and coy hints at future transactions, and an occasional sale. For some reason the men on whom big contracts depend are most reluctant to affix their signatures to orders. They will need the glass before long, but they seem to think that maybe there will be some price shading. The chances of anything of the sort are not promising, for the stocks on hand are not large, and judging from the temper of manufacturers and jobbers all over the country there is a strong revulsion of feeling against the ruinous price cutting that was indulged in last year and a disposition to firmly maintain market prices."

"The movement to secure a more equitable term of operation between the hand and machine plants is steadily gaining ground, and this presages a production for next year based largely upon the domestic demands. The mirage of foreign trade is constantly growing more indistinct. While the war lasts and the unsettled transportation conditions obtain, the difficulties attending the exportation of glass to Europe or South America are likely to operate as a damper to any thoughts in that direction."

LOCAL AGENT

For Remington Standard Typewriter Company is Arrested at Fairmont.

L. A. Huffman, of this city, agent for the Remington Standard Typewriter Company, was arrested Friday at Fairmont by Constable F. Frank Russell on a charge of stealing one of the Remington machines worth \$5 from L. G. Giordani. He furnished bond for a hearing before Justice Musgrove at a later time.

Trouble occurred over the machine when the agent tried to take possession of it when payments were not made promptly. It is said the man who purchased the machine has left the city leaving the machine with his brother after making four payments. Huffman had possession of the machine Thursday, but later it was secured by Giordani again. Huffman then brought suit before Justice Fleming and the machine was again delivered to Giordani when he gave a forthcoming bond against the detinue proceedings of Huffman.

Later a warrant charging Huffman with attempting to steal the machine was issued by Justice Musgrove. The case promises to be interesting when it finally comes up for disposal.

Several passengers said the periscope of a submarine had been seen but officers of the *Cymric* declined to discuss this assertion.
