Subscription Rates: Daily, per week \$4.00; per month \$12.00; per year \$120.00.

Change of Address: When changing address give old as well as new address.

Monday, August 30, 1915

An Evening Echo: It is one thing to show a man that he is in error and another to put him in possession of the truth.—LOCKE.

Seaman's Bill Worries: The attorney general, after musing over the seaman's bill for many moons, has finally submitted his opinion to the president.

Truth in Advertising: The advertising club movement, which is embodied in the Associated Advertising Clubs of the world, is really a sincere endeavor.

McAdoo's Cotton Scheme: The announcement by Secretary McAdoo of his purpose to loan without interest \$30,000,000 in gold to three southern federal reserve banks.

The School Plant and Recreation: Men will not tolerate in a public school building a performance they might witness without protest.

Statistics gathered by Dr. Perry from forty-five leading cities in the United States show that in one month there were over 800,000 attendances upon evening functions in the public school buildings of these cities.

mean so many evenings spent in wholesome activity by persons many of whom would otherwise have spent that time in less beneficial or in positively harmful pastimes.

"The public character of all functions held in the school buildings has the effect of censoring these functions," asserts Dr. Perry.

"Unfortunately," says Dr. Perry, "a large number of young people, in the heyday of life, are devoting their ample margins of energy to passive amusements and degenerating satisfactions."

"The man who cuddles his Red Raven split the next morning, and the housewife who tempts his appetite with a batch of baking-powder biscuit reap no benefit from the tariff law which handicapped a legitimate industry."

Reading some more, one finds this paragraph in the article: "There is scarcely a minute in the day that some Italian is not making inquiries about the war and making arrangements to leave for his native land."

"Yesterday twenty-five Italian reservists from the Clarksburg-Triplemont coal region left for New York, bound for Italy."

"Made-in-America Policy: How one industry in this country has been ruined due to the lack of plain American sense on the part of those gentlemen whom the country, in 1912, inadvertently empowered to dynamite our protective tariff wall."

Quoting from this article: "Imports of tartaric acid for the fiscal year 1914 amounted to \$485,750 pounds, and of cream of tartar to \$12,257 pounds, figures that reveal a remarkable increase over the 73,942 pounds and 65,178 pounds, respectively, recorded for the previous year."

"The figures may not look very big to the layman, but a pound of such material goes a long way, and when it is said that the estimated manufacture in this country of tartaric acid is 3,000,000 pounds, the ratio of importation can be appreciated."

"The teaching staff and other machinery of the public schools are dedicated by the people to a betterment service," says Dr. Perry, "therefore, society will not permit the building erected solely for that purpose to be open to a contrary use."

A pertinent suggestion was offered by several California firms, who said: "No doubt you will agree with us that

tariff provisions should be enacted which, at best, can procure but a very slight reduction in cost for the ultimate consumer by destroying a domestic manufacturing industry, and with it the market for a domestic raw material, with consequent loss to American labor interested in both."

Did the ways and means committee heed this advice? Nary a head. A bunch of Italian importers from New York City subsidized by the Italian government and assigned to promote the industry of Italy, called the Italian Chamber of Commerce, got in their good work, and the thirteen Democratic legal lights whose oil came from the White House and whose wicks were trimmed by Oscar Underwood, adopted practices for all the recommendations of this chamber.

WHAT'S THIS? CHRISTMAS ON DECEMBER 25?

Only 117 Days Before Yuletide and Shoppers Should-Get Busy.

Christmas, this year, will fall on December 25, as is the universal custom, and the great war in Europe, as well as the troubles of lesser degree in Haiti, with high times in prospect in Mexico, makes it urgent that the people do their Christmas shopping early!

Christmas worrying always precedes the Christmas shopping, so there really is no good reason why the people shouldn't begin their Christmas worrying right today, even if they are inclined to follow the natural bent and put off the Christmas shopping until later.

There will be plenty of Christmas gifts this year. That is, plenty of gifts for sale. The plenitude of gifts, of course, depends, as usual, on the avoidability of one's purse.

Remember, 117 shopping days in Christmas. There is the reminder, in black and white, Skidoodle the alibi and do your Christmas thinking now.

N. E. Don't entertain any fears as to a possible shortage in the supply of German toys. Look at all the Swiss cheese that comes from Zanesville, O.—Philadelphia North American.

CHALMERS CAR NOW EXHIBITED

Coleman Garage Company Man Drives One Here from City of Cleveland.

C. T. Coleman, of the Coleman Garage Company, whose garage is on South Second street opposite the Heat and the Clarksburg fair, Mr. Coleman took his time in coming from Cleveland but made the trip in two days.

The Chalmers "six-40" seven-passenger is practically the only new car that has been announced this year in the medium priced field. It is claimed for it that it is the only new car announced this year at any price which has a principle of construction that has been proved for years, both in this country and abroad.

The "six-40" has a new design which gives it a distinguished appearance, as well as all the style and beauty for which Chalmers cars are noted. Many new and practical ideas have been incorporated in its construction; it is equipped with an entirely new type of motor; and most important of all, it is as comfortable as your favorite chair. The roomy construction of the body, the upholstery and the spring suspension have been worked out and developed to such an extent as to make its riding

The Watts-Lamerd Co.

qualities as sensational a feature as its motor. The local company expects to receive a carload of these cars within the next few days.

STARTLING NOVEL

"The Pirates of the Sky" is to Be Published in the Pittsburgh Dispatch.

The most thrilling and momentous novel written since Rider Haggard's "King Solomon's Mines," is "The Pirates of the Sky," a speculative tale of fiction by Stephen Gaillard, who writes of the possibilities of aircraft in brigandage. With a well-worked-out plot the author has shown what might ensue if outlaws were to gain control of the largest and swiftest aeroplanes known to the world. The story tells of raids on the principal American cities, where with bombs and gunnery the inhabitants were terrorized and then the banks looted, etc. Millionaires and women are kidnapped and carried off to an inaccessible valley in South America. The band of cultured outlaws has sworn to overturn all governments. The chief is a Russian nihilist, Disensions and intrigue enter the oath-bound society, and its disintegration has already begun when an Indiana aviator and a Chicago newspaper reporter find the lair and with the help of earthquakes and volcanic eruptions clear the world of the greatest enemy. A pretty love story runs through an all-absorbing plot. "The Pirates of the Sky" will be given serial publication in the Pittsburgh Dispatch, Monday, September 6, 1915. Consult your newsdealer or write the Pittsburgh Dispatch, Pittsburgh, Pa.

Every month a thousand tons of firewood is sent to the British troops in France and Belgium.

REAPING BENEFIT

From the Experience of Clarksburg People.

We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Clarksburg residents on the following subject will interest and benefit many of our readers. Read this statement: "King Solomon's Mines, 176 First St. Clarksburg, says: 'Four years ago I began to have trouble from my back and kidneys. The kidney secretions were irregular in passage and very unnatural. I had severe backaches and pains all through my body. Headaches, dizziness and nervousness bothered me, too. I tried different kinds of medicine and doctored, but wasn't helped much. Fortunately, I saw Doan's Kidney Pills advertised and got some at Wells and Haymaker's Drug Store. They helped me right away and I continued using them until I was greatly relieved.'"

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. White had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.
