OIL AND GAS

Conditions in the oil industry are improving and with a further advance in the market the improvement will be reflected in the resumption of development work in the various fields.

The signs most apparent of the revival of interest at this time are the efforts producers are putting forth to get the old wells in shape to make them produce to the limit of their capacity.

In the Dorseyville district, in Indiana township, Allegheny county, Pennsylvania, the America Natural Gas Company has now drilled its test on the J. Haas farm through the 30-foot sand and the well is producing at the rate of about eight barrels an hour.

In the Mount Morris district, Dunkard township, Greene County, Jesse L. Gerard has drilled a test on the O. Henderson farm into the Dunkard sand and has a gasser.

Despite the fact that West Virginia has more work under way and starting than any other State in the Eastern fields, operators at this time are not rewarded with anything better than light producers.

In the Mount Morris district, Dunkard township, Greene County, Jesse L. Gerard has drilled a test on the O. Henderson farm into the Dunkard sand and has a gasser.

With the completion of this well, development work in the Mount Morris district is a need for present.

Grape-Nuts

It is concentrated nourishment made from whole wheat and malted barley.

It supplies all the nut-ment of these wholesome grains, retaining all the vital body-building salts—potash, lime, iron, etc.—lacking in white bread and many other foods, but which are absolutely necessary to rebuilding of sinew, brain and nerves.

Grape-Nuts is partly predigested in its making—hence demands but little effort from the digestive organs.

Delicious and splendidly satisfying, it's the ideal school ration for children—a wonderful re-builder for adults.

Company has now completed its test on the James Kendall farm and has a very light number in the 30-foot sand.

In the shallow sand territory in the Chester Hill district, Fairfield township, Washington County, Lawrence Stephens has drilled No. 3 on the Jesse Bailey farm through the Big Injun sand and found nothing in that formation.

There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Cataract to be a constitutional disease, and therefore requires constitutional treatment. Hall's Cataract Cure, manufactured by F. J. Cheser & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars reward for any case it fails to cure. Send for circular and testimonials.
