YOUR BRONCHIAL TUBES

When a cold settles in the bronchial tubes, with that weakening, tickling cough, immediate treatment is very important. The breath seems shorter because of mucous obstructions; usually fever is present, your head jars with every cough and your chest may ache. This is no time for experimenting or delay—you must get Scott's Emulsion at once to drive out the cold which started the trouble, and it will check the cough by aiding the healing process of the encrusted membranes.

If you have any symptoms of bronchitis, or even a stubborn cold, always remember that Scott's Emulsion has been relieving this trouble for forty years. It is free from alcohol or drugs. Refuse substitutes.

HOLDEN IS ORDERED TO FILE SCHEDULES

Biggest Bankruptcy Case Meeting for Years is Held at Parkersburg.

PARKERSBURG, Jan. 4.—One of the most largely attended bankrupt case meetings held here in years took place at the first meeting of the creditors of W. J. Holden, the extensive live stock dealer and timber merchant, who was forced into bankruptcy through an involuntary proceeding instituted by some of his creditors.

Prominent farmers and stockmen from a number of counties throughout the state were present, as well as attorneys representing the creditors and others were also present. Over \$90,000 in claims were submitted to the referee, T. A. Brown, at the meeting, but it was said that this is not nearly the whole amount, one stockman stating that he would not be surprised if the aggregate liabilities will amount to \$200,000.

Mr. Holden has large assets. One of the creditors present stated in the meeting when the matter of a bond for the trustee was being discussed that Mr. Holden owned a farm of 300 acres in Harrison county, which is worth from \$20,000 to \$25,000; that he owns a farm in Calhoun county and two pieces of real estate in Glimmer county, and other property, but they were unable to estimate the aggregate value of the estate, though it was believed to be approximately \$50,000. It was told at the meeting that the largest sales made by Mr. Holden of the stock which he had taken up from the farmers was during the month of September last, when it was estimated that he sold stock in the East to the amount of about \$75,000, which is an evidence of the extent of his transactions.

The trustees, as already stated, are Levin Smith, of this city; M. G. Sperry, of Parkersburg; and G. M. Stathern, of Weston, their bond being fixed at \$20,000. Referee Brown announced that he would increase the amount as the necessity demanded after the filing of the schedules of the defendant and the report of the appraisers of the property of the defendant. Referee Brown announced also that he would issue an order directing the defendant to file his schedules by Saturday of this week, and the meeting was then adjourned until January 13, when the matter of the examination of the bankrupt will be taken up and the examination made.

For the appraisers of the estate out of the five who had been placed in nomination, Referee Brown selected two before the adjournment of the meeting. They are W. H. Westfall, of Harrieville, and DeCoets Smith, of Weston. He announced that he would name the third man later. The others to select from are A. G. Matthews, of Grantsville; C. T. Smith, of Parkersburg, and John C. Robinson, of Harrison county.

Prevent Diphtheria. A sore throat is a good breeding place for diphtheria germs. Protect your children by never neglecting a Sore Throat. You can wisely depend upon TONSILINE. Give Tonsiline upon the first appearance of Sore Throat—don't give Diphtheria a chance in that throat in its weakened condition. When TONSILINE is swallowed it comes directly in contact with the diseased surface and induces a healthy condition of the membranes—then the system can better defend the throat if attacked by Diphtheria germs. Keep TONSILINE in the house where you can get it quick when needed.
