OF INTEREST TO WOMEN

Lye as a Cleanser. Pulverized lye can be bought in cans with perforated tops. It is so useful in the household that no housekeeper can afford to be without it. If put into the sink it keeps the drain clean, the lye uniting with grease and making a soap. It is invaluable for removing grease and stains from pots, pans and kettles and especially the garbage pail, which which should by all means, be kept clean. A long-handled dish mop should be kept on hand to be used when cleaning with lye, as it is exceedingly injurious to the hands.

WEST VIRGINIA TAKES PART IN CAPITAL NEWS

Events of Washington, D. C., Are Reported by Telegram's Correspondent There.

WASHINGTON, April 22—Judge L. N. Tavener, of Parkersburg, is in Washington for a short stay and is a guest of Mrs. William D. Kraft at her home in the Beacon.

L. B. Bryden, one of West Virginia's prominent coal operators, is in the city looking after business interests, and will return to his home

Congressman Sutherland has been the recipient during the last week or so of a number of letters from different parts of West Virginia asking for information as to his vote on the Burnett immigration bill, whether for or against it. The Burnett bill is one in which West Virginians were particularly interested, each of the congressmen from the state having been asked to file petitions in its favor, from all sections. There seems to have been a misunderstanding as to Mr. Sutherland's position in the matter. Mr. Sutherland voted against the literacy test clause of the bill when it was discussed, but when the final vote was taken voted for the entire bill, including the literacy test clause.

Mr. and Mrs. D. R. Weller, former Parkersburgers, whose home is now in Baton Rouge, La., where Mr. Weller is one of the high officials of the Standard Oil Company, arrived here Thursday. Mr. Weller has gone to New York, where he will remain for two weeks on a business trip, during which time Mrs. Weller will be a guest of her mother, Mrs. William D. Kraft.

Through the interest of Congressman Sutherland the House committee on invalid pensions has returned a favorable report on an appeal bill granting a pension to Margaret J. Dovener. Mrs. Dovener is the widow

Representative and Mrs. H. H. Moss have returned from a visit with friends at Annapolis. They were gone a week, and Judge Moss's health was greatly benefited by the rest and change of scene.

Edward L. Willis has been appointed postmaster at Coal Fork, Kanawha county, succeeding William D. Lewis, Jr., who resigned; William A. Brown at Piny, vice Robert G. Watson; Willmot A. Lloyd, of Centalla, as postmaster of the new office at Curtis, Braxton county; Robert Y. Muir at Havaco, McDowell county; to succeed O. M. Kauff; Charles J. Inside Facts About Refrigerators

It is the inside of a refrigerator that counts. And no refrigerator is better than its lining. If it is lined with zinc or sheet iron, no matter how it is galvanized or painted, it cannot possibly be sanitary. In the Leonard Cleanable the lining is of genuine porcelain—all in one piece. Look at the doors; even the edges are porcelain. No joints, no cracks, no crevices to harbor germs and give out odors. You wash it with soap and water like you clean a dish. You can tell this lining from others for it cannot be stretched or marred, even with a hat pin or a knife blade. Don't accept any other refrigerator than the genuine Leonard Cleanable. Look for the name and be sure. Let us show you this splendid refrigerator and explain its many good qualities. It is made in the largest refrigerator plant in the world and, in our opinion, it is the best.
