

A CAR TO BE PROUD OF

SOME pretty good cars are owned in Clarksburg and its vicinity, but we have never heard of a LEXINGTON owner who didn't feel that his car more than held its own in appearance and performance.

There's no other car at anywhere near the price of the LEXINGTON Minute Man Six that offers so much all-round quality—a sweeping statement but a true one.

For the LEXINGTON is not merely a good-looking, well-built car—it's a car that includes many of the refinements that are usually found only in cars of much higher price.

That's why such a large percentage of LEXINGTON sales are made to people who have owned cars of several makes, very often those of higher price.

Such people often ask how it is possible for LEXINGTON to give so much for the money—and this is the answer:

The LEXINGTON Minute Man Six is the product of ten big factories producing motor car parts. All of these plants are allied in ownership. Thus LEXINGTON enjoys all of the advantages of large-scale production, yet by its unusual organization avoids all of the extravagances.

In the LEXINGTON Minute Man Six there is not one untried, doubtful, or experimental feature. From the Lexington-Continental motor down to the last detail, the LEXINGTON Minute Man Six construction has been tested and proved by time and service.
