IT We seldom recommend a manufactured medicine, believing in most cases that nature herself pe fects a cure more rapidly and effectually than can be accomplished by the vegetables and minerals of medical science. But in the matter of dyspepsia, there are chronic features about it, which very often defy all the efforts of nature to create a healthy action of the digestive organs, and it not unfrequently happens that thousands suffer for years, diseased both in body and mind, from indigestion and its kindred ills. To such, Hoofland's German Bitters, prepared by Dr. C. M. Jackson, are truly a most valuable pre-paration. It is a touic in dicine, giving a healthy action to the stomach, and will be found highly seruicable at all seasons, but especially during the spring. Dyspepsia can only be cu Fed by a patient preservation in one course of treatment; and to all those suffering under this sad mulady, we would recommend an applica-tion to the depot of Hoofland's German Bitters, 120 Arch street, Philadelphia.—Philadelph a Inquirer.
