With a knowledge of these facts, the proprietor of the preparation now offered, both to the public and to the profession, has attempted, and, so succeeded, in accomplishing the Herculean task of restoring to the article more than its lost reputation.

This lee has done simply by basing the plan of his operation on the latest discoveries and improvements in Pharmaceutical Science and working honestly to that plan.

PALPITATION OF THE HEART.

Abscesses and Pleurisy. BALTIMORE, June 1st, 1853.

Dear Sir :- For the last eight years I have been n a very low state of health, caused from a vio-lent attack of Pleurisy in the year 1842, which settled on my lungs—formed two abscesses on my shest, which have been running ever since, and which reduced me very low in flesh, and com-pletely prostrated me. I was troubled a great deal with swelling of the chest and limbs, during which time I have had occasional pains in all my oints, night sweats, fevers, and dizziness in the head; in fact a complete prostration of all my nervous system. About this time I was recomnended by my friends and Physicians to go and stay in the country for a few months, and live on new milk and water crackers, and see if the country air, change of scene and diet would not effect a change in my system. I accordingly went to live with a friend of mine near LONG GREEN in Baltimore County. At first I thought the country air and change of diet appeared to help me, my spirits were better and more bouy-ant, and my appetite considerably improved, the new milk appeared for a time to assist my diges-ion, but after a while it appeared to lose its flects; after about four weeks I returned to Baltimore, scarcely any better than when I went timore, scarcely any better than when I went away. I then sent for my Physician again, who told me he had introduced a new medicine or prescription in his practice, and that he would prescribe it for me. He put me on a course of Black Powders which he called COMPOUND CHARCOAL POWDERS. I took these four months with little or no benefit. They at times would purge me very much and then leave me in a costic state. Soon after this, Charles Dunnicalled to see me, and finding I was no better, recommended me to try a bottle of DR. CHAL.

CIX YEARS experience has proved that for the cure of Coughs, Colds, Cousumptions, Asthma, Spitting of Blood, Pain and Oppression of Breast, there is nothing equal to Hance's Compound Synup of Hoadhound.
