the state of the s month. Many of the rails out that year are yet sound, as those formed of chestmonth, however, it will peel off itself the also more valuable for fuel than if cut in the winter or spring.

I advise young farmers to try the experiment for themselves, and if post fences will not last twice as long, I forfeit my experiment as worthless.

KEEPING FLIES OUT OF HOUSE .- In 1836, Mr. Spence communicated to the Transactions of the Etomological Society the means of excluding flies from a room with white or light colored thread, with meshes an inch or more in diameter. Now, there was no physical obstacle whatever to the entrance of the flies, every separate mesh being not merely large enough to admit one fly, but several, even with expanded wings, to pass throug at the monastery either of Cameldoli or La Verwhen asleep, by covering themselves, body.
with their casting nets, through the Dr. Smith has given particular attention to him to be in the history of a bird (Charwhich was deemed a mere fable until confirmed by the evidence of St. Hilare when in Egypt .- Tib's Things Not Generally

No. That question is easily answered. them. A word to the wise is sufficient.

Salt is added to butter for two reasons—

The dress the line of the wise is sufficient. The large that the one is to assist in its preservation, the of salt will keep butter sweet. Another set adds salt with dishonest motives, with the idea that all the salt put in the butter is sold at the full price the butter brings. to the butter maker, proves a positive loss the Vice of ONANISM, or SELF-ABUSE. &c of twenty-five cents a pound. Butter is not preserved by salt. That is positive. It will keep just as long and just as

Butter should be churned at 65 degrees, and immediately after, reduced to 40 tiegrees, and the less it is touched and stitution, established by special endowment, for handled the better. It must be worked the relief of the sick and distressed, afflicted with cool, either with or without washing, as that is a mooted question, until absolutely free from butter milk, or particles of ted to advertise the above notice. It is needless to add that the Association commands the highest Medical skill of the age and will furnish the salt added to suit the taste of the consumer. The salt must be pure, and one ounce, to ten pounds of butter, will be sufficient. Then pack the butter solidly in Consulting Surgeon, Howard Association, No. 2 any cask of sweet wood or stone pot, so as to exclude the air, and just so long as the air is excluded, the butter will remain sweet. If it could be kept perfects ly excluded, the period that it would keep sweet is forever. Your question is answered. Salt will not preserve butter.

A small handful of salt given to cows twice a week seems to act as a preventative against many of the diseases ineident to neat cattle. Besides regular salting in small quantities, saves a great

almost any price, than an inferior one. Extra expense in the procuring of it will be repaid with compound interest.

A VALUABLE RECEIPT .- The Journal de St. Quintin publishes a receipt for curing cattle of the fermentation produced in their stomachs from eating clover and other green food. The remedy is a spoonful of ammonia dissolved in a glass of water-administered to the animal. The cure, it states, takes place within an hour.

GLASS PANS FOR MILK .- A correspondent for the Genesee Farmer, cites experiments made during a thunder storm, which proved glass pans instrumental in

water, then slice some bread, dip it in and fry it in butter; serve warm,

Mechanical.

Corn and Cob Mill.

HE subscribers have purchased the exclusive right to use make and vend the LITTLE GIANT, in forty counties in Western Virginia, and are making their arrangements to furnish than ten or twelve years. Hickory cut in that month is not subject to be worm eaten, and will lest a long time for fencing.

When I commenced farming in 1820, it was the custom to cut timber for post the waste for post to the wing in the waste for post the waste for post the waste for post the waste for post to the wing in the wing in the wing for the west for post to the waste for post to the wing for the west for post time, without the aid of mercury or any other deleterious drug. Within the last ten years Dr. S. has cured more than thirty thousand cases of the above character, and the important of modern times, for the use of the well advised farmer and stock-feeder, and the universal favor with which it has been received of the patients had been previously treated with

from the first, more than anything else, attests its utility and superiority.

For portability, simplicity of construction, and convenience of use, the Little Giant has no equal. It weighs from three to five hundred pounds, according to size, can be put in operation by the farmer in twenty minutes, without expense or mechanical aid, then adjusted and used with convenience by any body.

The LITTLE GIANT has received the First Provides at every State Fair from Missouri to PREMIUMS at every State Fair from Missouri to Maryland the past Fall, and that in the most

tive manner against breakage or derangement, and warranted to grind feed from cob corn, and grits or fine hominy from shelled corn, with a egree of ease and convenience for farm purposes never attained before.

There are four sizes of the LITTLE GIANT. which will be sold at the following prices, viz: No. 1, is offered at \$35, complete, ready for attaching the team, and warranted to grind eight bushels of feed per hour, with one horse. No. 2, at \$45, will grind ten bushels per hour, with one horse. No. 3, at \$50, will grind fifteen bushels per hour, with two horses. No. 4, at \$60, will grind twenty bushels per hour, with two horses, All communications addressed to us at

airmont, Va., will receive prompt attention. COOPER, IIALL & CO.

From American Farmer, (Baltimore, Md.) for May, 1855. SCOTT'S "LITTLE GIANT." We have nunerous testimonials as to the value of this Corn and Cob Mill, called the "Little Giant," among others the certificate of James T. Earle, Esq., President of the Maryland State Agricultural Society. Mr. Earle says: "I have ground on an average, seventy bushels of corn on the cob, per week, since the 1st of January, reducing the ob and grain to a coarse meal, and the ernsher exhibits so far, scarcely a perceptible evidence of wear. I can safely recommend it to my brother farmers as among the most valuable additions to modern agricultural machinery. The economy of feeding corn and cob is equal to a saving

From the Cincinnatti Daily Times. "THE LITTLE GIANT."—By invitation we called at the establishment of Scott & Liedges, yes terday, to witness the operation of what the inventor has denominated the "Little Giant Corn and Cob Mill." If ever name was well applied, it is in the present instance. The mill only weighs about three hundred pounds, and with single horse attached to a ten foot shaft, it cats up corn and cob "with a vengeance." It is got up on an improvement on the best patent of the kind ever attained, and is so simple in its construction that it can be put together and notion in 20 minutes, and can afterwards be adjusted and used with ease by any body. It will grind with ease from twelve to fourteen bushels

MARION STEAM FOUNDERY AND MACHINE SHOP.

THE BRITISH PERIODICALS

And The Farmer's Guide.

GREAT REDUCTION in the price of the latter Publication. L. SCOTT & CO., New York continue to publish the following laeding British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative.) 2. THE EDINBURG REVIEW (Whig.) 8. THE NORTH BRITISH REVIEW (Free Church.

4. THE WESTMINISTER REVIEW (Liberal.)
5. BLACKWOOD'S EDINBURO MAGAZINE (Tory. The great and important events-Religious

The great and important events—Religious, Polit cal and Military—now agitating the nations of the Old World, give to these Publications an interest and value they never before possessed. They will occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the daily Journal, and the penderous Tome of the future historian, written after the living interest and excitement of the great political events of the excitement of the great political events of the time shall have passed away. The progress of the war in the East occupies a large space in their pages. Every movement is closely criticised, whether of friend or of foe, and all shortcomings fearlessly pointed out. The letter from the Orimea and from the Baltic in Blackwood's Magazine, from two of its most popular contributors, give a more intelligible and reli-able account of the movements of the great bel-

ligerents than can elsewhere be found.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As Organs of the feature of their character. As Organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source. an be possibly obtained from any other source.

Arrangements are now permanently made

for the receipts of EARLY SHEETS from the British Publishers, by which we are enabled to place ALL OUR REPRINTS in the hands of subscribers, about as soon as they can be furnished with the foreign copies. Although this involves a very large out-lay on our part, we shall continue to furnish the periodicals at the same low rates as heretofore,

Glorious News TO THE AFFLICTED!

DR. JNO. F. SHICKEL & CO'S. FAMILY MEDICINES. In presenting these proparations to the public, the proprietors are aware of the prejudices which they must expect to encounter. The country is deliged with quack nostrams, each claiming to be the ne plus ultra—the medicine of all medicines—and are pushed into notice by the aid of printer's ink, with a zeal worthy of a better cause, notwith standing all that has been said and the essays written against their use by the profession, and out of the profession. Indeed so prevalent has become the mania for quackery, that a recent writer, a man of eminence in the medical profession strongly advises that the subject be let alone. "It exists," says he, "in every walk and occupation of life, JNO. F. SHICKEL & CO'S. FAMILY says he, "in every walk and occupation of life, by the exercise of which men procure bread," and thinks it time wasted to endeavor to stem the tide.

We have long since thought that the only of

feetual method of counteracting this strong cur-rent of quackery was to place in the hands of the

rent of quackery was to place in the hands of the people, regular medicines, prepared in accordance with the rules of pharmacy.

When our prairies and mountains eatch fire, and the inhabitants behold the devoted homes, what do they do? Do they vainly endeavor to stop its progress by throwing a few buckets of water upon it? By no means? They build up counter-fires which rush forth to meet the approaching torrent of flame, and by exhausting its food, put a stop to its ravages, or turn it out its food, put a stop to its ravages, or turn it out of its course. Now this is precisely what we are of its course. Now this is precisely what we are trying to do. The counter-fire which we are kindling, consists in presenting to the public, medicines which are prepared secording to the laws of Science, from the best of drugs, and under the superintednence of a regular physician. For testimonials of their efficacy in the treatment of the various diseases for which they are recommended, we would refer to all that have ever used of them. We being forward in certificates from obsure individuals, stating that icates from obsure individuals, stating that they have been cured of all manner of incurable diseases, deeming it an insult to the intelligence of the community to try to palm off such stuff upon them. If these medicines are a humbug then medical science is a humbug.

Rheumatic Embrocation.

Is confidently recommended to invalids as unsurpassed by any known preparation for the cure of Spasms, Old Sores, and swelling of all kinds. Indeed it has no superior where an outward application is necessary; but its most per-fectly magical power appears to be over all Ul-cers, and eronic cases of Rheumatism, that have resisted all other remodies for years. (It never having been known to faileven once in the course of eight years.) It is unparagoned in the course of eight years.) It is unparagoned in the cure of the following diseases in animals, viz:-Distemper, Windgalls, Scratches, Sweeney, Stiffness, Saddlegalls, Wounds, &c.

The Genuine Medical Anodyne. An invaluable remedy for the cure of the fol-lowing diseases, viz: Toothache, Chills, (or vi-gor,) Headache, Cholic, Cholera Morbus, Infla matory Rhoumatism, &c. It is also an invaluable medicine in many complaints to which fo males are subject. In obstructions, either tota or partial, it has been found of inestimable bene fit; restoring their functional arrangements to a healthy action, purifying the blood and other fluids so effectually as to put to flight all diseases which may arise from female irregularities, as headaches, giddiness, pain in the side, back, &c. In fact it is unexcelled, if equalled by any other preparation known, for the cure of all diseases

rising from cold. The Neutralizing Cordial, or Physic. This is one of the most valuable preparation known, for cholera morbus, cholera infantum summer complaint of children, diarrho dysentery, &c. Its operation and action appear to be a specific, if not infallible. It is exceller in certain diseases of women, to allay sickness regulate the bowels. &c.

Black or Healing Salve. This Salve will be found superior to every other, where applications of this kind are required. It has an excellent effect in Burns, Fever Sores, Scrofulous, Fistulous, and all other ulcars. Green Ointment.

This ointment is very cooling, relaxing, and emolient. It is very useful in Sprains, Contusions, Swellings, Dislocations, Contracted Sin-Brown Cintment, or Eye Salve.

This Ointment, for irruptions generally, sor eyes, &c., is superior to all others. It almost in variably benefits in every case. Carminative Drops. They case pain, create a moderate prespiration, and produces refreshing sleep. Good for restless children, removes flatulency and wind choic, and

is useful in hysteric and nervous affections, fe-For further particulars call on our agents, or oursolees, and purchase some, or all of our me-dicines and be convinced that they are no Hum-

The above medicines are prepared and sold by Dr. JNO. SHICKEL & CO., Point Pleasant, larrison co., Va., and for sale by merchants and Druggists generally throughout the State.

Medicines.

HELMBOLD'S GENUINE PREPARATIONS.

Compound Fluid Extract Buchu,

For diseases of the Bladder and Kidneys. For diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all diseases of the Sexual Organs, whether in Male or Female, from whatever cause they may have originated, and no matter of how long standing. If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up ever day in a city like this, and fill the papers with glaring falsehoods, too well calculated to decaive the young, and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases. in these cases.

The Fluid Extract Buchu has be

The Finid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known. It is a medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and, unlike other remedies, does not dry up the disease in the blood.

Constitutional Debility, brought on by self abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and

thousands of the human race to unimally graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this Infallible Remedy. In as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found acting both as a cure and preventive.

Compound Fluid Extract

Sarsaparilla, For Purifying the Bleed, removing all diseases arising from excess of Mercury, exposure and improdence in life, chronic constitutional disease, arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Logs Pains and Swellings of the Bones, Tetter, Pim-ples on the Face, and all Scaly Eruptions of the

THIS article is now prescribed by some of the most distinguished physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary Syphilis, Mercurial and Serofulous disease have entirerecovered in the incurable wards of our Pub institutions which had for many years resisted every mode of treatment that could be devi-sed. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed, and the bones already af-

fected.

Notice.—Letters from responsible Physicians and Professors of several Medical Colleges, and certificates of cures from patients will be found accompanying both Preparations.
