

NOW HIT VERY HARD. Some Candid Admissions by Union Pacific Officials.

FAILURE OF THE CROPS. But This Is Not the Greatest Blow Received by the Road.

AS TO THE LINE'S FUTURE. Receivers Say the Offer Made to the Government Was Exceedingly Fair.

OMAHA, March 21.—The future of the Union Pacific was informally discussed today in Omaha by Messrs. E. Ellery Anderson, J. W. Doane and Fred R. Couderc, receivers of the Union Pacific system, who arrived this morning from the East.

Upon the question of a reduction in salaries on the system Mr. Mink would not talk except to say that the subject had not been seriously discussed, although the receivers felt that the company was like a tailor who, driven to retrenchment, had to make his suit according to the size of the cloth.

Mr. Anderson explained that he did not believe that the Government will ever again receive two fair propositions than those submitted to Congress last winter—that the Union Pacific should pay \$70,000,000 at 2 per cent, secured by a first lien on the property to the Government, and that \$34,000,000 should be paid outright and the bills of the Government canceled.

"I question very much if a committee of men representing the varied interest in the Union Pacific will ever be able to agree upon such fair propositions again."

Mr. Anderson continued: "We found it hard to combat among the Representatives in Congress the prejudices of thirty years ago. The Union Pacific was a product of the necessity. There has never been a desire on the part of any interest, that I am aware, to combat the claims of the Government in the road. We have been exceedingly anxious to make most advantageous terms with it, for we recognize the help it extended when help was needed. But unless something remarkable should occur in the next few years I am frank in saying I do not believe a more generous offer will ever be made than was made last winter, as a happy outcome of our afflictions."

Mr. Couderc said: "We do not feel that the Government is seeking us in any manner, and so far as we know the foreclosure proceedings will not be hastily pushed. This is a grave problem and requires the utmost deliberation. We are going through our period of trouble and the Government knows our condition."

While at Death's Door He Is Sued for Debt. NEW ORLEANS, March 21.—Philip J. Greene came to New Orleans from Denver, Col., early last winter, and decided to make his home here established a private banking-house, for which he claimed a capital of \$500,000. He applied for admission to the Clearing-house, but was refused. During the first week of March he left for Chicago. He has not returned since, and it is announced that he is lying at death's door in that city.

Callers at the bank today were informed that all funds on deposit had been returned to the depositors, and that the business would be wound up as rapidly as possible. During the day \$12,000 was entered against Mr. Greene for \$12,000, for rent of offices occupied by him, and attachments were run on the concern by the traders aggregating \$1000.

LONDON, March 21.—The Times has this dispatch from its Shanghai correspondent, which will be published tomorrow: "A Japanese fleet is reported off the Pescador Islands, which lie a short distance to the eastward of Central Formosa, being separated from that island by the Formosa Channel. OFFERS HIS ROYAL THANKS. EMPEROR WILLIAM CLOSING THE STATE COUNCIL WITH A SPEECH. PROMISES TO CONSIDER ALL GRIEVANCES OF THE AGRICULTURAL DISTRICTS.

BERLIN, March 21.—Emperor William formally closed the sessions of the State Council today. In so doing he made a speech in which he said: "After an arduous discussion of the matters before you, you have now reached the end of your labors. If, perchance, the result does not satisfy in every respect the high expectations formed in some quarters, it is nevertheless of great moment for the Government whose task it is to employ all effective means of relieving the distress in husbandry that your deliberations rendered the limits attainable in this domain clearly apparent after exhaustive discussion. It is universally admitted that the agricultural distress, its causes and sequences, besides the careful examination of the remedies which have heretofore been proposed, either publicly or in the course of your discussion, form a valuable basis on which the Government may find some future decisions."

STILL IT LINGERS. The After Effects of the Grip Seem to Be Worse Than the Disease Itself. There are more weak, tired and run-down people to-day than have been seen before in five years and owing to one special cause; that cause is the grip. Grip is not as severe this year as in the past, but it is very prevalent and quite as annoying. It leaves the person weak subject to chills, with occasionally flashes of high fever, restlessness, lack of appetite, bad taste in the mouth and pains throughout the body. The worst thing about grip is getting over it and, even after it is broken, it is weeks, sometimes months, and even years, before the person fully recovers.

Here is where the great danger, the great dread which attends the grip arises. It leaves the body weak, often broken and open to all attacks which may come in after years. It often ruins the life. Now there is only one way to overcome the after effects of the grip, and that is to build up the system by a genuine stimulant until it regains its health and strength. There is nothing which will do this as well as pure whisky and there is but one whisky, medicinal whisky in America, and that is Duffy's Pure Malt.

Thousands of statements could be given concerning people who have been brought around to perfect health after suffering from the grip in its worst form entirely through the use of Duffy's Pure Malt. Care should be taken that no other stimulant is used in its place, for there is no other that will answer the purpose so well. Some druggists or grocers often seek to substitute common whiskies, but in a case of after effects of the grip you cannot be too careful and should secure only the best.
