

The wheelmen will be well represented to-day at San Leandro and San Jose, where several racing events will be held.

The annual 100-mile relay race of the California Associated Cycling Clubs, to be run on Sunday, April 7, is now so close at hand that it is the uppermost topic of conversation among the wheelmen.

THE WHEEL.

California Associated Cycling Clubs' Great Relay Race.

The annual 100-mile relay race of the California Associated Cycling Clubs, to be run on Sunday, April 7, is now so close at hand that it is the uppermost topic of conversation among the wheelmen.

Messrs. Wynne, Gibson and Weihe of the Associated Clubs have recently com-

Robert L. Long, a Crack Rider of the Olympic Club. (From a photograph.)

pleted the measurement of all the relays, and the following interesting data shows the result of their work:

The start is in front of Mr. Varney's store on Market street, between Ninth and Tenth, this city, then to Ninth, to Franklin, to Potrero avenue, to Nevada, to Nebraska, to San Bruno road, finishing on the level half mile east of Baden, and about one-half mile further south than finish of first relay in 1894.

Second relay—Continues on San Bruno road to county road, finishing immediately in front of a slate-colored cottage on Hobart stock farm, one-half mile south of the county road bridge at San Mateo.

Third relay—Continues on county road, finishing in front of Atherton estate, two-thirds of a mile north of Menlo Park and three-fourths of a mile south of finish of 1894 relay.

Fourth relay—Continues on county road, finishing one mile south of Mountain View, midway between two red water-tanks.

Fifth relay—Continues on county road to Santa Clara, turning into Fremont street, thence on the Alameda to point indicated by the fifth telegraph-pole from Race street.

Sixth relay—Continues from this point to Santa Clara street, to McLaughlin avenue, to Storey road, to King road, to Alum Rock avenue to Capitol avenue, finishing in front of orchard of E. M. Welch, at a point marked, about midway between a red water-tank and a green one.

Seventh relay—Continues from this point along Berryessa road to Milpitas road, to a point one and a half miles south of Irvington; relay mark midway between white barn and red one.

Eighth relay—Continues to Irvington, turning to right in that town, crossing railroad track, and turning to left between warehouse and Washington College; thence northward to Niles, crossing Niles to a point a quarter of a mile north of a cemetery situated north of Decoto.

Ninth relay—Continues on road, through Haywards to road forming the base of the San Leandro mountains, crossing into this road and ending on the backstretch of triangle where the start of ten-mile course is indicated, near narrow-gauge railroad crossing.

Tenth relay—Continues on triangle westerly through San Leandro to Fourteenth street, East Oakland, to First avenue, to Twelfth street, to finish at Lake View Cottage, opposite Lake Merritt.

The finish of each relay is indicated by a black sign, white lettered, reading "End of relay," miles. C. A. C. C. These signs are always to be useful as indicating distances on the road, and the association of the letters may some day erect, similar signs only a mile apart. On all except the third, fifth and tenth relays the signs are placed on the right-hand side of the roadway as the relay is run. On all except the seventh, ninth and tenth relays they are secured to telegraph-poles.

The mark is placed on stakes driven close to the roadside; on the ninth it is placed on a white picket fence, near the starting line; on the tenth it is placed on a white fence surrounding Lake View Cottage, opposite Lake Merritt.

Each relay is an exact ten miles, by cyclist measurement. In the first relay, Brannan street, from Ninth to Potrero avenue, is the only bad place. The second relay is better than last year; no new macadam. The third relay, the fastest one last year, is bad for a mile and a quarter past Redwood City, owing to new road surface. Effort will be made to open a riding path through this section. Fourth, fifth, sixth and seventh relays are all good. The road surface of the eighth is good, but hilly. The ninth is good, save for a mile north of Haywards. The tenth is good, except the last five blocks on Fourteenth street, East Oakland, which are of very uneven surface.

There are at present but two teams selected, those of the Garden City Cyclers of San Jose and the Olympic Club Wheelmen of this city. The personnel of these teams has already been published in the CALL.

The make-up of the teams of the Bay City Wheelmen and California Cycling Club of this city, and the Acme and Reliance clubs of Oakland, will be decided by the try-outs of these clubs, which will be held to-morrow. If the weather holds good, over the San Leandro course, The Imperial, Calbreath and Y. M. C. A. clubs of this city will not enter teams, and it is doubtful if the San Jose Road Club will either, although it has some good men. Much is expected of the Acme and Bay City teams, and the result of their try-outs to-morrow will be watched with interest. Each club has five or six men already selected, all of known ability, but as one weak man in the ten would

remain a member of the San Jose Road Club, of which he was a charter member, and was also an honorary member of the California and a non-resident member of the Acme and Bay City clubs. But when he came under the direction of Trainer Tull recently that gentleman concluded it would be good to advertise a scheme to put him into the Olympic Club, and when Secretary Hunter importuned him he filed the application, and it was given out as being Ziegler's "own free will."

Of course, this desertion of his home club is a hard blow to them, but Tull and Hunter are alone to blame, and their action has caused no end of unfavorable comment from friends of the club. The comfort the Olympics will contest the ten-mile record made by McFarland at San Jose last Sunday, which was previously held by Christ of the Olympics. The latter claim the course was short, as measured by a cyclometer, and that the riders had a forty-mile gale at their backs all the distance.

When left to himself Ziegler is a square, fact of which he is now now realizing. But all the doings of his trainer and his lot is an unhappy one. It is said he is dissatisfied with the Falcon wheel he is riding, saying he cannot make as fast time on it as he would like to do. He is a team-mate-mate are not fast enough riders to be mutually beneficial to each other in training, and Coulter, one of his riding-mates, aspires to be a top-notch rider, but Ziegler is in the way, which has caused the latter to feel that he will leave the club. Ziegler is not particularly enamored of his trainer.

As the matter now stands Ziegler still belongs to the Road Club, and will ride on the club's team and race on the track under the Olympic Club's colors. He is at least "a little demon" for joining clubs, and the impression is that the Olympics have profited nothing by securing him for membership, but have unconsciously lent a hand to his trainer's advertising scheme.

Advices received late last night from San Jose indicate that the rainfall has not been so heavy but that it will be necessary to ride to-day or to-morrow. Extensive preparations have been made for the Garden City Cyclers' "smoker" to-night, and invitations are extended to every cycling club in the State, so that individual invitations are unnecessary. All will be made thoroughly welcome.

For to-morrow Captain Delmas has arranged a series of matinee races on the new track, to commence at 2:30. The following events: One-third of a mile handicap, two-thirds of a mile handicap, one mile handicap and one mile scratch. Oscar Olsen and Allan Jones will both ride the scratch race, which is expected to prove very interesting.

The Oakland High School Wheelmen have issued a challenge to the riders of the San Jose High School for a 25-mile relay race, to be run on the new track at San Jose, on Saturday next. The challenge is accepted.

The famous racing men now training at San Jose are enthusiastic in their praise of the new cement track of the Garden City Cyclers, especially Bald and MacDonald, who say it is the fastest they have ever ridden upon. The latter gentleman thinks it is the best track in the country.

California wheelmen will be glad to learn that the Garden City Cyclers have been successful in securing a place on the new track, as the following letter will explain:

PHILADELPHIA, March 15, 1895. To J. B. Lankin, Esq., President Garden City Cyclers, San Jose, Cal.—DEAR SIR: Replying to your letter of the 10th inst., enclosing \$10, sanction fee on internal circuit meet, I think we can arrange the circuit so as to reach your place on Saturday, when the weather is best, and I hope we can fix the time to your satisfaction. Very truly yours,

GEORGE D. GIBSON, Chairman L. C. Board.

None of the road races scheduled for to-morrow at San Leandro will be postponed on account of the rain Thursday, and the Bay City, California, Acme and Reliance clubs will run their events as previously stated.

GUN AND GAME.

Only Two Months in Which Game Can Be Sold—Trap Shooting.

According to the new game bill, snipe of any kind can be shot at all seasons of the year except in such counties where a special ordinance may keep market hunters from slaughtering them.

Although the birds received a cold shoulder from the sportsmen who assisted in the new game bill, it can be safely said that no man who has the interest of game protection at heart will enter the field for the purpose of killing snipe during the months in which they breed. It is only market hunters and campers who need to be feared as the true sportsman will not enter a field in quest of game birds of any kind during the months of a closed season.

The English snipe is the game of game birds and it certainly does not anger well with the gentlemen of the Sportsmen's Convention to shut them out of protection entirely.

There may be some parts of the State which the English or Wilson snipe do not frequent until about the time of the close of the season of the snipe. If such be the case the season for snipe shooting should have been prolonged a month, so as to give those sportsmen who reside in the late parts an opportunity to enjoy the sport. The idea of discarding the English snipe entirely from the list of game birds which are to be protected during the breeding season was about as absurd a thing as could be imagined in the whole country.

The primary object of the convention assembled was game protection. It is hoped by all true lovers of shooting that the sportsmen residing in those counties in which the snipe breed, will interest themselves in the protection of the birds so as to intercede with the Supervisors, who can pass an ordinance with that object in view.

The great breeding grounds of the snipe in this State are in Sierra and Plumas counties; and as Senator Ford represented Sierra in the Sportsmen's Convention held in this city a year ago, he will undoubtedly interest himself in behalf of snipe protection with the Supervisors of this county.

Some of the lovers of snipe-shooting who reside in this city should intercede with the City Fathers and explain to the latter why they should prohibit the sale of snipe between the months of May and August. The professional hunters will certainly be out slaughtering the breeding birds for this market.

The meadow lark was included in the game bill among the snipe, and should be protected, but when the bill was learned of that fact they sent in letters by the score to the legislators stating that the lark was most destructive to young grain and that any bill offering them protection should be killed instantly.

The committee on fish and game, fearing that the game bill would meet with a hasty knockout should larks be included among the birds to be protected, wisely concluded to erase the name of the lark from the bill from the list. The Supervisors of any county who may feel disposed to give larks protection can ordain to that effect as long as the birds are not included in the game bill.

Heretofore Supervisors had the power to change the wording of the game law to suit their respective localities. This cannot be done under the new game bill shall have become a law.

It would be well for all those who deal in game to keep their eye on the following new section as regards the sale of game. It reads:

Every dead storage company and every person keeping a cold storage house, hotel, restaurant or eating-house, and every marketman or other person who shall buy, sell, receive or offer for sale any snipe, quail, bobwhite, partridge, grouse, dove or other game bird, shall be liable to a fine of \$100, and if the offender is a corporation, shall be liable to a fine of \$500.

The first of a series of six matches between the Lincoln, Empire and Electric gun clubs will take place on Sunday at 10 a. m. at the Oakland racetrack grounds. The conditions are \$1000 for a team, twenty birds to the man, and the winner to take two-thirds of entrance fee in cash.

match, the balance (one-third) to be held until the final shoot in August and awarded to the team making the highest number of breaks in all six shoots combined.

On March 31 a shoot at twenty singles, blue rocks, will be a feature at the Oakland racetrack grounds, with American Association rules to govern. Eight nice prizes will be offered.

It will be seen that the market hunter's occupation has been materially interfered with, as he will have but five months in which to sell his game. Managers of restaurants will also be interested in the same measure.

Trap shooting will be in the program of the programmes of gun clubs there will be either live bird or bluecock shoots held every Saturday and Sunday afternoon during the summer season.

ATHLETICS.

What the College Boys of Berkeley Are Doing. Games at Athens.

The freshman-sophomore field day which takes place at the university cinder track this afternoon promises to be of exceptional interest, as it is expected that several records will be broken.

Of the prospects of some of the men who will participate this is what Mr. Winter says: "We may look for some exciting contests. The 100-yard dash between Scoggins, '97, and Barnes, '98, will be in every sense of the term a race, for as it now looks Scoggins, in spite of his brilliant career last year, has no license to beat Barnes in the sprinting event. Scoggins, however, was not well when he carried two yards at the trial-day last week and failed to close this gap by more than a few inches. I am afraid Scoggins has a little malaria, and until he is rid of that he will not be himself."

Barnes is a coming man. We may expect great work from him in the 100 and the 220. They say he has always been weak at the finish, but he is certainly improving. His 100-220, 100-yard time, from the 135-yard mark last Saturday at the Olympic Club grounds, proved him good for 104 for scratch.

Dorn, '98, will make it lively for somebody in the 220-yard dash. He is a powerful fellow and is improving rapidly. Baugh, '98, is also improving fast—so fast, in fact, that it is hard to tell where he is going to expect Dorn to beat 224 and Baugh to make the 220 in '25, or better.

Edgren, '97, who holds the U. C. record of 123 feet 7 inches for the 16-pound hammer throw, may do even better than that. Edgren's record was not made, however, at an authorized association field day. Melville Dozier, '98, will carry off the medal for the bicycle event, if he enters. Dudley Dean, '97, intends entering the 220. He has never before entered the sprints, all years having run the 120-yard hurdles.

Fred Magsee, '97, will enter the 220 against Dorn, '98. Hupp thinks of entering three events—the 100, 220 and 440.

Ben Bakewell, the freshman hurdler, will probably give Chestnut his sophomore opponent, a hard race in the 120-yard hurdles.

Elston, '97, Budd, '98, and Mumma, '98, will enter the pole vault. The sophomores have no remarkable slips.

The first prize for the Interstate coursing match will grant \$200, and other prizes in proportion. The meeting will come off on the 30th of May next.

Tommy Hall's bitch Annie Laurie, that won the St. Patrick's cup on Sunday last, and the United States by J. Walsh's Belle, J. R. Dickson's Warath and A. Merrill's Fester and Fester, J. McMillan's Babat the Queen, D. B. Jones's Madam, H. H. Hill's Little Corporal and James Grace's Toll Jolly, S. A. Cumming's White Cloud and T. J. Cronin's Fallow, will be the stars of the day.

Prizes—\$20, \$10; fourth and fifth dogs, \$5 each. John Grace will judge and James Wren will handle the slips.

THE KENNEL.

A New St. Bernard Club—Miss Whitney of Boston May Judge.

The admirers of St. Bernards in this city met on Wednesday evening last and inaugurated a St. Bernard club. There were present J. G. Barker, A. J. Kidd, F. Frey, W. M. McGee, W. H. Collins, J. K. Kelly, Captain W. Poole, J. W. Winfield, H. Williams, A. R. Crowell, Dr. A. T. Regensburger and J. R. Dickson.

Considerable discussion took place on the position of the St. Bernard on this coast and the best means for making it still more popular here.

J. G. Barker was appointed chairman of the meeting and A. R. Crowell secretary pro tem.

Many names were suggested for the new club, but finally it was carried that the club should be known as the St. Bernard Club of California.

A. R. Crowell and O. H. Williams were appointed a committee to draft rules, conforming to the by-laws for the club and report to the special meeting on Thursday evening next.

The question of getting Miss Whitney of Boston out to judge the St. Bernards at the annual show, occupied considerable time. The expense of traveling would be \$150 and the club members said that they would stand that amount to have Miss Whitney's opinions of the home stock of the breed.

Messrs. Barker and Crowell were appointed to meet the St. Bernard Show Committee and ask it to have Miss Whitney appointed judge of the St. Bernards. A. R. Crowell and J. R. Dickson were

appointed honorary members of the club and meeting adjourned until Thursday evening next.

THE ANGLER.

More Poachers Found Guilty of Fishing Out of Season.

Those of the angling fraternity who propose to take snap judgment on the opening day of the angling season by casting their lines on Sunday, the 31st inst., had better take the proposition under advisement.

Fish Commissioner Emery said yesterday that he had instructed six of his deputies, at a meeting held in the rooms of the Fish Commission, to arrest every poacher found catching trout in fresh water on the day prior to the opening of the season. The streams that will be closely patrolled are: Lagunitas, Paper Mill, Sonoma, Alameda, Purissima and some of the tributaries of the Russian River.

The Fish Commissioners are certainly going the limit in their protesting against the fishes of the coast streams. Deputy Raevro arrested three men on San Leandro Creek a few days ago and one of the law-breakers, S. Warner, was tried before a jury in Judge Quigg's court, at San Leandro, and found guilty. His companion, George Gillespie and Al Schumann, will have a hearing to-day. Deputy Babcock took a spin over to Wildcat Creek last Saturday, bagged William Munday of Berkeley, who was caught in the act of catching trout with nets. He was escorted to San Pablo, tried and found guilty. It must be very gratifying to the Commissioners to find that the poachers of the county are taking so much interest in the trout towns are leading to the destruction of the streams of poachers. If the Commissioners will give the game of the State as close attention as they now are giving to fish, anglers will feel as if they were free to go to the trout towns and catch trout with nets. He was escorted to San Pablo, tried and found guilty. It must be very gratifying to the Commissioners to find that the poachers of the county are taking so much interest in the trout towns are leading to the destruction of the streams of poachers.
