Nine Hundred Employes Caught in a Blazing Factory.

Criminal Carelessness the Cause of Many Being Injured-Some Fatally.

MONTREAL, QUEBEC, April 25 .- W. C. McDonald's extensive tobacco factory on Ontario street was partly destroyed by fire this evening. The loss will reach half a million dollars, on which there is no insur-

There was not a fire escape on the outside nor any appliances on the inside of the building for the fighting of the fire. Even the windows were guarded by heavy iron screens, presumably to prevent theft. The fire started at 4 c'clock in the drying-room and for a while smoldered. Then suddenly the flames burst through and a most awful panic ensued. There were 900 employes in the building and more than half this number were women and girls.

The shrieks of the women as they beat against the iron screens, praying the crowd to do something to save them, were most Time, 1:091/2. heartrending. As the flames burst through four firemen were on the roof, and for twenty minutes their lives were despaired of, until finally ladders were found to bring them down.

They were badly burned. The girls were nearly all on the fourth floor and were frantic with fear. With much trouble one of the iron lattices was knocked off, when one of the girls jumped and was almost shattered to pieces when she reached the roof of an adjoining warehouse. In a similar manner the others followed to the Time, 1:191/4. number of thirty. The ambulances were kept busy carrying the women and girls to the hospital, and some were driven in cabs to their homes. So far only one is known to be dead, but several are believed to be in the ruins

It was nearly midnight before the place darkness very little work can be done before morning.

The Associated Press correspondent interviewed several who escaped. They say the scene on the fourth floor was beyond description. When the first rush for the stairway occurred, the passage was solidly packed, and many fainted and fell under the feet of the crowd. Then a rush was made to the windows. But the crowd forgot about the heavy screens which guarded that means of escape. Frantic women tore their hands beating against the cruel obstructions, but the irons were too strong for their feeble blows.

Death seemed inevitable until Marie Gagnon found a window that yielded to the determined blows of those who could get their united efforts to bear. This window overlooked an extensive one-story warehouse. Without a moment's hesitation the woman leaped onto the roof below. Encouraged by her daring and impelled by the smoke and flames which were making rapid progress in that part of the building, other women followed her example until about twenty maimed and bruised forms were piled on the warehouse roof. By this time the passageway had become sufficiently cleared to permit a more rapid clearing of the building. The work of rescue by means of fire extension ladders was in progress and many almost inanimate forms were carried out by the

On the third floor, where the fire started, the scenes were almost as heartrending, but, being warned sooner, the operatives there were able to escape quicker by the stairways. Many were terribly crushed in the mad rush, but the most serious casualties were confined to those on the top floor.

Great indignation is expressed against the officials whose duty it is to see that the law is enforced in regard to the fire-escape

appliances. From inquiries at the hospitals at a late window of the burning building, it was learned that but little hope is entertained for the recovery of at least five. Marie Gagnon, the first girl to make the terrible leap from the fourth floor, was picked up with her back broken and cannot live

Crews of the University and Columbia Boating Clubs.

Races That Will Take Place To-Morrow in the Oakland Estuary.

Notwithstanding the fact that the University boathouse and the club's new and handsome yacht was destroyed by fire on Wednesday last, the rowing contests will positively take place, as previously any positively take place pla and an excellent day's sport is sure to result, as the crews are well trained and anxious for the race, which will be held in the Oakland estuary, off Sessions Basin, between the "U. C." Boating Association

and the Columbia Boat Club. The men who will make up the U.C. team are Dwight Hutchinson, No. 1; Wil-

liam M. Cole, No. 2; John L. Whittenmeyer, No. 3; N. C. Grew, stroke and
captain, and Easton, coxswain.

Those who will pull the oars for the
Columbia Club are A. D. Smith, No. 1;
Paxton Howard, No. 2; Alexander Rosborough, No. 3; Harry Haight, stroke and
caotain, and J. Clement, coxswain.

Both crews have been training faithfully
for the past six weeks and are in excellent for the past six weeks and are in excellent

condition for the contest.

The Columbias have slightly the advantage over the U. C. team, owing to the fact that two men on their team are old racers, having held places in the shell under the colors of Harvard and Vale.

The University crew has been training under the direction of Coach Garnett, the Harvard graduate, who did so much toward interesting the college boys in aquatic sports last year. At the opening of the training season this year so great was the desire among the brawny-armed students to be put on the crew that nine-teen tried for the four places to be filled. G. Folger of Harvard has had the Co-

The course over which the crews will race is to be one mile and return, the start and finish being at the same point.

A grand stand which will accommodate
1500 spectators has been erected near the boathouses, immediately in front of the

finish, and commanding a view of the enthe course.

A new style of rowing for men on this coast will be introduced by each team, and the main purpose of the contest seems to be to determine which of the two forms of rowing will bring the best results.

A Colored Stableman Charges Tom

Warren With the Dastardly Act. A very neat little scheme was nipped in the bud at the racetrack on Wednesday evening, whereby the Ledette filly, which ran in the match race yesterday against Seraphin, was to have been drugged,

ostensibly for the purpose of making it a "cinch" for Seraphin. Late Wednesday afternoon a colored man, known as Cuba, in the employ of to 1 chance winning the hurdle race, the Charles Boots, owner of the Ledette filly, was approached by a man named Fred Warren, also known as Tom Warren, a parasite of the turf, who, so it is alleged, made the fact known to the colored man that it would be \$100 in his pocket if he would consider his proposition.

"Cuba" says the proposal was to give the The first event on the card, a six-furlong race for maidens, gave Theodore Winters an opportunity to tuck a purse in his pocket. Morgan G. the 9 to 20 favorite.

Yale locks placed on the filly's stall, and, as an extra precaution, two of his most trusted men were put on watch to guard the stable. The filly ran in the match, and was easily defeated, but showed no signs of having been drugged.

The whole case was laid before President Williams of the Jockey Club, and a thorough investigation of the affair is going on.

NORTH GOES EAST.

The University Athletic Team Will Leave for Princeton Next Month.

Arthur W. North, U. C., '95, manager of the university athletic team which will start for the East on next Thursday, left his home in Yolo County last night for Denver and other points East, to complete arrangements and make new engagements for the oncoming team. He will endeavor to arrange a contest with the Denver Athletic Association, to take place at some date toward the close of June, on the re-

turn trip of the team.

From Denver Mr. North will go to Chicago, and then to Ann Arbor, where arrangements will be perfected for the contest which will take place between the U. C. team and the Western Intercollegiate Athletic Association on June 1.
From Ann Arbor he will go directly to Philadelphia and then to Princeton, where

May 7.

The first contest in which the U. C. team will enter will be with the Princeton men, May 11. They will then have a rest of one week, and on May 18 will meet the University of Pennsylvania men at Philadelphia

It is the purpose of the manager to have his team enter the Mott-Haven games at New York on May 25.

This will be the largest meet in which the teams will enter, since representatives from all the athletic clubs within a radius of 200 miles are expected to contest.

At these games the team will have an opportunity to compare their men with the Yale and Harvard athletes, as this will be the only contest in which men from the two great universities of the East will enter against the team from California On the return trip the U. C. boys will meet the University of Michigan at Detroit on June 8, and in all probability the Denver Athletic Club on June 15.

YOU CAN TREAT YOUR LIVER

Many Metallic Liver Stimulants Are Shown to Be Harmful. You Should Not Use Mercury Pills or Potash-Use an Herb-Remedy.

DISCOVERED YESTERDAY THAT I HAD A liver. It was not known to me before. True, is had been told to me that I was like all other mortals, and as you know, all mortals have livers. Bus the reason I discovered my liver is obvious My liver became swollen, it was sluggish, and was indeed much larger than ever before. The doctor

said: That I was jaundiced. That I was billous. That I was drowsy. That I had billous headaches. That I had indigestion.

That I was constipated. And why-fersooth, because my liver had become swollen, sluggish, and had refused nature's stimulants. The doctor said I ought to use

Joy's Vegetable Sarsaparilla.

He, the doctor, said excretions had accumulated within the liver, which caused it to be swollen and to be inactive. He told me I ought to use Joy's Vegetable Sarsaparilla because it only con tained vegetable herbs. He told me, the doctor, that all metallic liver stimulants, such as mercury

and the different kinds of pills would be more harmful than otherwise. The doctor said: He knows the Home Remedy, Joy's Vegetable Sarsaparilla, to be an excellent remedy.

That he knew it to be purely vegetable. That he knew it to be the best stimulant. That he knew its effects to be mild. That he knew it had no equal. That he knew it had cured others. That he knew it would cure me.

That he knew any remedy but a vegetable stimu. lant would ruin my liver entirely. That he had found no remedy that the demand for was so great This is his prescription: FOR MR.
