

MAD WORK OF WINDS.

Another Cyclone Sweeps Over an Eastern State.

FRESH VICTIMS FOUND.

Ruin Wrought at the Village of St. Charles in Illinois.

IOWA'S TERRIBLE TWISTER.

Most Sickening of All the Horrors Is the Wrecking of School-houses.

AURORA, ILL., May 4.—The village of St. Charles was visited by a cyclone to-day, with fatal results. The old stone postoffice building standing on the east side of Main street, occupied by Mrs. Church as a millinery-store, was blown down, and Mrs. Church was killed. Two young ladies had apartments in the building, and one of them, who is missing, is supposed to be in the ruins. The other, Miss Augusta Anderson, was killed. The falling walls caught and killed a passing horse, and the driver was seriously injured. Two other men were struck by flying timbers and quite badly hurt. It is reported that several other persons about town received injuries more or less serious. A man named Luther McCausland had an arm and leg broken. Andrew Johnson of Elgin had his back broken.

The killed are: Mrs. Hattie Church, St. Charles; Miss Augusta Anderson, St. Charles; Charles Johnson, St. Charles; Joseph Thompson, St. Charles; Luke Coster.

The women who were killed had apartments in the Osgood building. The men who were killed stopped at the side of the Osgood building, and were crouched in a group to escape the fury of the passing storm when the wall toppled over on them. It is thought another man is in the ruins. The Osgood building was a substantial structure, but the force of the falling wall utterly demolished it.

IOWA'S TERRIBLE TWISTER.

Revised List of Those Killed and Injured in the Disaster.

SIoux CITY, Iowa, May 4.—Fifteen killed and two score more or less injured in the revised list of the victims of Friday night's cyclone which swept Northwest Iowa. Ten of the dead and most of the injured lived in the vicinity of Sioux Center, which seems to be the culminating point of the tornado. A reporter went over the scene of the storm to-day. Its path is almost as clearly cut as a wagon road and everything in its way was demolished—barns, houses, trees, etc., strewn the country for miles.

The killed and injured in the vicinity of Sioux Center are as follows: George Marsden, teacher; Miss Anna Marsden, teacher; Alice Koster, 8 years old; Tuens Verhoff, 4 years old; Jacob Jensen, Mrs. John Koster, Miss Tillie Haggie, Maurice Coombs, child; Mrs. Belknap, Sibley; Mrs. Waterman, Sibley; Rudolph Schwerdfeger, Sutherland; Peter Stimmer, Laurens. The most seriously injured are: John Watterman and son, Sibley; John Frey, Sibley; M. Blackmore, Sibley; Rossburg Brothers, Sibley; Minia, Jennie and Luella Coombs, Sioux Center; Nellie Coombs, fatally, Sioux Center; Mrs. L. Warie and baby, Sioux Center; John Henry and Matilda Haggie, Sioux Center; L. D. Everts, Sioux Center; the two sons of T. de Boer, Sioux Center; two children of P. J. Smith, Sioux Center; A. M. Perry, Hawarden.

Citizens of Sioux Center are caring for the injured and destitute about the farm-houses wrecked. The property loss will be heavy, but it can hardly be estimated at present.

Much livestock was killed, the prairie being strewn with the carcasses of horses and cattle.

The only person killed in Osceola County was Mrs. John Watterman, five miles west of Sibley. A joist fell on her neck. She held her baby in her arms and her baby escaped injury. John Watterman, her husband, was injured in the breast and face seriously. William Watterman, his son, had his right arm broken and left shoulder broken. Charles Rossburg was badly bruised. Henry Rossburg, his son, was cut badly about the head. Mrs. Charles Rossburg was blown into a tree, but not seriously hurt. Herman, Otto and Emma Rossburg were injured, but not seriously. Mrs. Feldkamp was not killed as reported last night.

The Melcher and Whitney schoolhouses were both wrecked. Miss Marie Good, teacher of the Whitney School, closed twenty minutes before the storm struck. John Coughlin, wife and ten children were all saved by taking refuge in a cyclone cellar. They lost their house, household goods, barn and had a horse killed. The well pumps were pulled out at Rossburg's and Frey's. Wilburn's barns were completely wrecked. The barns of Pushak, Kruger, Whitney, Herrin, Blackmore, Hamblin, Watterman and Littlechild were wrecked. The houses of Watterman and Rossburg were destroyed.

SWEEPS OVER TEXAS.

Cyclone Does Great Damage Near Denison.

ST. LOUIS, Mo., May 4.—A special to the Republic from Denison, Tex., says: A cyclone passed eight miles east of here this morning. Barns, dwellings, fences and forest trees were leveled to the ground. Stock was killed. People had narrow escapes, but no casualties are reported. A number of valuable orchards were wiped out of existence. The cyclone crossed to the Indian Territory, where it is thought lives were lost.

SHERMAN, Tex., May 4.—This city was visited by a tornado to-day. Many houses and barns were blown down. Stock was killed in the track of the storm and there has been considerable damage to crops and fruit, but nobody has been reported killed.

UNION PACIFIC TROUBLES.

An Attempt to Settle All the Controversies Out of Court.

ST. PAUL, Minn., May 4.—An attempt was made to settle the Union Pacific receivership trouble out of court to-day, but it is believed the case has failed, although nothing positive is known.

Mr. Hyde, attorney for the American Loan and Trust Company, the trustees of the bondholders of the Oregon Short Line submitted a proposition that if the former, receivers were discharged and S. H. H. Clark and John M. Egan appointed as

joint receivers of the two systems they would agree to such appointment, and would not ask for a separate receivership for the Oregon Short Line, the argument on which petition has been heard during the week.

Judge Sanborn agreed to allow all the parties to meet to consider the proposition, and they met this afternoon and held a long conference, but no agreement was reached, and all interested in the case left for their homes to-night. Judge Sanborn's decision will be announced later.

DENVER ATHLETES ACTIVE.

Will Put in a Bid for the A. A. U. Championship Next Year.

DENVER, COLO., May 4.—A special to the News from New York says: There is every indication that Denver will put in a bid for the A. A. U. championship of 1895. Secretary Sullivan yesterday received the following letter from A. G. Spaulding, who is now in Chicago:

"During the summer and fall of 1896 there will be held in Denver an international mining and industrial exhibition. In connection with other features it is anticipated at this time that possibly the various athletic tournaments that will be held in the United States under the auspices of the American Athletic Union may be invited to this city.

"Will you kindly furnish me your opinion concerning the advisability of such action, and do you think it will meet with favor with the officers of the association named? I will also be glad to have you provide me with a list of all contests which are to be held during the present year, and the cities at which they will take place." Secretary Sullivan has forwarded the communication to W. A. Curtis, president of the A. A. U., who will at once correspond with the managers of the exhibition at Denver, and no doubt something will be done there for the good of amateur track and field sports.

IT WILL BE A LOCKOUT.

Mine-Owners Refuse to Increase the Scale of Wages.

Militia Hastened to a West Virginia District to Prevent Fresh Disturbances.

COLUMBUS, Ohio, May 4.—The joint convention of miners and operators adjourned sine die to-night without fixing the price of mining. Although there was only a difference of 9 cents between the propositions of the miners and operators, neither side would make any concessions.

A lockout now seems probable, as the operators say they cannot operate their mines and pay over 51 cents for mining. They claim they cannot compete for lake trade against the Pittsburg district at the rate proposed by the miners. About 24,000 miners in the State suspended work May 1, pending a settlement.

The operators will probably quietly await the end of the Pittsburg strike, and in the event of a failure to adjust the differences there with the miners will declare a lockout. The operators, it appears, have anticipated a suspension and a month's stock of coal, it is said, has been accumulated.

ROANOKE, Va., May 4.—In accordance with orders from Richmond the following military companies passed through here this morning en route to Graham: Two detachments of the Richmond Howitzers with two Gatling guns and 5000 rounds of ammunition, Monticello Guards of Charlottesville and the Lynchburg Home Guards.

They were joined by the Roanoke Light Infantry and Machine Works Guards, and it was understood that the Jeff Davis Rifles of Salem and the military company at Radford would get aboard the train on its arrival at the foregoing named places. All of the military carried three days' rations.

The receivers of the Norfolk and Western road have had notice that the recent injunction granted by Judge Jackson was intended for use in the coal regions. They state that the company is in the hands of the United States courts and warn all persons at their peril not to interfere with the property or traffic of the company. The officials of that company regard Sunday as the critical day, and all preparations seem to have been taken with a view of preventing trouble on that day at Pocahontas.

WELCH, W. Va., May 4.—Over 200 troops from Richmond, Danville, Lynchburg and Charlottesville are at Graham tonight, awaiting orders to quell any disturbances that may arise in Pocahontas between the miners now working for the Southwest Company and the strikers.

They have brought with them two Gatling guns. All is quiet, but it is impossible to say what a meeting of 10,000 strikers and the men now working at the Browning and Southwest mines at Pocahontas will result in to-morrow.

RICHMOND, Va., May 4.—According to reports received at the Governor's office, there has been no outbreak as yet in the Pocahontas mining district. Governor O'Ferrall and General Phillips feel anxious, however. They sat up all last night receiving and transmitting telegrams. In explaining his orders calling out the militia, Governor O'Ferrall stated to-day that he was determined that the striking miners from West Virginia should not be allowed to overawe and force the Pocahontas miners, who seem desirous of continuing at work, to leave their jobs.

SUICIDE WITH A RIFLE.

In the Presence of His Children a Georgian Shoots Himself.

ATLANTA, Ga., May 4.—A special from Quitman, Ga., to the Journal says: W. W. Guess, a citizen of Brooks County, living seven miles west of here, committed suicide to-day by shooting himself through the heart with a rifle. He was accused by his wife of being criminally intimate with their eldest daughter, a beautiful girl of 19 years. He had been threatening to kill himself for some time. This morning, taking his rifle and accompanied by his two children, he left home, saying he was going to kill an alligator. When he reached the pond he sat down on a log and in the presence of his children he deliberately placed the muzzle of his rifle to his heart and pulled the trigger, dying instantly.

Bonner's Slayer Convicted.

CHICAGO, ILL., May 4.—Emanuel Baker was found guilty of the murder of his brother-in-law, Harry Bonner, in Judge Freeman's court to-day. The jury assessed the penalty at life imprisonment. At the time Baker killed Bonner he also killed his wife, but has not yet been tried on this charge.

Killed While Bear-Hunting.

SILVER CITY, N. M., May 4.—N. D. Hutton, a Chicago Tribune reporter, was killed when bear-hunting near Gil Hot Springs. His horse fell over a cliff. Hutton's neck was broken.

FREEDOM AND DEATH.

Three Oklahoma Convicts Break Jail at Woodward.

FORCE A GUARD TO OBEY.

During the Battle That Ensues Two of the Escapes Are Killed.

ONE OF THE PURSUERS SHOT.

After His Comrades Are Laid Low the Third Fugitive Gladly Surrenders.

WOODWARD, O. T., May 4.—A bold jail delivery followed by the killing of two escaped convicts and the serious wounding of Officer Ben Wolfert, occurred here early this afternoon.

About 1 o'clock Prisoners Hill, Waddell and Heffen, the first two confined for liberating prisoners about a month ago, secured a gun and forced the guard to open the cage.

They then armed themselves with Winchester in the cell house and started for the hills. Sheriff Oden immediately summoned a number of deputies and gave chase.

Within a mile from town the trio were overtaken. They were about, while their pursuers were well mounted, and escape was impossible. A demand to surrender, however, was answered with a volley from the convicts, who had taken refuge behind a large rock.

This was the signal for general firing, which was kept up sharply by both sides for fully half an hour. For the time being, because of their barricade, the convicts had the better of the situation, and before any of them had been hit by the deputies, Officer Ben Wolfert received a bullet through the left arm and Officer Prior's horse was shot from under him.

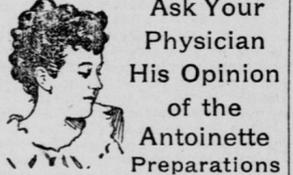

When Prior's animal fell, the officers scattered and surrounding the rock poured shot after shot into the convicts. At the first volley, which was given in concert, Hill and Heffen were made to bite the dust. The firing was kept up and soon Waddell, who had laid flat on the ground and had succeeded in escaping the bullets, gladly surrendered.

NEW TO-DAY.

ANTOINETTE.

Ladies, during this month, every afternoon except Saturday, I will discourse from 2 to 4 on How to Scientifically Treat the Complexion; How to Preserve and Restore Your Beauty; On the Neck and How It Should Be Treated; On Gray Hair and How to Restore It; On Dandruff and How to Cure It; On Superfluous Hair and How to Prevent Its Growth.

USE THE BEST ALWAYS! Ask Your Physician His Opinion of the Antoinette Preparations

ANTOINETTE WRINKLE PASTE AND CREAM.

The Latest and Most Wonderful Scientific Discovery for REMOVING and PREVENTING Wrinkles. This new treatment stimulates the capillary circulation, constantly supplying new tissue and carrying off all waste and foreign matter from the face and neck, making them look fresh and youthful.

Read what a well-known chemist and physician says about these preparations: "This is to certify that I have analyzed the Antoinette Preparations called Wrinkle Paste and Wrinkle Cream, and find them to be excellent preparations for the skin; that they are free from all deleterious substances and well adapted for the purposes for which they are designated."

This is to certify that I am well acquainted with W. T. Wenzell, and that I consider him one of the ablest chemists in San Francisco and a gentleman of the strictest integrity. C. A. CLINTON, M.D., Ex-member of Board of Health.

I endorse Dr. Clinton's opinion of Professor Wenzell. WILLIAM SEARBY, Chemist.

This is to certify that I know Professor Wenzell and know him to be correct in every detail. W. H. LOGAN, Ph. G., M.D.

Mme. Marchand, Hair and Complexion Specialist, 121 Post Street, Rooms 32-36, Taber's Entrance. Telephone 1349.
